7. I am a native of Pasadena, Married to my wife of 50 years, with two children (Carola & Michael II), four grandchildren, and three great grandchildren. My wife is a legal immigrant (with a Green Card) which gives me some understanding of immigrant issues. I started my involvement in the Pasadena community in 1962, when I attended Pasadena City College. I have lived in my current residence since 1971. It is a 1914 Bungalow, located in Bungalow Heaven, the first Historic District in Pasadena, organized in 1989 by the Bungalow Heaven Neighborhood Association (BHNA). I have served several times as a docent for the BHNA Historic Homes tour. I have also served several times as a docent for the Heritage Home tours.

The first time I considered being a candidate for city council was when Steve Acker was elected. John Crowley took me to lunch back then and helped give me some direction. Jo Heckman was also a strong mentor when I was vice-chair with her in the Pasadena Sister Cities Committee. I have been involved in many community activities since those times and have built on my community involvement, which I believe can add insight, knowledge and an appreciation for the community to our city council. I know that the city is not just the council as individuals, it is the collective group. It takes each person doing their part to make it work. All the council members, the mayor, the city manager, the city clerk, the city attorney and everyone doing their part. I was reflecting on this aspect, because of our homeless person issue and I was thinking about the Bad Weather Shelter. So many people in the community are upset because it is not going this year the way it has in the past. I have been involved for several years doing my small part to help. This year my church was offering to use our facility to shelter the women, so we were involved in the planning for this year. It is not all about money, or vouchers for rooms. The pandemic has brought so many other issues for all of us that it is impossible to solve them all. This is somewhat simplistic; however it caused me to reflect on our Food Bank and how I do my part in the group by ordering, picking up, setting up, and helping to hand out. I could not do it alone many others are involved. Same with my military time I was just a part of the many with *each of us doing their individual part.*

#8. The City Council is responsible for setting policies, passing ordinances, adopting the budget, appointing committee members, and hiring the City Manager, City Attorney/City Prosecutor, and the City Clerk.

The City Council is here to maintain fiscal responsibility and stability; improve, maintain and enhance public facilities and infrastructure; increase conservation and sustainability within the city; improve mobility and accessibility throughout the city; support and promote the quality of life and local economy; and ensure public safety, etc.

I hope the City Council members are always thinking of the City Vision - Pasadena will combine world class events, science and technology, arts and culture, history and architecture with great neighborhoods and opportunities for all; The City Mission - The City of Pasadena is dedicated to delivering exemplary municipal services responsive to our entire community and consistent with our history, culture and unique character; and the City Values – responsiveness, honesty and integrity, accountability, Excellence, Open, clear and frequent communication, Innovation, and diversity and inclusiveness.

9. I am not sure that any of us are truly qualified to be in the city council by skill or training. However it is my belief that love and devotion to the City of Pasadena is what brings all of us here. With experience we learn to serve our city and become a good council person. My education, background, and willingness to serve the city; along with an ability to listen to other points of view, helps me to be a good candidate to the City Council of Pasadena. I believe I can get along and contribute ideas of value.
