

27 Sept., 2002

Mayor William Bogaard,
City of Pasadena
100 N. Garfield
Pasadena, CA 91109

Dear Mayor Bogaard,

It just recently came to my attention that the City Hall Restoration Committee had been asked to serve as the oversight committee for the construction phase of the project. After careful consideration I came to the conclusion that I am not prepared to make that commitment. I therefore tender my resignation so that you can fulfill the position with some one who can make the commitment.

Having come from the engineering/construction industry, I have enjoyed the opportunity to serve as your appointee to the committee. It is with some regret that I must decline the opportunity to continue with the project. Our city is fortunate to have present two world recognized engineering/construction firms. I am confident that you can find a suitable replacement from either organization.

Sincerely,

Clifford L. Benedict

CC: Segun Abegunrin, Acting City Architect
