

## Appendix 4

### CONTINUATION COMMITTEE AND ITS FUNCTION

PBID Law provides for a group of property owners within a geographic area to organize and develop a proposed Plan, and to subsequently petition their fellow property owners to support this Plan.

The original PBID for Old Pasadena was created through this process, and the Continuation campaign that was required for another five-year term allowed for this "Continuation Committee" to be formed, as a separate and ad-hoc entity for planning and initiating this petition effort.

This Continuation Committee has worked closely with a third-party Assessment Engineer to research existing assessments, services, related costs and budgets, in order to develop this PBID Management Plan for consideration by fellow property owners. Once the Engineer's Report and analysis was completed by the Continuation Committee and presented in late March, the Board of Directors for the Old Pasadena Management District endorsed and supported the proposed Plan.

Special thanks are owed to the participating members of this ad-hoc Continuation Committee that have served over the last eight months to develop this PBID Management Plan for 2006-2010:

Doug Huberman, *Chair*  
*RVM Associates*

Ed Eyerman  
*Sares-Regis*

Suzanne Marks  
*Pasadena Advertising*

Enrique Martinez  
*City of Pasadena*

Robert Montañó  
*City of Pasadena*

Jim Plotkin  
*Plotkin Partners*

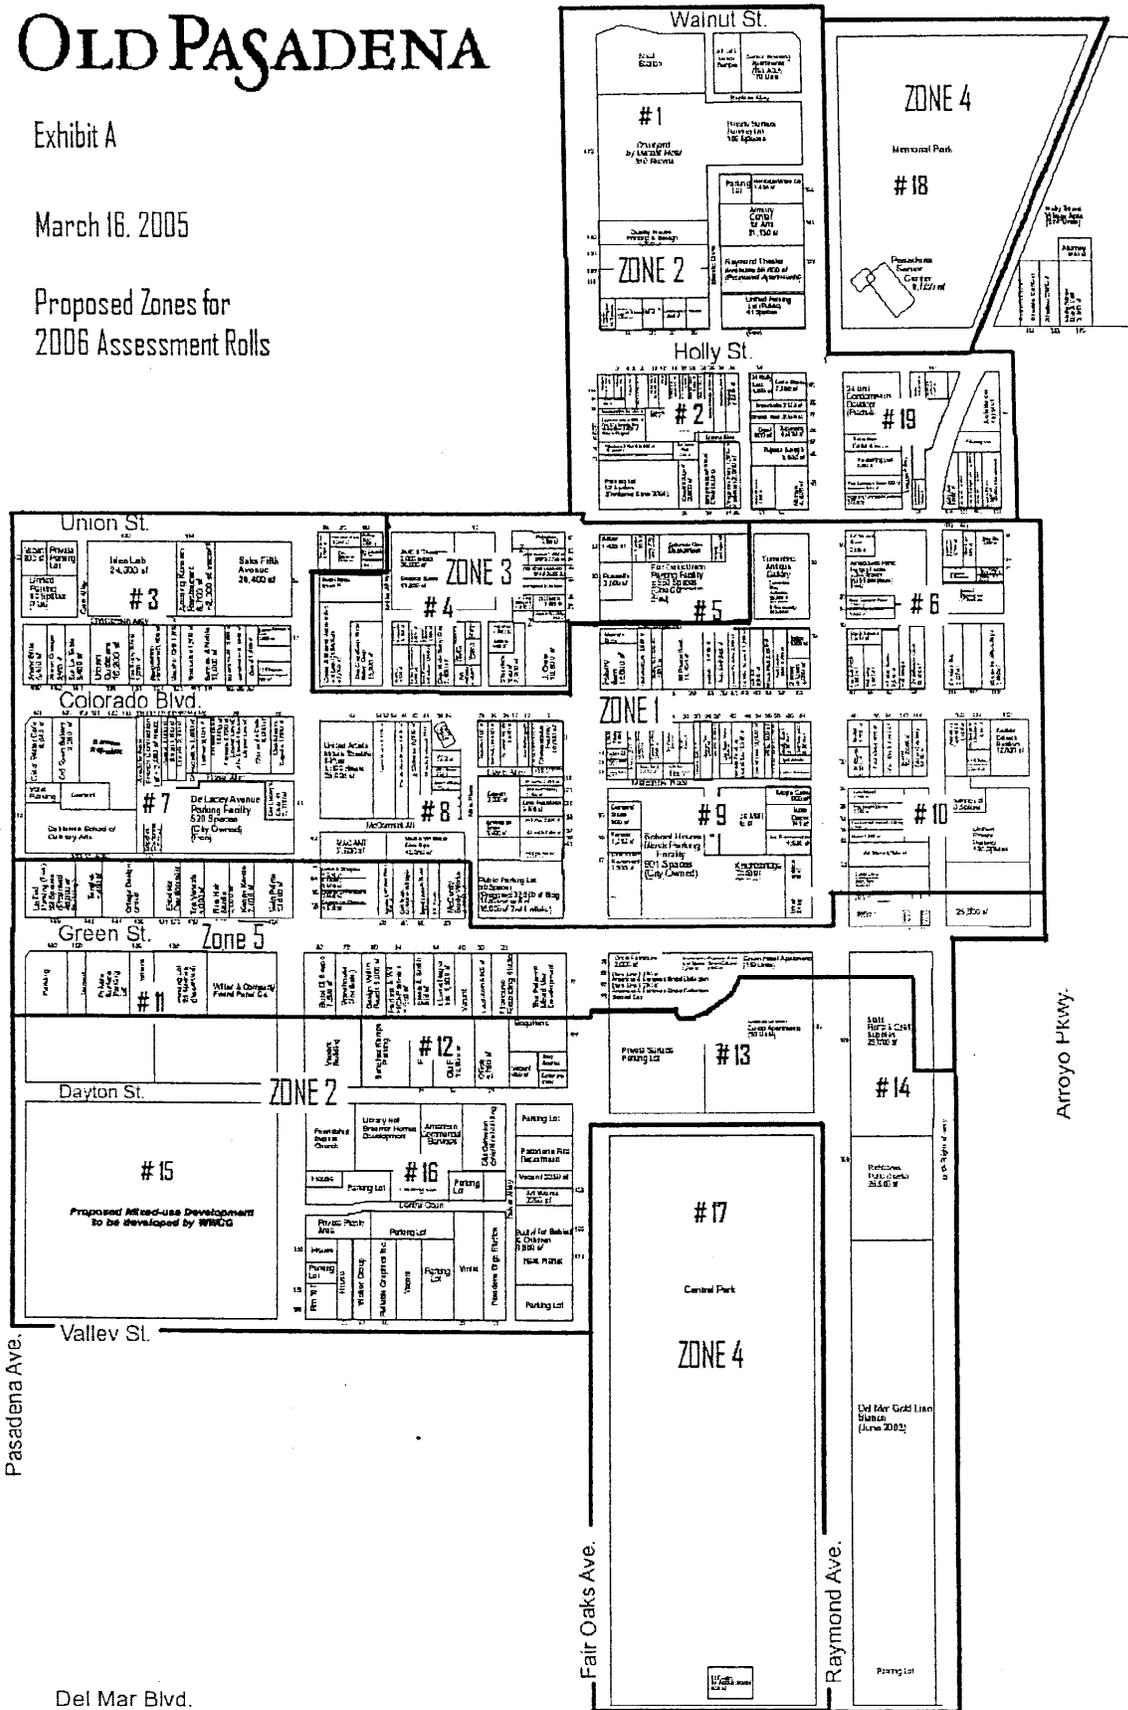

Maggie Campbell  
*Old Pasadena  
Management District*
