CAUTION: This email was delivered from the Internet. Do not click links or open attachments unless you know the content is safe.

I am deeply concerned about over development, traffic congestion and noise, tree removal, and other quality of life issues. I am in my 90's and lived here most of my life. It would be travesty to change the special feeling and charm of Pasadena. Let's save some part of California that has been the essence of the real old California. Also the Madison Heights area , where I live, should be declared an Historical Site and saved from zoning that would destroy architectural integrity and quality of life. I hope you will read this email and consider it when making life changing decisions. Thank you, Darlene Lloyd 619 South Oak Knoll Ave.
