Subject: Senior Commission

Hello Dave and Chris,

I have made a decision to resign from my position as a Commissioner on the Senior Commission. It is with regret that I do so as this is a wonderful group of individuals and I have enjoyed participating in the process. However, given my health concerns after kidney cancer and an admonishment by my physician to "take it easy," I am modifying my schedule and lifestyle. I will still be overseeing the care of my parents who are declining rapidly and requiring more help, and trying to work at least part-time. I have a lot on my plate and would not be able to contribute an appropriate amount of time and effort to the Commission.

It has been an honor to serve in this position and I will advise Mayor Bogaard who was kind enough to appoint me.

Please let me know if I need to send a more official letter or do anything in particular to offer my resignation.

And, last but not least, thank you for your kindness and for your leadership. You have both been a wonderful asset to the commission.

Warm regards,
Rica
