RECOMMENDATION:

It is recommended that the City Council:

- (2) Adopt "A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF PASADENA SETTING PRIORITIES FOR FILING WRITTEN ARGUMENTS PERTAINING TO A PROPOSED MEASURE TO AMEND CHAPTER 4.109 OF TITLE 4 OF THE PASADENA MUNICIPAL CODE, THE LIBRARY SPECIAL TAX, AND DIRECTING THE CITY ATTORNEY TO PREPARE AN IMPARTIAL ANALYSIS"
- (3) Acknowledge that this action is categorically exempt under CEQA pursuant to Section 15061 (b)(3) of the California Code of Regulations.
- (4) Approve a journal voucher authorizing the Director of Finance to appropriate \$12,000 from the Unappropriated General Fund fund balance to the City Clerk's Election Account 8114-101-263000.

BACKGROUND:

In June 1993, voters in Pasadena overwhelmingly approved a proposed ordinance enacting a Library Special Tax for a five-year period. In March 1997, voters approved a ten-year extension of the Library Special Tax. The Library is currently in the fourteenth year of the Library Special Tax which is set to expire June 30, 2008. The ordinance enacting this tax provides that it may only be extended beyond its term with the approval of two-thirds of the voters voting at a municipal election called for that purpose.

In May 2005, the City Council authorized the Library Commission to appoint a Library Future Funding Task Force to present a recommended financing plan after investigating alternative methods for financing the operations of the Pasadena Public Library in light of the scheduled expiration of the current Library Special Tax at the end of June 2008.

The Library Future Funding Task Force began meeting in March 2006 to examine the service impact of the current Library Special Tax, to gather citizen input on the level of satisfaction with current library services, and to review various options for future library funding. The Task Force concluded that the public continues to be extremely pleased with the level of service it receives from the Library and that the existing Library Special Tax continues to best meet the established financing criteria with minor modifications. Currently, the annual tax rates are: \$26.31 for a single-family detached or attached unit; \$17.10 for an apartment unit; and \$193.40 for non-residential parcels. The minor modifications will include one-time increases to the annual tax rate by \$4.25 for single-family detached or attached units, \$3.00 for each apartment unit, and \$30.00 for each non-residential parcel.

The Task Force presented its recommendations to the Library Commission on October 18, 2006, which unanimously endorsed them. On November 13, 2006, the Task Force presented its report and recommendations to the City Council at a regular meeting. The City Council approved the recommendations with a modification increasing the City's minimum contribution to be 80% of the total amount necessary to fund the Library at the current service level in Fiscal Year 2009, and adding the clarification that both the Library Special Tax and the City's minimum contribution shall continue to be indexed for inflation in subsequent years. The City Council resolved to call a special election for the purpose of submitting this special tax to the voters for their two-thirds approval as required by law. The City Attorney was directed to return with the documents needed to place this matter before the voters on March 6, 2007. The City Attorney's Office has worked with city staff and representatives from the Task Force in arriving at the language for the ordinance and the ballot.

ELECTION TIMELINE:

Implementation of this recommendation will require extension of the Library Special Tax by an affirmative vote of two-thirds of those voting in the upcoming election. The primary municipal election scheduled for March 6, 2007 offers the best choice for placing the measure on the ballot. The deadline to place a measure on this ballot is Friday, December 8, 2006.

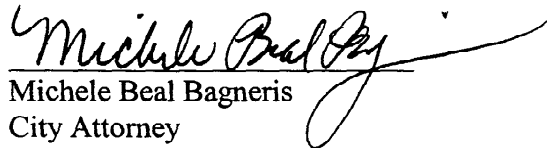

Absent a special meeting, the City Council would need to adopt formal resolutions placing the measure on the ballot no later than Monday, December 4, 2006.

The March 6, 2007 citywide primary election is consolidated with the election of members of the Board of Education of the Pasadena Unified School District. Until the results of the March election are known, the City Council will not know if there will be a run-off election in April 2007. A special election would be required if this matter is not placed on the ballot in March 2007 or April 2007 (if there is a run-off). The estimated cost of more than \$200,000 for a Special Municipal Election provides ample incentive for the election to be held on March 6, 2007.

FISCAL IMPACT:

The cost of adding this measure to the March 2007 ballot is expected to be approximately \$12,000. This amount will be funded from the City's Unappropriated General Fund balance.

Respectfully submitted,

Michele Beal Bagneris
City Attorney

4.109.150 Legislative findings and declarations.

The City Council and the people of the City of Pasadena make the following findings with respect to the Library Special Tax:

A. Importance of the Library to the quality of life for Pasadena residents.

1. The Library of the City of Pasadena pre-dates the incorporation of the City itself, and since 1926, Pasadena has maintained an excellent library which has attained a unique position as a very highly regarded educational and cultural resource. The Library is an essential partner in the educational, social and recreational well-being of Pasadena's residents.

