Mayor Tornek, City Council, and Planning Department

Pasadena City Hall
100 N. Garfield Ave
Pasadena, CA 91101

Dear Mayor, City Council, and Planning Department,

While the board of Madison Heights Neighborhood Association (MHNA) appreciates the city councils previous "wait and see" approach before creating a marijuana ordinance to allow sales within our city, we understand there is now an approved motion from city council to prepare an initiative for the June 5th ballot. We recognize that any new ordinance proposed through this process would essentially rewrite land use ordinances passed last year that outlaw the sale or distribution of recreational and medicinal marijuana in the city.

The people living within MHNA are in a difficult position because our neighborhood is surrounded by commercial districts on Arroyo Parkway, California Blvd., and Lake Ave. It has come to our attention that the sale of marijuana at the most recently proposed distance of 600 ft from sensitive-use areas such as schools, libraries, parks, and other marijuana dispensaries, would potentially place a store at the corner of Lake and California and another along Arroyo Parkway should each district be allowed a retail shop. As our bylaws state, it is our duty as a board to oversee city government when Madison Heights and adjacent neighborhoods are threatened by civic planning decisions including zoning. We are concerned about the exposure of marijuana on our family-friendly neighborhood. Multiple studies in California and Colorado have shown that property crimes increase in neighborhoods adjacent to marijuana dispensaries. We ask you to mitigate this risk by keeping them at a distance. See Bridget Freisthler et al., From Medical to Recreational Marijuana Sales: Marijuana Outlets and Crime in an Era of Changing Marijuana Legislation, [The Journal of Primary Prevention](#) (2017)."

As an overview, MHNA asks the staff and council to consider maintaining a 1000 ft buffer between dispensaries and sensitive-use areas. We also would like to see the suggested 1000 ft buffer rule extended to bars and nightclubs. It is important to note that our board encourages you to block commercial marijuana activity where high-density housing is permitted, including the new residential zones within our General Plan that have yet to be developed. Further, MHNA asks your council and staff to use the recommendations created on 10/19/16 as prepared by the Planning Department in response to the passing of Proposition 64.

As MHNA begins to create a more engaged community through social media and town hall meetings, it is our goal to work together with the city council and staff to create communities that fit all of our needs.

Thank you for your consideration,

John Latta
President, MHNA

Hello Tyrone,

I have been following a thread on Nextdoor about Marijuana Dispensaries. There seems to be a lot of heated discussion. I would just like to put my two cents into the pot here with what I believe to be a constructive solution. Treat legalized marijuana like legalized alcohol however, restrict the licenses: only allow maybe 5 per city? I would not allow them anywhere near neighborhoods, parks or schools. Locating them in industrial parks or other off beat places are wrong. I would embrace them in Old Pasadena as a destination for entertainment, like a bar or a lounge. Make them respectable places... high end. They could have a store on the main floor and a lounge above....with smoke filtering in place. There are plenty of bars and gastropubs, why not think of this as the same thing? It would become popular, bring our city income and attract some cool people. If it is legal now then why not bring it to the limelight instead of the shadows? FYI...I haven't smoked pot since the 60's but I think this idea could work,

- 3. If called as a witness, I could and would competently testify to each such fact.
- 4. I have a medical recommendation from a California physician for the use of medical marijuana, which may provide relief to a serious medical condition from which I suffer.
- 5. I have been a member of Golden State for 6 months.
- 6. My medication depends on being regularly supported by Golden State Collective, and I could not simply join another collective because:

This is the only place I can get my meds.

- 7. I get information from my fellow members which I cannot obtain anywhere else or at another collective because:

This is the only place I will go for meds

- 8. I conduct political activity at the collective, because the Pasadena ordinance is not enforced fairly or in the spirit of the Compassionate Use Act or consistently with the Medical Marijuana Program Act.

GSC gives me a place to meet with people who have similar views and to act together more effectively. I cannot simply go to another place, like a Starbucks, and organize politically in an effective way. My privacy is protected at GSC. I have access to associate with fellow patients. GSC is an irreplaceable resource for me because:

This is the only place I will go too.
