

Exhibit D

The following is a preliminary list of possible projects in the City of Pasadena for consideration and further evaluation in any future Arroyo Seco Watershed Feasibility Study:

Lower Arroyo Seco Park

- conversion of the existing concrete channel to a naturalized streamcourse, where feasible; removal of approximately 1 mile of concrete channel between the Colorado Street Bridge and Busch Gardens

Central Arroyo Seco

- a covered channel to handle larger storm flows in combination with a low flow stream through Brookside Golf Course
- a covered channel through the paved parking areas of the Rose Bowl that would allow for additional parking area
- the option of a naturalized streamcourse where feasible

Hahamongna Watershed Park

- Multiple projects from the Hahamongna Watershed Park Master Plan
- Flint Wash
