Subject: Salvation Army Proposal

CAUTION: This email was delivered from the Internet. Do not click links or open attachments unless you know the content is safe.

Dear mayor and city council members,

I am writing this correspondence to urge you to approve the Salvation Army's proposal to build 50 units of affordable housing in councilman Gordos district. We Seriously need to have affordable and supportive housing spread out through out the city of Pasadena! It is time to begin to start to white out economic segregation in this progressive city. The more people interact closely with people of different economic realities as well as ethnic and racial realities the healthier we will become as a city. And doing so will decrease the social evil of seeing another group of people as the other. Let us put away Otherism!

Again thank you all for your courage In diligently working to create a more humanizing city in the area of affordable and supportive housing.

Sincerely,
Peter C, Hartgens OFM,MSW
