

Agenda Report

May 3, 2004

TO:

City Council

FROM:

City Manager

SUBJECT:

Ten-Year History of Park Appropriations & Expenditures

RECOMMENDATION

This report is for information only and no action is recommended.

BACKGROUND

The City Council recently requested historical information on capital funding for park projects throughout the City. While a 20 and perhaps 30 year time horizon was requested, ten years worth of history was readily available and is presented for your review. The information is taken from the capital improvement budget and capital expenditure reports. In addition, there are often expenditures at the various parks that come out of the Department of Public Works' operating budget that cannot be recaptured since the detail of where these expenditures occurred is not available.

DISCUSSION

The attached schedule provides financial information in two columns of numbers. All information is through March 31, 2004. If the project is still open, the life-to-date appropriation has been reported. If the project has been closed within the past ten years, the life-to-date expenditures for that project are being reported.

Please note that the information has been sorted by park or area and that there are several projects that are not park specific and cover either a region within the City or multiple parks.

In addition to the specific park expenditures, information has been gathered regarding the cost to construct/renovate three community centers, Victory, Jackie Robinson, and Villa-Parke. Based upon the financial records, the City spent \$2.55 million, primarily in 1981, on the Jackie Robinson Center, \$7.6 million, primarily in 2002, on the Villa Parke Community Center and \$636,447, primarily in 1975, on the Victory Park Center. Relating to the Victory Park Center expenditures, if the cost for that project was converted into 2004 dollars, the cost would have been closer to \$2.5 to \$3 million.

MEETING OF 5/03/2004 AGENDA ITEM NO. 12.A.

Staff will be present to respond to any questions you might have.

FISCAL IMPACT

This report is for information only and there is no fiscal impact.

Respectfully submitted,

Øynthia J. Kurtz City Manager
