City Council City of Pasadena Pasadena, California

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Pasadena's basic financial statements. The introductory section, combining and individual nonmajor fund financial statements and schedules, and statistical tables are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements and schedules have been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion on them.

In accordance with Government Auditing Standards, we have also issued a report dated November 26, 2007 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Irvine, California November 26, 2007 (This page intentionally left blank)

MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the City of Pasadena, we offer readers of the City of Pasadena's financial statements this narrative overview and analysis of the financial activities of the City of Pasadena for the fiscal year ended June 30, 2007. We encourage readers to consider the information presented here in conjunction with additional information that has been furnished in the letter of transmittal, which can be found on pages 1-10 of this report.

FINANCIAL HIGHLIGHTS

- The primary government assets of the City of Pasadena exceeded liabilities at the close of fiscal year 2007 by \$836,061,123 (net assets). Of this amount, \$103,778,705 (unrestricted net assets) is for unrestricted uses in accordance with finance-related legal requirements reflected in the City's fund structure.
- The primary government's total net assets increased by \$84,457,419. Approximately 38.6 percent of this increase is attributable to the increase of the Governmental Activities and 61.4 percent is attributable to the increase of the Business Type Activities.
- As of the close of fiscal year 2007, the City of Pasadena's governmental funds reported combined ending fund balances of \$209,116,452 a decrease of \$22,521,515 in comparison with the prior year. While approximately 56 percent of the total amount, or \$117,576,550, is labeled as Unreserved Fund Balance, \$68,444,024 of this has been designated for specific purposes by City Council.
- At the end of 2007, unreserved fund balance for the General Fund was \$59,516,646 or 26.8 percent of total general fund expenditures and transfers out.
- Of the unreserved general fund balance of \$59,516,646, \$26,199,444 is undesignated and is \$4.5 million less than was available from the prior year.
- The City of Pasadena's total debt had a net decrease of \$774,013 or 0.1 percent during fiscal year 2007.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City of Pasadena's basic financial statements. The City of Pasadena's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the basic financial statements. This report also contains other required supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the City of Pasadena's finances, in a manner similar to a private-sector business.

The statement of net assets presents information on all of the City of Pasadena's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net

assets may serve as a useful indicator of whether the financial position of the City of Pasadena is improving or deteriorating.

The statement of activities presents information to show how the government's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City of Pasadena that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City of Pasadena include general government, public safety, transportation, sanitation, health, culture and leisure, and community development. The business-type activities of the City of Pasadena include electric, water, refuse, parking, and telecommunication operations.

The basic government-wide financial statements can be found on pages 34-37 of this report.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objective. The City of Pasadena, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City of Pasadena can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental funds financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City of Pasadena maintains forty six individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the General Fund, Project Management Capital Project Fund, and the Community Development Commission Debt Service Fund, all of which are considered to be major funds. Data from the other forty-two governmental funds are combined

into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of *combining statements* elsewhere in this report.

The City of Pasadena adopts an annual appropriated budget for its General Fund and Special Revenue Funds. A budgetary comparison statement has been provided for the General Fund and Special Revenue Funds to demonstrate compliance with this budget.

The basic governmental fund financial statements can be found on pages 38-44 of this report.

Proprietary Funds

The City of Pasadena maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City of Pasadena uses enterprise funds to account for its electric, water, refuse, parking, and telecommunication operations. Internal service funds are an accounting device used to accumulate and allocate costs internally among the City of Pasadena's various functions. The City of Pasadena uses internal service funds to account for its computing and communication, building maintenance, fleet maintenance, benefits, leasing of equipment, machinery, vehicles and the acquisition and construction of real property from the Pasadena Civic Improvement Corporation, workers' compensation, general liability, printing services, and mail services. Because each of these services predominantly benefits governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Light and Power, Water, Old Pasadena Parking, and Paseo Colorado Parking Funds, each of which are considered to be major funds of the City of Pasadena. Conversely, each of the internal service funds are combined into a single, aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of *combining statements* elsewhere in this report. Data from the other three proprietary funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major proprietary funds is provided in the form of *combining statements* elsewhere in this report.

The basic proprietary fund financial statements can be found on pages 46-53 of this report.

Fiduciary funds

Fiduciary funds are used to account for resources held for the benefits of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statement because the resources of those funds are *not* available to support the City of Pasadena's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The basic fiduciary fund financial statements can be found on pages 54-55 of this report.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 59-167 of this report.