2. The Library has a strong connection to the maintenance of a healthy family community due to its tangible presence in Pasadena's neighborhoods through the branch libraries, designed and laid out in such a way that no Pasadenan is more than 1 mile from a library, and residents can walk to their neighborhood library. The presence of branch libraries adds a special quality to the neighborhoods of Pasadena and makes a visible statement regarding the importance of reading and learning. In addition to fulfilling their traditional library role, they serve as meeting places for community groups, gathering places for families and provide valuable support to other community institutions such as schools, and business and cultural associations. The branch libraries provide a unique perspective on the neighborhood in which they are located. The languages spoken in the neighborhood are reflected in the branch library collections, the needs of the neighborhood are recognized in the special materials and programming offered at the branch libraries, and the quality of life in the neighborhood is enhanced because of the branch library's presence. The branch libraries represent a safe haven in our neighborhoods. The Library works steadfastly with neighborhood schools to raise the level of literacy in the community.

3. For these reasons, the City Council and the people of the City of Pasadena find that the continuing vitality and viability of the entire Library system, including all branch libraries, must be assured through a funding mechanism which provides a stable source of funding for the entire system.

4. In the first five years of the Library Special Tax, full hours of operation were restored to the entire library system and a new collection and basic

library services were established at the Villa-Parke Community Center, which serves a predominately Hispanic community, and outreach programs throughout Pasadena.

5. Pasadena residents support quality library services as evidenced by high levels of utilization of library services ranging from adult literacy to children's book programs, and city-wide surveys ranking the library among the top three municipal services valued most by residents.

B. Validity of funding mechanism – background and rationale.

1. The results of a management audit conducted in 1993 clearly demonstrated that the Library is being managed very efficiently, and the quality of services provided is high, particularly in terms of the branch libraries. Each of these findings was reconfirmed by previous citizen surveys in the time since 1993. On the basis that the goal is a funding program which would preserve the high level of service to which Pasadena has been accustomed, the target level of service for which funding is sought is that which is currently provided. In terms of operations, the current level of service can be generally described as seven days a week service at the Central Library; a minimum of five days a week service at the branch libraries; a materials budget for acquisitions and preservation of the library collection no less than 9% of the total adopted budget; and other programs designed to meet the needs of the community. The cost of providing this level of service was \$7.1 million in 1993, the first year of the special tax, indexed for cost of living increases each subsequent year. In the time since the Library Special Tax has been in place, the level of service has been maintained as planned, and the general fund commitment embodied in the provisions of this chapter has been met.

2. A significant reduction in Library funding (such as the loss of approximately 20% of the budget should the Library Special Tax expire without some form of replacement) would likely result in a drastic and unacceptable reduction in library services.

3. The Library continues to be particularly well suited for a separate dedicated source of funding due to the nature of its operations – a clearly defined physical plant and a series of core programs and services which are relatively stable and enduring from year to year.

4. Before enacting this special tax, various alternative sources of funding were explored including sales tax, construction tax, utility tax, business license tax, transient occupancy (hotel) tax, library users fees, an endowment, general fund expenditure, formation of a community facilities district, benefit assessment, residential parcel or unit tax and a non-residential parcel tax. Selection of the current special library tax came after examining these options and library tax ordinances from the cities of San Jose and Oakland.

5. The rationale for adopting the specific tax rates for dwelling units and non-residential parcels contained in the “Recommendations of the Pasadena Public Library Future Funding Task Force” dated October 20, 2006, is well thought-out and the City Council and people of the City of Pasadena hereby ratify such rationale, as refined by the public hearing process conducted in connection therewith, and incorporate it as if fully set forth herein. Such rationale provides a rational basis for the tax rate classification system adopted in this ordinance, and appropriately meets the objective of designing a taxing scheme which relates the amount of the tax to the benefits

received from the Library by the person paying the tax, and incorporates the element of ability to pay into the tax rates.

6. The Library Commission found, and the Council affirms, that the Library Special Tax continues to best meet the needs of the City for financing the library system.

4.109.160 Purpose.

A. The purpose of this special tax is to provide funds to the City to pay:

1. maintenance and operations costs of the Library, and
2. the costs of enforcement and administration of the special

tax, including refunds.

B. The City Council may provide for the collection of the special tax in the same manner and subject to the same penalty as, or with, other charges and taxes fixed and collected by the City, or by the County of Los Angeles on behalf of the City of Pasadena. If the special tax is collected by the County on behalf of the City, the County may deduct its reasonable costs incurred for such service.

