**Application to Designate a Historic Resource as a  
HISTORIC MONUMENT OR LANDMARK**

§17.52.050 of the Pasadena Municipal Code sets forth a procedure for designating any historic resource in the City as a historic monument or landmark. 1) The process begins with a preliminary evaluation by staff to determine if the nominated property meets the applicable criteria and is eligible for designation. 2) If staff determines that the nominated property is eligible for designation, the nomination is scheduled for a public hearing before the Historic Preservation Commission. 3) The Historic Preservation Commission determines if the historic resource meets the criteria for designation as a historic monument or landmark. If the Commission finds that the nominated resource qualifies for designation, it forwards a recommendation on the designation to the City Council. 4) At a noticed public hearing, the Council then determines whether to approve or deny the request for designation.

HISTORIC MONUMENT OR LANDMARK**

**PART III: TYPE OF DESIGNATION**

**PROPERTY TO BE DESIGNATED AS A:**

<b>HISTORIC MONUMENT</b> <input checked="" type="checkbox"/>	<b>LANDMARK</b> <input type="checkbox"/>
<i>A historic monument means any historic resource that is significant at a regional, state or national level, and is an exemplary representation of a particular type of historic resource.</i>	<i>A landmark means any historic resource that is significant at a local level, and is an exemplary representation of a particular type of historic resource.</i>

**PART IV: BRIEF DESCRIPTION OF PROPERTY**

Briefly describe the property proposed for designation, indicating whether the entire site or a portion of the site is the subject of the nomination (e.g., how many buildings on the site). A map may be used for the description. Please also submit recent photographs. Use continuation sheet if necessary.

Refer to continuation sheet, site plan and recent photographs.

The Glenarm Power Plant was designed in 1928 by the notable architectural firm of Bennett and Haskell. The building is comprised of a three-story Moderne wing on the north and a two-story French Neo-Classical wing on the south. Please see attached Historic Resources Inventory Form for a complete architectural description. Included in this nomination is the historically significant fountain that was added in 1938 on the northwest corner of the site. The fountain served as a "heat sink" for the power plant, which allowed the water circulating through the fountain to help cool the generator by also cooling the air temperature in the building. Although the fountain is no longer used for this purpose, it remains intact and still functions as a traditional fountain.

**PART V: SUPPLEMENTAL INFORMATION ON SIGNIFICANCE OF PROPERTY.** With this application, please attach information that will assist staff with the preparation of a designation report. Books, photographs, articles, and other archival information will all be useful to document the significance of the historic resource.

Refer to bibliography, historical photographs, chronology, and other supporting information.
