Subject: Reappointment of Tim Brick to the Metropolitan Water District Board

Dear Ms. Kurtz:

I am writing to express the support of Pasadena's Tetra Tech organization for the reappointment of Tim Brick to the directorship of the Metropolitan Water District. Tetra Tech, as you probably know, is a 5,000 plus person environmental, engineering and telecommunications firm headquartered in Pasadena, with annual revenues of approximately one billion dollars.

Director Brick has been instrumental in major contract opportunities for Tetra Tech and its subsidiary, ASL Consulting Engineers, over the last ten years. In addition, he is one of the most knowledgeable experts nationally in the water industry, and has represented the City of Pasadena extremely effectively during his tenure on the MWD board.

Water issues in California are critical to the future of our economy and overall wellbeing of our citizenry. We need to have the expertise and experience of MWD Director Brick available to our City, and as the City's representative to the Metropolitan Water District.

Thank you for taking this important step for our City's future by the reappointment of Director Brick.

Sincerely,

William F. Lyte
Program Manager
