Police Chief Bernard Melekian reported on an officer-involved shooting that took place on February 19, 2009 and resulted in the death of an individual by the name of Leroy Barnes; and noted details of the investigation process. He expressed the Police Department's sympathy to the Barnes family for their loss.

**PUBLIC COMMENT ON  
MATTERS NOT ON THE  
AGENDA**

Councilmember Madison arrived at 7:02 p.m.

Paul Little, Pasadena Chamber of Commerce President and Chief Executive Officer, commented on an analysis and report regarding commercial real estate that had been prepared by the Chamber of Commerce; and submitted a copy of the report titled, "The Case for Commercial Real Estate: Office – Building a Strong Economic Future for Pasadena." He asked Council to refer this report for review by: the Community Development Committee, Design Commission, Environmental Advisory Commission, Planning Commission, Transportation Advisory Commission, and the Economic Development and Technology Committee (EDTech), with Council to agendize a discussion of this information once the reviews are completed.

Councilmember Gordo suggested EDTech review the report before it is sent on to the various advisory bodies, so that the issues and questions for discussion can be outlined prior to the advisory body reviews.

Dale Trader, Pasadena resident, expressed support for the development of a Greater Pasadena Region Trolley Plan, and submitted informational materials regarding this concept.

Emina Darakjy, Pasadena resident, expressed opposition to the removal of healthy public trees and concerns regarding the recent removal of healthy trees from Colorado Boulevard.

The Mayor noted that correspondence regarding the above tree issue received by the Offices of the Mayor, City Manager, and City Clerk prior to the Council meeting would be made a part of the public record.

The following persons spoke in support of the completion of the Playhouse District tree streetscape plan:

Paul Jacoy, Playhouse District Association President  
Ken McCormick, Playhouse District Association member

Councilmember Holden suggested the Playhouse District tree streetscape plan be agendized as soon as possible to discuss a possible re-evaluation of the plan, with further removal of healthy street trees to be stopped until the discussion can take place.

The Mayor discussed the distinction between issues related to the current status of the tree plan for the Playhouse District on Colorado Boulevard vs. the larger issue related to citywide tree protection and preservation policies.

In response to Councilmember Tyler's questions, the City Manager indicated that staff could return in two to three weeks with a framework (timeframe and scope of analysis) for the review of the Master Street Tree Plan previously requested by Council, along with identification of the street tree plans that will be considered in the review, with the comprehensive review to be completed in four months and referred to the Urban Forestry Advisory Committee (UFAC), if directed by Council.

*(Public comment on the tree issue continued on Page 16.)*

Councilmember Tyler requested that an item to consider a moratorium on the removal of healthy street trees be agendaized for the next Council meeting, with the Playhouse District street trees to be exempted.

The following persons expressed concerns regarding the officer-involved shooting of Leroy Barnes and/or other police actions in Northwest Pasadena, the lack of communication from the Police Department and City, and the alleged disinformation being provided by the City regarding the shooting:

- Nicholas Whitaker, Pasadena resident
- Adena Cole, Pasadena resident
- Clarence Nelson, Empowering Lives/Northwest Community representative

The Mayor indicated that, as a result of the complicated nature of the above incident, information would be released as it becomes available through an investigation of the facts by the Police Department and verification of this information by outside agencies. The Mayor noted that the Police Chief and Councilmember Robinson were scheduled to meet with the Barnes family on Tuesday (February 24th).

Councilmember Holden offered his condolences to the Barnes family.

In response to Councilmember Madison's questions, Martin Pastucha, Director of Public Works Department, discussed various funding alterations to the listed existing projects.

Councilmember Gordo clarified that the State was still able to pull back funding for City projects in which the funds were allocated but not encumbered by approved contracts.

Norman Parker, Linda Vista/Annandale Association President, expressed concerns regarding the project involving lighting replacement in Rose Bowl Parking Lot K (e.g., height of light posts/standards could interfere with sight line and view of Arroyo neighbors and cause potential problems with light disbursement); and asked that a demonstration of the proposed lighting be included as part of the Conditional Use Permit process.

It was moved by Councilmember Tyler, seconded by Councilmember Holden, to approve the City Manager's recommendation. (Motion unanimously carried) (Absent: Councilmembers McAustin, Vice Mayor Haderlein)

The Mayor announced now was the time for the continued public hearing.

Jennifer Paige-Saeki, Senior Planner, reviewed the supplemental agenda report and revised recommendation as part of a PowerPoint presentation, and responded to questions.

