Conditional Use Permit #4085 and PD-11 Amendment, 2159-2233 E. Foothill Boulevard

2159-2233 E. Foothill Boulevard  
Pasadena, California  
Los Angeles County

East side of Craig Street between Foothill Boulevard and White Street

**Project Description**

The applicant, Barnard Foothill I, LLC has submitted a Conditional Use Permit (CUP) application to expand an existing self-storage building and a Variance application for the number of required parking spaces. The project site is zone PD-11 (Planned Development-11, Foothill Boulevard, Craig Avenue, and White Street). According to the PD-11 provisions, all regulations not specifically stated in the PD-11 are deferred to the base district CG (General Commercial). On January 2003, the Pasadena City Council adopted an ordinance prohibiting new construction of self-storage facilities in the commercial zones including the CG. The self-storage use predates the ordinance adopted by the City Council, thus the self-storage facility became a nonconforming use. Pursuant to Chapter 17.76 of the Pasadena Municipal Code, a Conditional Use Permit is required for the expansion of nonconforming uses.

The proposed expansion involves a 67,150-square foot building to be constructed on the southwestern end of the site. Two buildings are proposed to be demolished, 1,125-square foot automotive repair garage, a 2,880-square foot office/industrial, and 400-square feet of storage area. A historic building locate at 2189 E. Foothill Boulevard will be preserved. The project also provides for 13 parking spaces.

In conjunction with the Conditional Use Permit application, a parking Variance application was also submitted for the project. According to the Zoning Code, 33 spaces are required. The project is providing 11 spaces, thus the request for a Variance.

As part of a future expansion to the easterly portion, the applicant is proposing to amend the PD plan contained in the PD-11 zoning district. This amendment proposes the construction of a four-story, 77,650-square foot self-storage building and 23 parking spaces in an area where the PD-11 provided for a parking area. Currently, the adopted 1986 PD-11 plan provides for a parking area. Ultimately, all the proposed buildings will bring the total floor area up to 278,030 square feet after demolition of the buildings noted above.

On October 4, 2004, the City Council approved the environmental determination and the application to the PD-11 amendment to allow for the expansion of a 25-foot high self storage facility on the eastern portion of the site.

An application was submitted to modify the PD-11 plan for the eastern portion of the site to allow for the construction of a 30-foot high, 46,200-square foot self-storage facility. As originally proposed, the height of the self-storage building for the eastern portion of the site was 45 feet with 77,650 square feet. The proposal also had one basement level for storage. The applicant is proposing to modify the self-storage building by reducing the height and square footage from 45 feet to 30 feet and 77,650 square feet to 46,200 square feet. The new proposal would have two level basement for storage. The revised project is reduced from the original project analyzed in a Mitigated Negative Declaration. There are no new impacts as a result of the revision and all original mitigation measures that were adopted are applicable to the revised project. Therefore, per Sections 15162 and 15164 of California Environmental Quality Act (CEQA) an addendum was prepared. The italicized text represents the revised or new text that has been added to this document that was approved on October 4, 2004.

**Findings of Exemption (attach as necessary)**

The project will not have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game (CDFG) or the U.S. Fish and Wildlife Service (USFWS); have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, regulations or by CDFG or USFWS; have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling hydrological interruption, or other means; interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites; conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance, or; conflict with the provisions of an adopted Habitat Conservation Plan, Natural Community Conservation Plan, or other approved local, regional, or state habitat conservation plan.

**Certification:**

I hereby certify that the public agency has made the above findings and that based upon the Initial Study for the project will not individually or cumulatively have an adverse effect on wildlife resources, as defined in Section 711.2 of the Fish and Game Code.

**Project Description:**

The applicant, Barnard Foothill I, LLC has submitted a Conditional Use Permit application to expand an existing self-storage building in the PD-11 (Planned Development-11, Foothill Boulevard, Craig Avenue, and White Street) zoning district and a Variance application for the number of required spaces. The project site is zone PD-11 with an underlying base district of CG (General Commercial). All regulations not specifically stated in the PD-11 are deferred to the base district CG. On January 2003, the Pasadena City Council adopted an ordinance prohibiting new construction of self-storage facilities in commercial zones including the CG. The self-storage use predates the ordinance adopted by the City Council; thus the self-storage facility became a nonconforming use. Pursuant to Chapter 17.76 of the Pasadena Municipal Code, a Conditional Use Permit is required for the expansion of nonconforming uses.