Other Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City of Pasadena's progress in funding its obligation to provide pension benefits to its employees. Required supplementary information can be found on pages 169-171 of this report.

The combining statements referred to earlier in connection with non-major governmental funds and internal service funds are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found on pages 174-175 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. In the case of the City of Pasadena, assets exceeded liabilities by \$836,061,123 at the close of the most recent fiscal year.

Approximately 59.3 percent of the City of Pasadena's net assets reflect its investment in capital assets (e.g., land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. The City of Pasadena uses these capital assets to provide services to citizens; consequently, these assets are *not* available for future spending. Although the City of Pasadena's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

City of Pasadena's Net Assets

	Governmenta	l Activities	Business A	Activities	Total		
	2007	2006	2007	2006	2007	2006

An additional portion of the City of Pasadena's net assets \$236,244,889 or 28.3 percent represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net assets \$103,778,705 or 12.4 percent is for unrestricted uses in accordance with finance-related legal requirements reflected in the City's fund structure. The unrestricted net assets of the City decreased by approximately \$24.9 from the prior year.

At the end of the 2007 fiscal year, the City of Pasadena is able to report positive balances in all three categories of net assets for the government as a whole.

During the 2007 fiscal year, the primary government's net assets increased by \$84.4 million. Approximately 38.6 percent of this increase is represented in the City's Governmental Activities and 61.4 percent of this increase is in the City Business-Type Activities.

Governmental Activities

Governmental activities increased City of Pasadena's net assets by \$32.6 million, a 4.3 percent increase in the primary government's net assets. Key elements of this increase are as follows:

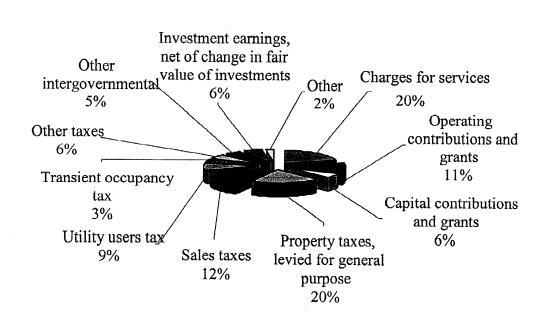

- Total Program Revenues (Charges for Services, Operating Grants and Contributions, and Capital Grants and Contributions) increased by \$2.1 million or 1.9 percent from the prior year. Operating Grants and Contributions decreased \$1.2 million or 3.4 percent. This decrease was offset by increases in Charges for Services and Capital Grants and Contributions, which increased \$2.2 million or 3.8 percent and \$1.0 million or 6.5 percent, respectively.
- Tax revenue increased by \$13.7 million or 10.0 percent increase from fiscal year 2006. This change was due primarily to increases in property taxes (\$ 10.6 million), utility users' tax (\$ 1.3 million), sales taxes (\$.6 million), and construction tax (\$.6 million).
- Investment earnings increased 22.2 percent from \$11.3 million to \$13.8 million. The increase reflects both higher market yields and investment gains generated by the portfolio.
- Total expenses increased from fiscal year 2006 by \$20.1 million or 8.0 percent. This is primarily driven by an increase in General Government expenses by \$7.4 million or 19.3 percent compared to the prior fiscal year, primarily related to increased internal service costs and increased supplemental contribution to the Fire and Police Retirement System. Public Safety increased by \$12.8 million or 15.6 percent. Transportation decreased by \$8.2 million or 19.3 percent. Also, Culture and Leisure increased \$1.4 million or 5.7 percent. Community Development increased \$4.9 million or 14.7 percent.

(Balance of page intentionally left blank)

