December 13, 2000

To the Honorable Councilwoman Joyce Streater and members of the Pasadena City Council,

I would like to thank you for the opportunity of having served as Transportation Commissioner for District 1. I have found it a rewarding experience and an avenue to serve my fellow citizens in Pasadena. My fellow commissioners have also provided tremendous insight to issues that we all as Pasadena citizens need to address and hope will continue to do so. Let me also thank my fellow commissioners for their service as well.

At this point I find that an opportunity is available for me to apply my talents on the city's planning commission - with your approval of course. So in order to be considered for appointment, I submit this formal resignation effective today to allow for such a transition to occur. I do so leaving a fondness for TAC; because, the spirit of the Transportation Commission is ready to blossom with solutions that the city needs. My hope is that as a planning commissioner I may be able to work in conjunction with TAC to address city planning without neglecting the impact transportation issues have in the process.

I now leave the process (I have outlined) in your hands and look forward to serving our fine city.

At your service,

Mark A. Leon
Transportation Commissioner, District 1

Dist 1 - Joyce Streater