Javan Rad, Deputy City Attorney, discussed the legal status of the San Diego County ordinance; the differences between the appeal and application processes for video vs. wireless facilities/equipment; issues related to setting standards as part of the ordinance (e.g., number of allowable facilities/equipment on a property, appearance of facilities/equipment, and mitigation measures); and requirements for justification studies. He clarified use of code enforcement to ensure that the permittee is meeting the conditions of the permit, and responded to questions regarding the Code amendments.

Richard Bruckner, Director of Planning and Development Department, responded to questions regarding various proposed regulations, and the appeal and application processes.

The City Attorney commented on possible complications arising from setting standards in the ordinance rather than considering applications on a case-by-case basis.

Councilmember Madison stressed the need to have consistent, similar, straightforward application and appeal processes for both video and wireless facilities/equipment, with appropriate

time provided for input and appeals by the public; and suggested all appeals be heard by the Council, to include both wireless and wireline (video) facilities.

In response to Councilmember Madison's suggestion, the City Manager discussed the appeals processes and indicated that all appeals (video and wireless) and applications involving City-owned properties could be heard by the City Council. He discussed the balance between locating the facilities/equipment on the public right-of-way with locating the facilities/equipment on sites from the Opportunities Site Map, and responded to questions regarding staff's efforts to respond to Council's suggestions regarding provisions to be included in the proposed Code amendments.

Councilmember Tyler expressed concerns regarding properties on the Opportunities Site Map that are located adjacent to residential properties, the related impacts on neighborhoods, and possible over concentration of the facilities/equipment.

Councilmember Gordo discussed the need for setting a standard in the ordinance so that the issue of over concentration is clearly addressed; and suggested a bond be required for both private and public property, and an appeal process be provided when a permit is being renewed at the end of the 10-year permit period, with the Council and public to be notified of the administrative renewal.

Discussion followed on the differences between the proposed regulations for video vs. wireless facilities/equipment, requirements for justification studies, use of the Opportunities Site Map, the timeframes for applications and appeals, issues related to locating the facilities/equipment on public vs. private property, concerns regarding over concentration of equipment on a property, impacts of the facilities/equipment on neighborhoods, options for an appeal process for permit renewals, options for ensuring Code compliance with conditions to the permit, and use of buffer zones to protect neighborhoods.

The following persons spoke in opposition to and/or expressed concerns regarding the proposed Code amendments:

Robert C. Holmes, West Pasadena Residents Association (WPRA) Board member, submitted a letter stating his questions and comments.

Jody Donnelly, Pasadena Friends of Altadena Neighborhood Alliance representative

Nina Chomsky, Linda Vista/Annandale Association Board member

The following persons spoke in support of the proposed Code amendments:

Dale Trader, Pasadena resident

Dan Rix, City Engineer, commented on issues involving the undergrounding of facilities/equipment, and responded to questions.

Jonathan Kramer, Esq., City's outside consultant, responded to questions regarding limitations on undergrounding and federal and state legal restrictions and implications of the proposed regulations.

Discussion continued regarding public notification practices, and limitations on undergrounding requirements of the facilities/equipment.

Mr. Bruckner listed the following items that could be included in the revised recommendation, if directed by Council to do so:

- 1) at the end of the 10-year permit period and administrative review, the City Council and Planning Commission will be notified and can call up the permit renewal for review
- 2) all appeals of decisions on right-of-way applications will be heard by the City Council
- 3) surety bonds will be required for facilities/equipment on public and private property
- 4) City Council will consider all permit applications for properties located on the Opportunities Site Map
- 5) after one year, a review of the Code changes will be conducted to determine if they are operationally burdensome to City Council and if the changes are achieving the intended objectives within the boundaries of the law

Councilmember Robinson asked that one copy of a public notice be sent to each address, when noticing is required (rather than sending notice only to the property owner).

Mr. Bruckner confirmed that, in addition to mailing, public notices are currently posted on light poles and a notification board could also be placed at the site of the proposed facilities/equipment.

Vice Mayor Haderlein suggested that the review to be conducted at the end of a year of implementation of the Code amendments also include a review of the case law, as this relates to possible additional changes to the Code.

