LOS ANGELES COUNTY PRESENTATION ON DEVIL’S GATE DAM SEDIMENT REMOVAL PROJECT IN HAHAMONGNA WATERSHED

Chris Stone, Assistant Deputy Director for the Los Angeles County Department of Public Works, and Keith Lilley, Principal Engineer with Los Angeles County Department of Public Works, provided a detailed overview of the Devil’s Gate Dam Sediment Removal Project and the Project’s Final Environmental Impact Report (FEIR) as part of a PowerPoint presentation, and responded to questions.

The following persons spoke in opposition to, and/or, expressed concerns regarding the Devil’s Gate Dam Sediment Removal project FEIR:

- Dr. Seema Shah-Fairbank, Devil’s Gate Reservoir Sediment Removal and Management Project Working Group
- Tim Brick, Devil’s Gate Reservoir Sediment Removal and Management Project Working Group
- Patricia O’Sullivan, Pasadena Resident

Nina Chomsky, Friends of Hahamongna, Linda Vista
Annandale Association, and Devil's Gate Reservoir
Sediment Removal and Management Project Working
Group

Henreen Nunley, Devil's Gate Reservoir Sediment Removal
and Management Project Working Group

Don Bremner, Devil's Gate Reservoir Sediment Removal and
Management Project Working Group

Tim Martinez, Pasadena resident

Councilmember Tornek questioned the Los Angeles County Flood Control District's position in adopting a standard capacity level of two Design Debris Events (DDE) of sediment accumulation behind Devil's Gate Dam, noting that such a standard/policy has not been adhered to for decades. He also expressed concerns with the Final Environment Impact Report's (FEIR) proposed level of sediment removal, stating that the proposed level is not reflective of past practices as it relates to the Devil's Gate Dam.

Councilmember Madison inquired about the types of permits that must be issued by the City before any project can move forward, expressed serious concerns with the timeframe associated with the project, noting the intensity of work required in order to complete the project within the intended timeframe.

Chris Stone, Assistant Deputy Director for the Los Angeles County Department of Public Works, briefly addressed the urgency surrounding the certification of the proposed project's FEIR and moving forward with the project, which he stated was to manage risks and protect the lives and property of residents downstream from the dam.

Councilmember Gordo stressed the need for the County to reasonably and properly maintain sediment accumulation in the future. He also stated that due to a lack of sufficient information, he could not support the proposed project moving forward, noting a lack of clarity regarding the County's calculations as to what is considered safe capacity for future sediment accumulation, whether or not the proposed project plans will have a significant negative impact to the environment and residents, and suggested that the appropriate City staff communicate directly with the County to address these issues prior to the County's action to certify the FEIR.

Vice Mayor Robinson inquired about the proposed plan to permanently close the access road at the La Canada Verdugo Road cul-de-sac, and suggested that permanent sound walls be considered to reduce impacts of the additional truck traffic. She

Councilmember Gordo was excused at 9:01 p.m., and left the meeting.

also thanked the Ad Hoc Committee working group for their work, and stated her disappointment with the County's recommendation, however, highlighted some items of the Ad Hoc Committee Working Group's "Pasadena Preferred Alternative" that were included by the County in the recommended project.

Mayor Bogaard thanked the County for the concessions made as it relates to the recommendations of the Working Group's "Pasadena Preferred Alternative", however, stated that, in his opinion, further debate and possible modifications are necessary prior to the project moving forward.

In response to Councilmember McAustin's inquiry as to whether or not a meeting can be arranged with the Los Angeles County Board of Supervisors prior to their upcoming meeting scheduled on November 12, 2014, the City Manager stated that he will look into the matter, and if necessary, request to delay the hearing to a future date to allow time for such a meeting. Councilmember McAustin and Vice Mayor Robinson offered to attend the meeting.

Following discussion, by consensus and on order of the Mayor, the report was received and filed.

TRANSPORTATION IMPACT ANALYSIS AND THRESHOLDS
OF SIGNIFICANCE FOR CALIFORNIA ENVIRONMENTAL
QUALITY ACT (CEQA)**

Recommendation:

- (1) Find that:
 - a. the adoption of New Transportation Performance Measures and Thresholds of Significance for CEQA is not a "project" pursuant to the California Environmental Quality Act (CEQA) State CEQA Guidelines Sections 15060 (c)(3) and 15378;
 - b. the thresholds are promulgated pursuant to State CEQA Guidelines Section 15064.7;
 - c. the thresholds have been formally subjected to a public review process;
 - d. the thresholds are supported by substantial evidence as summarized in the agenda report; and

Municipal Services Committee Recommendation: After reviewing and discussing the proposed transportation performance measures and CEQA thresholds over the course of meetings on June 10, 2014, and October 14, 2014, the Municipal Services Committee passed the following motions:

Planning Commission Recommendation: After reviewing and discussing the proposed transportation performance measures and CEQA thresholds over the course of meetings on April 9, 2014, May 28, 2014, June 11, 2014, June 25, 2014, July 23, 2014, and September 10, 2014, the Planning Commission passed the following motions:

Erlinda Romo, Pasadena Playhouse District Association
Qrys Cunningham, Pasadena resident
Blair Miller, Pasadena resident
Wesley Reutimann, Day One, Inc.
Greg Gunther, Downtown Pasadena Neighborhood Association
Jonathan Edwards, Downtown Pasadena Neighborhood Association/Transportation Advisory Commission

Councilmember Tornek asked staff to examine whether or not it is possible to accelerate the nexus study as opposed to delaying it until the adoption of the General Plan, and requested that staff report back to City Council with information on the matter. He also thanked the staff and all others involved in the process for their hard work, and stated his support for the staff recommendation.

In response to Councilmember Tornek, Mr. Dock and Mr. Yamarone stated that staff agreed with the Municipal Services Committee recommendation to remove Auto Level of Service (LOS) and Street Segment Analysis as CEQA Thresholds and that both of those measures will be incorporated into the existing "project evaluation process" and that direction has been incorporated into Item 4 of the proposed resolution, which reads, "amend the administrative procedures for the Traffic Impact Analysis Guidelines."

Following discussion, it was moved by Councilmember McAustin, seconded by Councilmember Tornek, to approve the staff recommendation. (Motion unanimously carried) (Absent: Gordo and Kennedy)