C. City costs of enforcement and administration of the tax, including refunds, shall be paid from the special tax revenue.

4.109.170 Special fund.

A. There is hereby established a special fund entitled "Library Special Tax Fund" (hereinafter the "special fund"). Money collected pursuant to this chapter shall be deposited into said special fund and shall be used exclusively as provided in this chapter for the purposes for which the tax is imposed, and for no other purposes. Nothing

in this section shall prevent disbursements from this special fund to reimburse the general fund if, and only if, money has been advanced from the general fund to pay for the uses provided for in this chapter.

B. Any money raised by the special tax, including any interest accrued thereon, that remains unencumbered at the end of any fiscal year may only be used in a succeeding fiscal year for the purposes stated in this chapter.

C. The director of finance shall annually provide a report on the receipt of revenue under this chapter and the expenditure of those revenues as required by Government Code Sections 50075.1(d) and 50075.3.

4.109.180 Tax rate.

A. In Fiscal Year 2009, the following special tax rates shall apply:

1. For each single-family or residential unit in a residential condominium project, the annual special tax shall be equal to: a) the special tax in Fiscal Year 2008 multiplied by a factor equal to one plus the change in the Consumer Price Index (CPI) prepared by the Bureau of Labor Statistics of the United States Department of Labor for all urban consumers for the Los Angeles-Riverside-Orange County statistical area, or any succeeding index, during the 12-month period ending the last day of February 2008, plus b) four dollars and twenty-five cents (\$4.25).

2. For each residential unit of a multi-unit building which is not a condominium project, the annual special tax shall be equal to: a) the special tax in Fiscal Year 2008 multiplied by a factor equal to one plus the change in the Consumer Price index (CPI) prepared by the Bureau of Labor Statistics of the United States Department of Labor for all urban consumers for the Los Angeles-Riverside-Orange

County statistical area, or any succeeding index, during the 12-month period ending the last day of February 2008, plus b) three dollars (\$3.00).

3. For each nonresidential parcel, the annual special tax shall be equal to: a) the special tax in Fiscal Year 2008 multiplied by a factor equal to one plus the change in the Consumer Price Index (CPI) prepared by the Bureau of Labor Statistics of the United States Department of Labor for all urban consumers for the Los Angeles-Riverside-Orange County statistical area, or any succeeding index, during the 12-month period ending the last day of February 2008, plus b) thirty dollars (\$30).

B. For each fiscal year from Fiscal Year 2010 through Fiscal Year 2023, the special tax rates shall be adjusted annually by multiplying the prior fiscal year's tax rates by a factor equal to one plus the change in the Consumer Price Index (CPI) prepared by the Bureau of Labor Statistics of the United States Department of Labor for all urban consumers for the Los Angeles-Riverside-Orange County statistical area, or any succeeding index, during the 12-month period ending the last day of February of the prior fiscal year.

C. The Library Special Tax cannot be levied in any year in which the City has not appropriated one hundred percent (100%) of the Required Threshold Amount from the General Fund.

D. If at any time following the levy of a Library Special Tax for a fiscal year, the amount finally budgeted and appropriated as Maintenance and Operations Costs for the Library for such fiscal year shall be less than the Required Threshold Amount from the General Fund for such fiscal year, then no annual special tax shall be levied in the immediately following fiscal year. In no event shall the inability to levy the

Library Special Tax extend the Library Special Tax beyond the stated expiration date herein.

E. For any fiscal year the City Council may, by ordinance, adjust the tax rate below the maximum amounts stated in this chapter, provided that all of the rates on each category are all adjusted proportionately, so that the relationship among categories remains constant. Such a reduction shall not prevent a subsequent levy of taxes for any succeeding fiscal year up to the limits set forth in this section or require renewed voter approval for such a subsequent levy. However, in no case shall the amount of the tax rate to be levied exceed the maximum amount established by this chapter without the approval of two-thirds of voters voting upon such change in the tax rate maximum.

4.109.185 Required General Fund Threshold Amount.

A. The Required Threshold Amount from the General Fund in Fiscal Year 2009 shall be equal to eighty percent (80%) of the total amount necessary to fund the entire operations of the Information Services Department (Library) at the level of service provided in Fiscal Year 2007 and as described in this ordinance.

B. For each fiscal year from Fiscal Year 2010 through Fiscal Year 2023, the dollar amount of the Required Threshold Amount from the General Fund shall be adjusted annually by multiplying the prior fiscal year's minimum Threshold Amount from the General Fund by a factor equal to one plus the change in the Consumer Price Index (CPI) prepared by the Bureau of Labor Statistics of the United States Department of Labor for all urban consumers for the Los Angeles-Riverside-Orange County

statistical area, or any succeeding index, during the 12-month ending on the last day of February of the prior fiscal year.