The proposed expansion involves two buildings, a 69,900 square foot building to be constructed on the southwestern end of the site and an 11,400 square foot building in the central portion of the site. The project also provides for 11 parking spaces. Three buildings are proposed to be demolished, a 1,125 square foot automotive repair garage, 2,880 square feet of office/industrial, 10,280 square feet of office, and 400 square feet of storage area.

In conjunction with the Conditional Use Permit, a parking Variance application was submitted for the project. According to the Zoning Code, 33 spaces are required. The project is providing 11 spaces, thus the Variance request.

As part of a future expansion to the easterly portion, the applicant is proposing to amend the PD plan contained in the PD-11 zoning district. This amendment proposes the construction of a four-story 77,650 square foot self-storage building with 23 parking spaces for Phase 3.

Currently, the adopted 1986 PD-11 plan provides for a parking area. Ultimately, all the proposed buildings will bring the total floor area up to 387,180 square feet after demolition of the buildings noted above.

*On October 4, 2004, the City Council approved the environmental determination and the application to the PD-11 amendment to allow for the expansion of a 25-foot high self-storage facility on the eastern portion of the site.*

*An application was submitted to modify the PD-11 plan for the eastern portion of the site to allow for the construction of a 30-foot high, 46,200-square foot self-storage facility. As originally proposed, the height of the self-storage building for the eastern portion of the site was 45 feet with 77,650 square feet. The proposal also had one basement level for storage. The applicant is proposing to modify the self-storage building by reducing the height and square footage from 45 feet to 30 feet and 77,650 square feet to 46,200 square feet. The new proposal would have two level basement for storage. The revised project is reduced from the original project analyzed in a Mitigated Negative Declaration. There are no new impacts as a result of the revision and all original mitigation measures that were adopted are applicable to the revised project. Therefore, per Sections 15162 and 15164 of California Environmental Quality Act (CEQA) an addendum was prepared. The italicized text represents the revised or new text that has been added to this document that was approved on October 4, 2004.*

---

**This is to advise that the City of Pasadena on \_\_\_\_\_ approved the above described project and made the following determinations:**

- A Mitigated Negative Declaration was prepared for this project pursuant to the provisions of CEQA**
- A Previous Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA**
- A Program Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA**
- An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA**

**Mitigation Measure**  **were made a condition of project approval**  
 **were not made a condition of project approval**

**The project, in its approved form,**  **will have a significant effect on the environment**  
 **will not have a significant effect on the environment**

**A statement of overriding consideration**  **was adopted for this project**  
 **was not adopted for this project**

A copy of the Mitigated Negative Declaration, Initial Study, Mitigation Monitoring Program, and record of project approval may be examined at the Planning and Development Department, George Ellery Hale Building, Permit Center, 175 North Garfield Avenue, Pasadena, CA 91101-7215, Telephone (626) 744-4009.

## **Amended Planned Development-11 (Foothill Boulevard, Craig Avenue, and White Street) Development Standards**

The amended development standards will supersede all development standards that have previously been approved for this site.

### **A. Land Uses**

1. Self-storage and Office-Administrative, Business, and Professional are the only permitted uses in this PD. The office use is limited to only the southerly two-story portion of Building C-2 and the self-storage use is limited to the northern single-story portion of Building C-2 and all other existing and proposed buildings.
2. Outdoor storage containers shall be limited to the north side of the White Street and Foothill parking lot as permitted under the 1986 PD plan. Storage containers shall be permitted on the eastern portion of the site (Foothill Boulevard parking lot), until development of Building D occurs on this site. No additional storage containers shall be permitted on the PD site.

### **B. Development Standards**

3. No storage of Recreational Vehicles (RV) shall be permitted on the White Street parking lot. Until new development occurs on the eastern portion of the PD site, parking for RVs is limited to the Foothill Boulevard parking lot with proper screening under the current plan.
4. There shall be a landscaped berm 10-feet deep along the length of the White Street frontage.
5. There shall be a 15-foot landscaped setback between the parking lot on White Street and the residential district to the east of the Planned Development boundary.
6. The setback for the east side of the existing storage Building C-1, adjacent to the residential district, shall be maintained as approved under the 1986 PD plan and as shown in Exhibit 1. This building shall also maintain a minimum setback of 74 feet from the property line along the White Street frontage, as approved under the 1986 PD plan.
7. No building located within 166 feet of the northerly PD boundary along White Street shall exceed 23-feet in height.
8. The maximum height of Building D on the eastern portion of the site shall not exceed 30-feet, except for appurtenances as provided under Section 17.40.060(D) of the Zoning Code.
9. The maximum height of Building A on the southwesterly portion of the site shall not exceed 45-feet, except for appurtenances as provided under Section 17.40.060(D) of the Zoning Code.
10. The setbacks for Building D on the eastern portion of the site shall be in conformance with the attached site plan as shown on Exhibit 1, entitled "Site Plan".
  - a. North side: Minimum 15 feet for the 1st and 2nd story and 25 feet for the 3rd story.
  - b. South side: Minimum 5 feet.
  - c. East side: No setback is required.