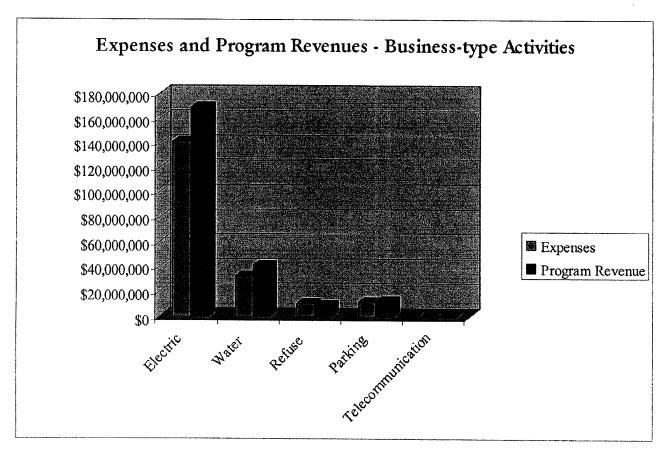

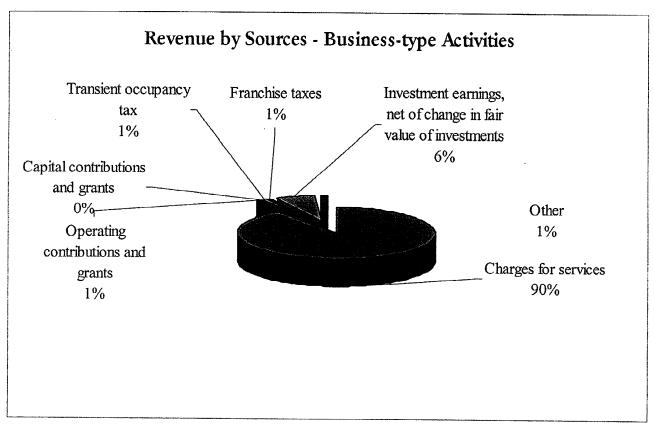

Business-Type Activities

Business-type activities increased the City of Pasadena's net assets by \$51.8 million, a 6.9 percent increase in the primary government's net assets. Key elements of this increase are as follows:

- Charges for services revenue increased from the prior year by \$23.9 million or 11.6 percent. Of this increase, Electric revenues increased \$17.6 million or 11.7 percent. Approximately \$12.6 million of this increase was due to increased electric rates and \$5.0 million due to increased electricity consumption. This \$5.0 million increase reflects a 3.4% or 40,569 MWH increase in consumption.
- Total business-type activities expenses increased by \$2.3 or 1.2 percent from \$194.9 million for the prior year to \$197.2 million for the current year. Electric expenses decreased \$1.9 million or 1.3 percent from \$143.1 million to \$141.2 million. Water expenses increased \$3.5 million or 11.8 percent from \$29.4 million to \$32.9 million. The balance of the increase in business-type activity expenses comes from Parking, which increased approximately \$.7 million.

(Balance of page intentionally left blank)

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the City of Pasadena uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the City of Pasadena's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City of Pasadena financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

Governmental Funds report the difference between their assets and liabilities as fund balance, which is divided into reserved and unreserved portions. The function of reserved fund balance is simply to isolate the portion of fund balance that is unavailable for the following period's budget. The unreserved fund balance can serve as a measure of current available financial resources. City Council may commit a portion of the unreserved fund balance by designation of fund balance to an intended future use.

As of the end of the 2007 fiscal year, the City of Pasadena's governmental funds reported combined ending fund balances of \$209,116,452 a decrease of \$22.5 million or 9.7 percent in comparison with the prior year. This fund balance is then divided into two categories, reserved fund balance of \$91,539,902 and unreserved fund balance of \$117,576,550. Subtracting from \$117,576,550 the unreserved fund balance of the Special Revenue Funds of \$43,024,637, Debt Service Funds of (\$24,474,889), Capital Projects Fund of \$38,463,306, and the Permanent Fund of \$1,046,850, results in the General Fund unreserved fund balance of \$59,516,646. This unreserved General Fund balance has had \$33,317,202 designated by City Council for the following; UUT Reserve (\$6,206,318), City Hall seismic retrofit (\$12,044,942), and emergency/capital improvements (\$15,065,942). This leaves a General Fund undesignated, unreserved fund balance of \$26,199,444

The General Fund is the chief operating fund of the City of Pasadena. At the end of the 2007 fiscal year, unreserved fund balance of the General Fund was \$59,516,646, while total fund balance reached \$66,487,713. As a measure of the General Fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 35.0 percent of total General Fund expenditures, while total fund balance represents 39.1 percent of that same amount.

The fund balance of the City of Pasadena's General Fund decreased by \$13.0 million or 16.3 percent, during 2007 fiscal year. Key factors in this decrease are as follows:

- The Change in fund balance of the General Fund, from an increase of \$10,384,986 for fiscal year 2006 to a decrease of \$12,978,699 for fiscal 2007, represents an overall change of approximately \$23.4 million,.
- Total expenditures increased \$15,629,303 or 10.1%. The expenditures increased from the prior year in the following amounts: \$3.9 million or 12.9% in General Government, \$9.9 million or 12.6% in Public Safety, \$.7 million or 7.6% in Community Development, \$.6 million or 4.6% in Culture and Leisure, and \$5 million or 2.2% in Transportation. These mostly relate to increase personnel associated costs, except for General Governmental which also increased due

to additional supplemental contribution to the Fire and Police Retirement System and election costs.