C. An ending balance in the Library Services Fund for any fiscal year may be credited the following fiscal year towards the minimum Threshold Amount from the General Fund.

4.109.190 Term. This annual special tax provided for herein may be levied in each of fifteen consecutive fiscal years, commencing with the first fiscal year (2009) in which there is a levy pursuant to this ordinance. Such levy may only be extended with the approval of the voters by two-thirds of the votes cast by voters voting upon such a change at a municipal election called for that purpose, unless the applicable law at the time of such election authorizes a lesser number of votes to do so.

4.109.200 Adjustments and refunds:

A. Requests for adjustments of this tax may be filed with the director of finance. Upon sufficient evidence of error in the computation of the tax as to any taxpayer, the director of finance or his/her designee shall cause the tax to be recalculated as to that taxpayer, and shall so advise the Los Angeles County Tax Collector or other appropriate official.

B. Whenever it is alleged that the amount of any tax has been overpaid or paid more than once or has been erroneously or illegally collected or received by the City under this chapter, the refund procedure shall be as follows:

1. No claim for refund of tax payment shall be allowed in whole or in part unless filed with the city clerk within a period of three years from the

date of the claimed overpayment, and signed by the taxpayer on behalf of whom it is filed; no class or representative claim shall be permitted. All such claims for refund of the amount of the overpayment must be filed on forms furnished, and in the manner prescribed by the finance department. Refunds may be made solely from the Library Special Tax Fund.

2. In the event the director of finance denies a claim for a refund, he/she shall notify the claimant pursuant to California Government Code Section 913.

C. The director of finance shall have the power to settle claims involving the special tax, and the power to accept and record underpayments or overpayments of such tax. The director of finance shall have the authority to make refunds of this tax as provided in this chapter.

D. If the County of Los Angeles does not collect any tax due under this chapter, then the director of finance shall have the power and duty to do so. In such cases, an assessment may be made against the owner of a parcel and improvements in the manner provided by law. Any unpaid tax due under this chapter shall be subject to all remedies provided by law.

E. The special tax shall be due in two equal installments in accordance with the collection procedures of the Los Angeles County Tax Collector, with the first installment due November 1st, and the second installment due the next succeeding February 1st, in each fiscal year. The owner of the land, land and improvements, at the time set forth in California Revenue and Taxation Code Sections

405 and 2192 for each fiscal year shall have a personal obligation to the City of Pasadena until the tax is paid for each fiscal year.

F. The director of finance may prepare a questionnaire to be served on the owner of a parcel or improvements subject to the tax imposed by this chapter. The questionnaire may request information which would be useful to the director of finance in the enforcement or administration of this article. The failure by an owner to provide the information requested within thirty (30) days of receipt of the request, or the act of an owner in knowingly providing false information, shall be a misdemeanor.

4.109.210 Amendments:

The City Council is hereby authorized to amend the provisions of this ordinance without voter approval in any manner which does not extend the special tax to a taxpayer who would otherwise not pay it or increase the amount of the tax beyond the amount authorized by this ordinance. Any amendment to this ordinance which extends the special tax to a taxpayer who would otherwise not pay it or increases the amount of the tax beyond the maximum tax rates authorized by this ordinance may be approved only by a vote of the people of Pasadena.

4.109.220 Severability:

If any section, subsection, paragraph, subparagraph or item of this ordinance or the application thereof is for any reason held to be invalid or unconstitutional by the decision of any court of competent jurisdiction, the validity of the remaining portions of the ordinance, the application thereof, and the tax imposed shall not be affected thereby but shall remain in full force and effect, it being the intention of the City Council and the voters to adopt each and every section, subsection, paragraph,

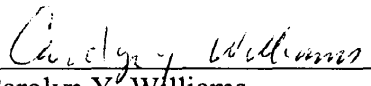

subparagraph or item regardless of whether any other section, subsection, paragraph, subparagraph or item or the application thereof is held to be invalid or unconstitutional.

4.109.230 Effective date.

This ordinance as amended, which amends and extends the Library Special Tax (P.M.C. Chapter 4.109) and levies the special tax described therein shall be submitted to the voters of the City of Pasadena at a Special Election to be held on March 6, 2007. The taxes determined and proposed by amendments to this ordinance shall be levied only if the amendments to this ordinance are approved by a vote of not less than two-thirds of the votes cast by the voters voting on the special tax proposal set forth in the ordinance. If the amendments to the ordinance are approved by the requisite number of votes, Chapter 4.109 as amended, shall thereafter be considered a part of the Pasadena Municipal Code, effective at the expiration of the current Library Special Tax.”