It was moved by Councilmember Holden, seconded by Councilmember Gordo, to close the public hearing. (Motion unanimously carried) (Absent: Councilmember McAustin)

Following discussion, it was moved by Councilmember Holden, seconded by Councilmember Madison, to approve the City Manager's revised recommendation, as amended to include that: 1) at the end of the 10-year permit period and administrative review, the City Council and Planning Commission will be notified and can call up the permit renewal for review; 2) all appeals of decisions on right-of-way applications will be heard by the City Council; 3) surety bonds will be required for facilities/equipment on public and private property; 4) City Council will consider all permit applications for properties located on the Opportunities Site Map; 5) after one year, a review of the Code changes will be conducted to determine if they are operationally burdensome to City Council and if the changes are achieving the intended objectives within the boundaries of the law, with current case law to be included in the review; and 6) a copy of one public notice will be sent to each address, when noticing is required (resident and property owner); and with the understanding that the stated intent of the City Council is to have the strongest ordinance in terms of neighborhood protection that is consistent with current laws. (Motion unanimously carried) (Absent: Councilmember McAustin)

The Mayor thanked the community for their participation in this lengthy process.

Councilmember Tyler, Municipal Services Committee member, introduced the agenda item.

Brenda Harvey-Williams, Finance and Manager Services Administrator, reviewed the agenda report as part of a PowerPoint presentation, and responded to questions.

The City Manager clarified the setting of the public hearing; noted that the public hearing date should be corrected to read April 27, 2009 (since the Council meeting on April 20 is cancelled); and responded to questions regarding the proposed street sweeping changes.

Martin Pastucha, Director of Public Works Department, responded to questions regarding the street sweeping changes.

Councilmember Madison expressed concerns regarding the changes in the street sweeping process, and stressed the need for public outreach about these changes.

Councilmember Gordo expressed support for the daytime street sweeping concept; expressed concerns regarding signage in historic districts; and suggested the street sweeping changes be phased in so that neighborhoods can opt in or out of the daytime sweeping schedule, and so that unintended consequences can be addressed.

Councilmember Robinson distributed email correspondence that she had received from Laura Eilersieck, Pasadena resident; and asked that staff respond to the questions raised in the email when the public hearing is held on this matter.

Vice Mayor Haderlein indicated he was skeptical of the benefits of implementing the daytime street sweeping operation citywide, and asked staff to provide financial data on the costs for increasing the frequency of street sweeping.

The following persons spoke in opposition to and/or expressed concerns regarding the proposed changes:

Weston DeWalt, Pasadena resident, asked that the public record for the Council meeting of January 26, 2009 reflect that, as a part of the discussion, it was affirmed that the artworks recommended by the Arts and Culture Commission would remain contenders in any alternatives to be considered during the Pasadena Convention Center public artworks selection process; and commented on the possible preferential treatment given to the Pasadena Center Operating Company (PCOC) in the public arts project selection process and recommendation.

Nancy Nelson, Pasadena resident, commented on President Obama's call for ethics, and issues related to a personal incident involving a landlord dispute and alleged police force.

Richard McDonald, Pasadena resident, discussed and submitted a newspaper article on the electric car/mobility issues ("While Detroit Slept" by Thomas Friedman, The New York Times, dated December 10, 2008) and an article on the census and migration trends ("Migration Gives South and West Big Gains, Census Bureau Statistics Show" by Michael Barone, Thomas Jefferson Street blog, dated February 15, 2009), for Council's consideration in future discussions on the Mobility Element Update and the impact of the census count on planning issues.

The Mayor summarized Council concerns and requests made earlier in the meeting regarding the tree removal issues; and commented on the need to review the Urban Forestry Advisory Committee's (UFAC) role/responsibilities and UFAC's relationship with staff.

Councilmember Tyler reiterated his request to agendaize an item to consider a moratorium on healthy tree removals until new policies are in place, which would not preclude completion of the Playhouse District project. Councilmember Tyler clarified that the prior direction to staff (approved at the Council meeting of February 9, 2009) regarding a review of the City's Master Street Tree Plan and streetscape plans would also include information on the City's current policies on the removal of healthy trees as part of any plan, whether these policies should be amended, and whether current designated species of replacement trees are appropriate given Council's current environmental policies, as suggested by Councilmember Gordo.

Councilmember Gordo requested that staff also include information on streetscape/tree plans (excluding the Playhouse District) that have not been implemented or for which action has not been taken, and a timeline for taking these plans to UFAC for review and recommendations on possible amendments to the plans (e.g., a review of plans that contemplate the removal of healthy trees).

Vice Mayor Haderlein requested that a review of UFAC's role be agendized for a future Council meeting.

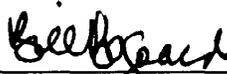

**COUNCIL COMMENTS**

Councilmember Robinson indicated that she had received correspondence from Supervisor Antonovich asking for support on legislation involving additional residential restrictions on sex offenders, and requested that this be referred to the Public Safety Committee.

Vice Mayor Haderlein, Chair of Public Safety Committee, asked staff to provide a comparative analysis of Los Angeles County's sex offender ordinance, when this issue is brought to the Committee.
