Dear Councilmember Holden:

As you know, in March, Flintridge Operating Foundation was named Institutional Home for violence prevention and intervention efforts in Pasadena and Altadena. I am deeply committed to this important work and will be focusing my best energies on helping to ensure its success.

In light of this new responsibility for Flintridge and the demands on my time that will be required, I regret that I will no longer be able to serve on the City's Environmental Advisory Commission (EAC).

I am therefore writing to confirm our discussion and to inform the other members of City Council that I have resigned from the EAC, effective March 31, 2010.

I have truly appreciated the opportunity to serve. The work of the EAC has great potential and will be critical to the future well-being of our community. I hope that the strategic planning that we did will result in the integrated, holistic approach that is so strongly envisioned for Pasadena.

Most respectfully,

Jaylene L. Moseley
