## RECOMMENDATION:

It is recommended that the City Council:

- (1) Accept the bid, dated July 11, 2001, submitted by Madison Paving Inc. in response to the specifications for the Improvement of Oak Knoll Avenue from Green Street to California Boulevard, reject all other bids received, and authorize the City Manager to enter into such contract as required.

## BACKGROUND:

Plans and specifications for the subject project, which is included in the adopted Capital Improvement Program, were prepared by the Public Works and Transportation Department. Bids have been requested and received.

The work on Oak Knoll Avenue from Green Street to California Boulevard consists of the excavation and removal of damaged concrete pavement and construction and resurfacing using conventional and rubberized asphalt concrete pavement over the entire roadway. This project also includes construction of Portland Cement Concrete (P.C.C.) gutter, curb, sidewalk, driveway, adjustment of utility manholes, and reinstallation of traffic striping.

A finding of compliance with the General Plan was previously made and is shown on page 2.5 of the FY 2001-2006 Capital Improvement Program.

Under the State Guidelines for the Implementation of the California Environmental Quality Act (CEQA), this project is categorically exempt since the work consists of the maintenance of an existing public street. Therefore, it is recommended that a Notice of Exemption be filed with the Los Angeles County Clerk.

This project was advertised in the Pasadena Journal on June 14, 2001. In addition, the Notice Inviting Bids was published in five trade publications. A total of thirty-seven bid packets were obtained by contractors.