- d. West side: No setback is required.
11. The setbacks along Foothill Boulevard and Craig Avenue for Building A on the southwestern corner of the site shall be in conformance with the attached site plan as shown in Exhibit 1, entitled "Site Plan".
    - a. North side: No setback is required.
    - b. South side: A range of 5-10 feet
    - c. West side (corner yard): 5 feet+
  12. The 5-foot setback along Foothill Boulevard frontage for Building D shall be landscaped. The 15-foot setback on the north side of Building D shall also be landscaped, as shown on Exhibit 1. A landscaped and irrigation plan shall be prepared and submitted for review and approval by the Zoning Administrator and Planning Director or Design Commission.
  13. The proposed building, Building D, on the eastern portion of the site shall not exceed a maximum of 46,300-square feet of gross floor area. The building at the southwestern corner, Building A, shall not exceed a maximum of 69,600-square feet, including the preservation of approximately 5,000-square feet of the existing historically significant Building C-2. The existing warehousing building, Building C-1, shall not exceed 128,230-square feet. Full development on the entire PD site shall not exceed 261,000-square feet of total floor area.
  14. The hours of operation for the self-storage use shall be limited to hours between 7:00 a.m. to 7:00 p.m. seven days a week, except for the self-storage facility identified as Building A as shown in Exhibit 1, which may operate between the hours of 7:00 a.m. to 10:00 p.m. seven days a week. The hours of operation for Building D shall be limited to hours between 7:00 a.m. to 7:00 p.m. seven days a week.
  15. All other regulations of the CG (General Commercial) district that are not inconsistent with this Planned Development shall apply.
  16. A sign plan for all new development shall be submitted to and approved by the Zoning Administrator prior to any occupancy of the buildings.
  17. There shall be no vehicular access on White Street.
  18. Parking shall conform to the requirements of Chapter 17.46 of the Pasadena Municipal Code and to the requirements of the Department of Public Works and the Department of Transportation, except as specified herein. Prior to the construction of Building D, a minimum of 45 parking spaces shall be provided for the entire PD plan. Upon completion of Building D, a minimum of 52 parking spaces shall be provided for the entire PD plan. All parking spaces shall be double-striped and provided with wheel stops. One tree shall be provided for every six (6) parking spaces.
  19. The applicant shall meet all the requirements of Section 17.46.320 (Bicycle Parking Standards) of the Zoning Code. Final location of the bicycle parking and type of bicycle racks shall be reviewed by the Public Works and Transportation Departments.
  20. The parking, trash enclosure, and loading areas shall conform to the requirements of the Zoning Ordinance and a plan showing all pertinent dimensions for these areas shall be

submitted to the Department of Public Works and the Department of Transportation for review and approval prior to the issuance of a building permit.

21. No mechanical equipment, with the exception of solar collectors, shall be permitted on any roof unless properly screened, or in an enclosure designed to be architecturally compatible with the building. All screening must be reviewed and approved by the Zoning Administrator. All mechanical equipment shall be screened in accordance with Chapter 17.40.150 (Screening) of the Zoning Code.
22. A detailed site plan/floor plan for review and approval by the Zoning Administrator shall be submitted prior to the issuance of a building permit. The site plan submitted for building permits shall substantially conform to the site plan as shown in Exhibit 1.

### **C. Design Review**

23. Concept and final design review shall be required for Building D as per Table 6-3 of the Pasadena Municipal Code Chapter 17.61.

