**To:** Bogaard, Bill  
**Subject:** Appointment to the OPPMZC

Dear Bill,

As you know, I have served on the Old Pasadena Parking Meter Zone Commission since you appointed me 2000. I have always found the work of the Commission to be challenging, interesting and well worth the effort. During my time on the commission and while working on the Ambassador Campus in its many incarnations Debby and I became quite fond of Pasadena, its citizens and the cities elected officials and staff.

Unfortunately, while I would like to acquire and develop property in Pasadena, I no longer have an financial interest in the East Campus. As such is the case, and even as a member at large, I do not feel that continuing as a member of the OPPMZC is in the best interests of Old Pasadena, the commission members and the city.

I am, therefore, tendering my resignation from the commission effective today, November 8, 2007.

On a personal note, Debby and I want to thank Claire and you for your kindness and friendship over these last few years. We hope to remain friends and acquaintances, as we admire both Claire's and your continuing commitment to the future of a Pasadena based on quality not quantity, the preservation of the cities architectural and cultural heritage and its diverse cultural and political fabric.

As I have said to Debby more than once "when I grow up I want to be like Bill".

I have included my business and personal contact information below for your reference. I sincerely hope we have an opportunity to work together again in the near future.

Yours truly,

Jack Dangelo
