Re: Resignation from the Transportation Advisory Commission

Dear Councilwoman Joyce Streater,

I would like to thank you for providing me the opportunity to serve the City of Pasadena, specifically Northwest Pasadena. The transportation commission was a great opportunity to learn how the City's mobility infrastructure operates throughout our local region. Unfortunately, due to increased school responsibilities and my increased involvement in the County's plan to address many serious conditions impacting thousands of individuals living in poverty, I must resign from the transportation commission effective immediately.

Best regards,

John L. Russell