- Taxes increased by \$7.7 million or 7.1 percent from the prior year. This increase is comprised mainly of increases in Secured Property Tax of \$4.8 million or 18.9 percent, Retail Sales Tax of \$.8 million or 2.6 percent, Utility User Tax of \$1.3 million or 4.8 percent, and Construction Tax of \$.6 million or 18.8% increase from the prior year.
- Intergovernmental Revenues increased \$.6 million or 5.8 percent from the prior year, reflecting increases in Motor Vehicle In Lieu Tax, California Office of Traffic Safety Grant, Other County Reimbursements, and a decrease in FEMA Reimbursements
- Charges for services increased \$2.8 million or 9.9 percent from the prior year. Services to other funds increased by \$.8 million, Emergency Medical Aid Response increased by \$.9 million, Street Light and Traffic Signal revenue increased by \$.7 million.

The Project Management Capital Project Fund has a fund balance of \$4,433,261, which is a decrease of \$1.4 million or 24.6 percent from the prior year. The key factors contributing to this decrease are as follows:

- An increase of \$3.1 million in Intergovernmental Revenues for the completion of Raymond Avenue freeway connector funded by Federal Traffic Mitigation revenues.
- Total revenues increased \$5.6 million or 67.9 percent, whereas total expenditures decreased \$14.5 million or 19.3 percent.
- Other financing sources decreased by \$20.6 million or 31.3 percent from \$65.8 million in 2006 to \$45.2 million in 2007.

The Community Development Commission Debt Service Fund has a total fund deficit of \$24,474,889. The deficit exists since GAAP requires the debt service funds to record advances from other funds as a liability. At June 30, 2007, the balance in advances from other funds is \$33,566,114. The net change in fund balance during the current year in the debt service fund is \$.9 million or 3.5 percent increase from the prior year deficit balance of \$25,362,581.

Proprietary Funds

The City of Pasadena's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net assets of the Light and Power Fund at the end of the year amounted to \$81,398,338 and those for the Water, Old Pasadena Parking, and Paseo Colorado Parking Funds amounted to \$3,751,292, \$930,306) and (\$2,460,085); respectively. The total net income (loss) for each fund was \$40,444,615, \$7,739,083, \$1,756,358, and (\$671,994); respectively.

In the Light and Power Fund, \$2.4 million operating transfer in was reimbursed from the Project Management Fund to pay for all underground projects done by the Power Division. Operating expenses decreased \$1.9 million or 1.4 percent from \$137,125,392 to \$135,269,933. Pricing on spot market purchases has stabilized in FY 2007 as compared to the prior year when weather conditions

drove prices higher. This reduction in prices combined with reduced usage decreased short term purchases \$9.3 million. This combined with \$.4 million more commercial expenses and a \$7.0 million increase in long term and renewable source purchases net to the \$1.9 million decrease.

Water Fund operating expenses increased by \$3.3 million or 12.3 percent from the prior year. The \$2.8 million or 19.3 percent increase in utility production expenses from the prior year was due to an increase of \$2.4 million in water purchases from the Metropolitan Water District and small increases in utility transmission and distribution expenses and depreciation expense.

Old Pasadena Parking Fund net income decreased \$71,015 from the prior year or 3.8 percent. The reason for the decrease was due to an increase in depreciation caused by purchases in FY 2006 and an increase in merchant fees for real-time credit card approvals.

Paseo Colorado Parking Funds net income decreased \$.2 million or 45.5% from a net loss of \$.5 million in 2006 to a net loss of \$.7 million in 2007. Net income decreased due to an increase in interest expense on its variable rate outstanding debt.

Other factors concerning the finances of these funds have already been addressed in the discussion of the City of Pasadena's business-type activities.

GENERAL FUND BUDGETARY HIGHLIGHTS

The General Fund final budgeted appropriations increased by \$9.3 million from the original budget or 5.7 percent. The primary reasons for the increase from the original budget to the final budget came from Non-Department of \$5.4 million which consists of \$3.9 million for the City's payment of its pension obligation to the Fire and Police Retirement System and \$1.5 million in bonds proceeds for capital. Excluding non-departmental expenditures, the Fire Department budget had the largest increase which was \$1.8 million or 5.0 percent. The driver behind this increase is negotiated personnel costs and an additional rescue ambulance. The Public Works and Transportation budget increased \$.7 million or 2.7 percent for parking services and traffic control consultants. The Police Department Budget increased approximately \$.5 million or 1.0 percent of which the majority of increase was due to grants received for traffic enforcement services. Overall, the differences between the original budget and the final amended budget were relatively minor.

