Mayor Bogaard stated five new School Board members will take office in early May, and he felt they would roll up their sleeves and look carefully at what needs to be done. He also noted the School District has started a review of the recommendations of the Task Force and they plan to reach a conclusion in June. He indicated an interpretation from the City Attorney along the lines suggested by Councilmember Holden would be a good starting point.

This includes the portion of the 1992 COP proceeds that were spent on Rose Bowl improvements and will be applied both prospectively and retroactively.

APPROVAL OF PROCESS FOR DECIDING THE USE OF THE 10% GREEN FEE ARROYO SET-ASIDE FUNDS

Recommendation of City Manager: Approve the following process regarding the appropriation and expenditure of the 10% Green Fee Arroyo Set-Aside Funds (Arroyo Funds):

Qualified capital projects include those projects located within the Arroyo, have a one-time nature, and are not considered routine maintenance.

(2) Recommendations for the use of the Arroyo Funds may originate from any source, including but not limited to, Rose Bowl Operating Company (RBOC) staff or Board Members, City staff, other City Boards and Commissions, the City Council.

(3) Recommendations for the use of the Arroyo Funds will primarily be presented during the annual Capital Improvement Budget process; however, may be presented at any time during the fiscal year.

Vote on the motion:

AYES: Councilmembers Madison, Tyler, Mayor Bogaard
NOES: Councilmembers Haderlein, Holden, Little, Streater, Vice Mayor Crowfoot

ABSENT: None
(Motion failed)

It was moved by Vice Mayor Crowfoot, seconded by Councilmember Haderlein, to approve the City Manager's recommendation (Legislative History and Fiscal Findings regarding 10% Arroyo Green Fee Fund), Chart 27. (Motion unanimously carried)

It was moved by Vice Mayor Crowfoot, seconded by Councilmember Little, to approve the City Manager's recommendation (Approval of Process for Deciding the Use of the 10% Green Fee Arroyo Set-aside Funds).

Councilmember Haderlein noted his strong objection to restricting use of the funds solely to the Arroyo and requested changing the

3/19/2001

wording "Arroyo" to read "citywide parks". He also objected to the lack of funds for maintenance.

In response to Councilmember Haderlein's concerns, Assistant City Attorney Frank Rhemrev indicated that under the current contract, "citywide parks" would not be allowed, as the contract states "related to development of projects in the Arroyo Seco." He further noted, in his opinion, that a fair argument could be made to spend funds for maintenance.

Mayor Bogaard stated he felt there was precedent under the present contract that the term "development" had been used in context with maintenance and improvement of things already in place.

Prior to voting on the motion, it was clarified that the motion remains faithful to the language in the contract that it is for projects related to the development of the Arroyo Seco, including the interpretation of maintenance.

Following discussion, the vote on the motion was taken as follows:
AYES: Councilmembers Holden, Little, Madison, Streater, Tyler, Vice Mayor Crowfoot, Mayor Bogaard
NOES: Councilmember Haderlein
ABSENT: None

UPDATE ON ELECTRIC POWER ISSUES AND THE IMPACT ON PASADENA CUSTOMERS (Oral report)

The City Manager briefly reported on rolling blackouts experienced for the first time in the City today, and discussed contributing factors which led to the blackouts. She noted a detailed discussion is planned for Council's next agenda on why Pasadena was included in the rolling blackouts, how blackouts were allocated throughout the State, and impacts to municipal utilities.

Councilmember Little expressed concern that traffic signals around Pasadena High School were blacked out today, and urged that there be consideration when implementing rolling blackouts as to the time of day when blackouts are occurring, and whether schools are in session.

The City Manager responded that Pasadena High School should not have been blacked out and staff will check further into that situation, noted that there are six other schools located in residential areas and blackouts cannot be prevented at these six schools, and stated staff has been in contact with those principals. Regarding the traffic signals going out, she noted that they are on a different voltage

3/19/2001

and another problem may have caused their outage, and staff will check further into that also.

Councilmember Little urged staff to consider avoiding blackouts to schools, as well as hospitals and convalescent homes. Councilmember Madison suggested staff update the community next week on how rolling blackouts will be implemented within our community, and preparation for rolling blackouts. The City Manager noted that the City receives only 15 minutes advance notice.

Councilmember Holden stressed the need for a discussion of power generation and whether we can become more self-reliant on our own generation.

The Mayor briefly reported on an upcoming meeting to be held tomorrow between the cities of Burbank, Glendale and Pasadena on a joint strategy to repower the generation capability of the municipal systems of these three cities. The Mayor and Councilmembers Streater and Tyler expressed their intent to attend this meeting.

There was no further discussion on this item.
