Mr. David Czamanske, Sierra Club-Pasadena group representative, spoke in support of the proposed action, urged the City to impose fines for individuals who fail to reduce water usage, and recommended that a status report be brought back to the City Council with information on the City’s efforts in reducing water usage, including the percentage of reduction in water use.

Councilmember Kennedy inquired about the “Turf Replacement Program”, suggested that a more robust educational program be developed to inform the community about the program and other water conservation incentives/rebates, and that additional funds be set aside to fund the program. He also stated that the focus should be on incentives as opposed to penalties as it relates to water conservation.

Wendy De Leon, Customer Relations Manager, spoke briefly on the rain barrel and turf removal rebate programs, and indicated that there are workshops held to educate residents on how to use water wisely.

Councilmember Gordo requested that the large-scale local water users such as the Rose Bowl Operating Company (RBOC), Brookside Golf Course, and Annandale Golf Course be given the flexibility to determine the best way to accomplish the 20% conservation goal without imposing restrictions on the number of watering days, noting that there are technical limitations associated with such users. He also encouraged similar large water users to set an example by taking a more aggressive approach in terms of water conservation.

Ms. Currie stated that monthly reports will be provided to the City Council that will include information on where administrative flexibility is necessary to ensure that it meets the City Council's approval.

It was moved by Councilmember Gordo, seconded by Councilmember Madison, to close the public hearing. (Motion unanimously carried) (Absent: None)