The General Fund actual total expenditures did not exceed final budgeted appropriations. The variance between actual total expenditures and the final appropriation was \$2.8 million or 1.6 percent. The largest negative variance occurred in the Non-departmental expenditures which exceed the final budget by \$1.7 million. Approximately \$2.1 million of the non-departmental expenditures is related to billable projects which do not typically have budgets.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The City of Pasadena's investment in capital assets for its governmental and business-type activities as of June 30, 2007 amounts to \$881,149,990, net of accumulated depreciation. This investment in

capital assets includes land, buildings and systems, improvements, machinery and equipment, park facilities, roads, highways, and bridges. The net increase in the City of Pasadena's investment in capital assets for the current fiscal year was 9.3 percent (a 11.3 percent increase for governmental activities and a 7.4 percent increase for business-type activities).

Major capital asset events during the 2007 fiscal year included the following:

- Improvement of city-owned facilities continues to be a priority. Work continues this year in the area of historic preservation, design services, preparation of construction and bidding documents and construction of three major projects: City Hall Seismic Retrofit and Exterior Restoration, Seismic Retrofit of Glenarm Power Plant and Pasadena Ice Rink Facility Construction. Approximately \$33,435,818 was spent on these projects during fiscal year 2007. The City Hall Seismic Retrofit and Exterior Restoration project was completed in May 2007 with a total cost of \$116,486,829.
- A variety of street maintenance and construction, electrical system undergrounding, traffic control and parks and landscape projects continue Citywide. Some of the major projects in these categories this fiscal year include: Raymond Avenue Pasadena Freeway Connector, Street Widening, Pavement Rehabilitation, Avenue 64-La Loma Road Street Lighting and Undergrounding, Traffic Control and Monitoring System (ITS), and Restoration of Flint Wash Bridge Crossing Hahamongna. Work on these projects during the 2007 fiscal year reached \$13,819,553. Construction in Progress for the governmental activities as of June 30, 2007 is \$86,348,066.
- As of June 30, 2007, the Water and Power utility plant amounted to \$384,575,782 (net of accumulated), an increase of 8.6 percent or \$30,313,717. During the fiscal year, the City spent \$47,149,526 on various water and power projects and capitalized \$39,833,501 for projects completed. Some of the major projects completed are related to improvements to components of the transmission and distribution assets.

Additional information on the City of Pasadena's capital assets can be found in note 7 on pages 108-111 of this report.

Long-Term Debt

At year-end, the City has a number of debt issues outstanding. These include \$128 million of taxable pension bonds, \$9.9 million of tax allocation bonds applicable to PCDC, \$224.1 million of revenue bonds, \$168.1 million of certificates of participation, \$9.1 million of notes payable and \$9.1 million of capitalized lease obligations. Long-term debt decreased by a net amount of \$774,017 as a result of normal scheduled principal maturities, increased arbitrage rebate liability, compensated absences, and net pension obligation. The City was assigned an AA+ rating from Standard and Poor's and Fitch Ratings on general obligation bonds.

Reconciliation of the Balance Sheet of Governmental Funds to the Statement of Net Assets June 30, 2007

Fund balances of governmental funds		\$ 209,116,452
Amounts reported for governmental activities in the statement of net assets are different because:		
Capital assets net of depreciation have not been included		
as financial resources in governmental fund activity.		430,872,258
Allowance for advances		31,889,350
Long term debt has not been included in governmental fund activity.		
Arbitrage Rebate Liability	(762,711)	
Notes payable	(7,162,835)	
Pension bonds	(128,045,000)	
Tax allocation bonds	(9,928,550)	
Revenue bonds	(10,355,000)	
Certificates of participation	(138,963,861)	
Capitalized lease obligations	(4,874,613)	
Net pension obligation	(44,034,293)	
Unamortized premium (discount)	4,230,214	
Net adjustment		(339,896,649)
Accrued interest payable for the current portion of interest due on Tax Allocation		
Bonds has not been reported in the governmental funds.		(1,832,168)
Unearned revenue related to GASB 33 requirement, which consisted primarily of		
intergovernmental receivables not collected within the availability period.		5,589,338
Internal service funds are used by management to charge the costs of certain activities, such as equipment management and self-insurance, to individual funds. The net assets and liabilities of the internal service funds must be added to the		
statement of net assets.	-	8,542,838
Net assets of governmental activities	9	344,281,419