### **D. Arts Requirements**

The following Art requirements shall apply to the new development identified as Building D on the easterly portion of the site as shown in Exhibit 1:

24. The Public Art Ordinance requires that at least one percent (1%) of the building permit valuation of commercial, industrial and mixed use projects over 25,000 square feet of gross floor area shall be allocated by the developer to incorporate in their design a public art component.
25. For any project with an on-site public art budget of \$25,000 or more, an experienced public art consultant is required and should be contracted as soon as possible to work as an integral part of the overall design team from the inception of the project.
26. No project will receive Preliminary/Concept Design review without first applying to the Arts Commission for Preliminary/Concept Art review.
27. The actual Arts Commission review must take place within 45 days of the Concept Design review.
28. Application for Final Design review is only possible with an approved Preliminary Art Concept.
29. Final Art Plan Review must occur within 45 day of the Final Design review.
30. A deposit of twenty percent (20%) of the total one percent obligation as the Public Art Deposit will be required at plan check.
31. The applicant is responsible to allocate the remaining eighty percent (80%) toward an on-site public art project.

## **E. Public Works Standards**

32. Prior to the start of construction or the issuance of any permits, the applicant shall submit a Construction Staging Plan to the Department of Public Works and the Department of Transportation for review and approval. This plan shall show the impact of the various construction stages on the public right-of-way including street occupations, lane closures, detours, staging areas, and routes of construction vehicles entering and exiting the construction site.
33. The applicant shall place a \$10,000 deposit with the Department of Public Works prior to the issuance of a building or grading permit. This deposit is subject to refund or additional billing, and is a guarantee that the developer will keep the site clean and safe, and will make permanent repairs to the abutting street improvements that are damaged, including striping slurry seal/resurfacing, curb, gutter, and sidewalk, either directly or indirectly, by the construction of this site.
34. The proposed development shall connect to the public sewer by a method approved by the Department of Public Works. All sewer connection shall be 6-inch diameter vitrified clay pipe with a minimum slope of 2 percent.
35. The applicant shall submit to the Department of Public Works a grading and drainage plan for review and approval indicating the quantity of storm water runoff and how it will be handled prior to the issuance of a building permit. If drainage patterns are altered, the applicant shall provide an approved method of controlling storm water runoff. Approval shall be made by the Planning and Development Department and the Department of Public Works prior to issuance of a grading or building permit for this site.
36. The development is subject to the requirements of the City's Storm Water and Urban Runoff Control Regulation Ordinance, which the requirements of the Regional Water Quality Control Board's Standard Urban Storm Water Mitigation Plan (SUSMP). Prior to the issuance of any demolition, grading, or construction permits for this project, the developer shall submit a detailed plan indicating the method of SUSMP compliance.
37. If the existing street lighting system along the project frontage is in conflict with the proposed driveway locations, it is the responsibility of the applicant to relocate the affected street lights, including conduits, conductors, electrical services, pull boxes and miscellaneous appurtenant work in a manner that complies with the requirements and receives the approval of the Department of Public Works.
38. Excavations in the street of utility connections shall be close as possible to each other and the pavement shall be restored contiguously between extreme excavations.
39. The applicant shall close all unused drive approaches with standard concrete curb, gutter and sidewalk and shall repair any existing or newly damaged curb, gutter and sidewalk, without cutting the asphalt pavement. Sawcutting shall be done along the flowline. Existing street trees shall be protected using the City's Tree Protection Standards available from the Parks and Natural Resources Division (744-4514), along the subject frontage (s) prior to the issuance of a Certificate of Occupancy.

40. If the proposed improvement drains to the driveway, the applicant shall construct a non-sump grate drain in the driveway at the back of the sidewalk. The drain shall discharge to the street in a curb outlet approved by the Department of Public Works.
41. The project shall comply with the Tree Protection Ordinance (TPO) that provides protection for specific types of trees on private property as well as all trees on public property.
42. If pruning of street trees will be required to facilitate construction of the development, pruning of street trees shall be done by the City's Parks and Natural Resources Division crew. The applicant shall be responsible for the cost of pruning the street trees to the Department of Public Works a \$1,500 deposit, subject to refund or additional billing, for the City crew to prune the street trees if pruning is required.
43. If street tree vacancies exist, the applicant shall plant and maintain, for a period of three years, the officially designated street tree per the City approved master street tree plan on the subject frontage and install an irrigation system for those trees. Locations will be finalized in the field by Department of Public Works staff. Trees must meet the City's tree stock standards and be planted according to the details provided by the Parks and Natural Resources Division. The trees shall be approved by the Forestry Supervisor prior to the issuance of a Certificate of Occupancy. Plans for irrigation system shall be prepared by a landscape architect registered in the State of California and submitted to the Department for review and approval.
44. Plans must be submitted to the Parks and Natural Resources Division for approval showing any structures, irrigation, footings, grading or plantings that impact City street trees. The plans must conform to the Tree Protection Standards which specifically require showing the locations of all existing trees, their diameters and actual canopies as well as any trees to be planted with their canopy at mature size.
45. The applicant shall comply with the current NPDES (National Pollutant Discharge Elimination System) Permit requirements for Development Planning and Development Construction through the Planning and Development Department of the City.
46. Unless otherwise arranged, the applicant is responsible for design, preparation of plans and specifications, and construction of all required public improvements. Plans for the above improvements shall be prepared by an engineer registered in the State of California. Upon submission of improvements plans to the Department of Public Works, the applicant will be required to place a deposit with the Department to cover the cost of plan checking and construction inspection of the improvements.
47. A sewer flow analysis, prepared by a civil engineer registered in the State of California, shall be submitted to the Department of Public Works for review and approval. The sewer flow analysis shall include sewer flow monitoring at specific locations to be determined by the Department. The sewer flow analysis shall include calculations for the quantities of sewer flow for the pre-development and post-development conditions and how sewer flow will be handled. The applicant will be required to mitigate any potential sewer capacity deficiency by a method approved by the Department. The applicant shall also be responsible for all costs required in mitigating the potential sewer capacity deficiency, including upgrading existing sewer mains and/or replacing the existing sewer mains with larger mains in the streets fronting the development and reaches further downstream of the proposed development.

48. The applicant shall submit the following plan and form which are obtainable from the Recycling Coordinator, (626) 744-4721, of the Department of Public Works for approval:
- a. C & D Recycling & Waste Assessment Plan – Submit plan prior to issuance of the grading permit. A list of Construction and Demolition Recyclers can be obtained from the Recycling Coordinator.
  - b. Monthly reports must be submitted throughout the duration of the project.
  - c. Summary Reports with documentation must be submitted prior to final inspection.
49. The applicant shall advertise the availability of salvage materials. A listing can be made at no charge in the CALMAX Quarterly Catalog at [www.ciwmb.ca.gov/CALMAX](http://www.ciwmb.ca.gov/CALMAX) or through LACOMAX at [www.dpw.co.la.ca.us/epd/lacomax](http://www.dpw.co.la.ca.us/epd/lacomax) or through preservation groups or web or newspaper advertising.
50. The project shall be subject to the use of deconstruction techniques. A deconstruction manual is available free of charge by downloading it from [www.ciwmb.ca.gov/publications](http://www.ciwmb.ca.gov/publications) or by requesting a copy from the Recycling Coordinator, (626) 744-4721, of the Department of Public Works.
51. The project will be subject to the development impact fee for new construction. This fee will be used to fund street and traffic improvements in this general area. This fund was created to address incremental traffic impacts by new developments citywide.
52. The project is not subject to the City's Transportation Demand Management (TDM)/Trip Reduction Ordinance (TRP) requirements.
53. Restrict all noise intensive construction activity to daytime working hours in accordance with the city noise ordinance.
54. Any modifications to the approved plans shall be submitted for review and approval to the Director of Planning and Development, for compliance with all applicable guidelines.
55. The applicant, or successor in interest, shall comply with Mitigation Measures identified in the approved Mitigated Negative Declaration for CUP #4085, and Conditions of Approval identified by all applicable City Departments for the project. Mitigation measures for CUP #4085 include the following: 1) Preservation of the existing office portion of the building and its landscaped courtyard in front of the building at 2189 E. Foothill Boulevard. The treatment of the office building shall follow the Secretary of the Interior's Standards for rehabilitation; and 2) If the factory portion at the rear of the building at 2189 E. Foothill Boulevard is demolished, any new structure in that location shall be designed to be compatible with the historic resource. The applicant shall participate in an on-going Mitigation Monitoring Program to ensure the appropriate implementation of the mitigation measures and conditions of approval for the project.
56. The proposed project is subject to the City's Condition/Mitigation Monitoring Program and is also subject to Final Zoning inspection. Mitigation Monitoring is required for your project. Under the Monitoring Program, your project will be inspected by Code Compliance staff to determine compliance with the conditions of approval. The Condition/Mitigation Monitoring

inspection will occur during the term of the project. The Final Zoning Inspection will occur at the completion of the project. Required monitoring fees for inspections shall be paid on or after the effective date of the Mitigation Monitoring permit, but prior to the issuance of any building permits. Contact the Code Compliance Staff at (626) 744-4633 to verify the fee. All fees are to be paid to the cashier at the Permit Center located at 175 N. Garfield Avenue. Failure to pay the required monitoring fees prior to initiating your approved land use entitlement may result in revocation proceedings of this entitlement.

57. The design of the wall at the north property line abutting the residential use shall be designed to provide for the continuance of natural flow of water runoff to the PD site as agreed by the property owner and the applicant. Such design shall be reviewed and approved by the Planning and Development Department prior to issuance of building permits.
58. The applicant, or successor in interest, shall comply with any conditions adopted as part of any required approval as well as the code requirements from other City Departments, including the Fire Department.
59. No construction shall be permitted that results in the injury or removal of a landmark, native, or specimen tree as defined under Chapter 8.52 unless findings are made pursuant to Chapter 8.52 of the Pasadena Municipal Code.
60. The creation of a flag-lot subdivision shall not be permitted.

## **Exhibit 1**

**Attachment 5**

F. The office building shall not exceed 200,827 gross square feet, excluding the mechanical penthouse.

G. The office building shall not exceed 22,367 square feet in lot coverage.

H. The height of the parking structure shall not exceed 55 feet above the finished grade to the top of the roof wall.

I. The parking structure shall be set back 6 feet from Boston Court and 67.2 feet from Mentor Avenue.

J. The parking structure shall not exceed 24,422 square feet in lot coverage and shall contain not less than 674 parking spaces of which 241 may be small car parking spaces.

K. The parking structure surface shall be treated to reduce tire noise and be designed to accommodate vans. Exhaust fans for underground parking shall be vented to the roof of the parking structure. The parking structure shall be designed to be compatible with the design of the office building. The exterior design of the parking structure shall be reviewed by the city zoning administrator and the design review committee. Architectural elements of the parking structure must be similar to and compatible with the proposed office building, including the use of exterior building materials and color.

L. Construction activity shall be limited to the hours between 7:00 a.m. and 5:00 p.m. weekdays, with no construction or grading permitted on weekends or holidays.

M. The Lieberg Building shall be restored in accordance with the United States Secretary of the Interior's Standards for Rehabilitation of Historic Structures, and in accordance with the recommendations of the design review committee.

N. No construction shall be permitted that results in the injury or removal of a landmark, native, or specimen tree as defined under Chapter 8.52 unless findings are made pursuant to Chapter 8.52.

O. The creation of a flag-lot subdivision shall not be permitted. (Ord. 6903 § 26, 2002; Ord. 6896 § 35, 2002)

#### **PD-11 — FOOTHILL BOULEVARD, CRAIG AVENUE AND WHITE STREET**

A. Pursuant to Section 17.44.030, the following development standards shall apply to the area reclassified in Section 1 of Ord. 6138:

1. There shall be no vehicular access on White Street.

2. There shall be a landscaped berm 10 feet wide along the length of the White Street frontage.

3. There shall be a 15-foot landscaped setback between the parking lot and the residential uses to the east of the project site.

4. There shall be no setback between the proposed building shown on Exhibit 2 of Ord. 6138 and the adjacent residential uses to the east.

5. Any building on the site shall be set back 74 feet from the north property line.

6. No building located within 166 feet of the north property line shall exceed 23 feet.

7. Any residential units which the cultural heritage commission determines to be good candidates for relocation shall be made available for relocation free of charge for a period of six months from the effective date of the commission's determination. Such determination will be made using the criteria of Pasadena Municipal Code Section 2.46.010. Any person accepting the offer to relocate a residential unit shall assume responsibility for the cost of relocating such units.

8. All other regulations of the CG (general commercial) district which are not inconsistent with this Ord. 6138 shall apply.

B. All construction shall be in conformance with the site plan attached to Ord. 6138 as Exhibit 2 and incorporated herein by this reference.

C. No construction shall be permitted that results in the injury or removal of a landmark, native, or specimen tree as defined under Chapter 8.52 unless findings are made pursuant to Chapter 8.52.

D. The creation of a flag-lot subdivision shall not be permitted. (Ord. 6903 § 27, 2002; Ord. 6896 § 36, 2002; Ord. 6138 §§ 2, 3, 1986)

**Attachment 6**
