INTRODUCTION

The City of Pasadena (“City”) is proposing to acquire undeveloped properties known as Annandale Canyon Estates (“Open Space”) for the purpose of preserving it as open space. Annandale Canyon Estates was originally planned to be subdivided into single family residential properties for the construction of custom homes. However, surrounding neighbors have expressed the desire to preserve the area as open space. To that end, the City has been in negotiation with the developer to acquire the property for the preservation of open space.

To fund the cost of acquisition of the Open Space, the City proposes to use a combination of funding sources including the formation of the City of Pasadena Annandale Canyon Open Space Benefit Assessment District (“District”), a grant from the Santa Monica Mountains Conservancy, State and County funds, City funds and other funding sources. The District will be utilized to fund the property owners’ portion of the land acquisition through the issuance of bonds that will be repaid over a period not to exceed 30 years through annual assessments. If the District is not approved by the property owners benefiting from the Open Space, the City will not have sufficient funds to acquire the site.

If the District is approved and the Open Space is purchased, the City will fund the maintenance of the Open Space on an ongoing basis.

This report constitutes the Engineer’s Report for the District. The City Council pursuant to the provisions of Chapter 4.95 of Title 4 of the City’s Municipal Code (“Code”), the “Landscaping and Lighting Act of 1972”, being Division 15, Part 2 of the Streets and Highways Code of the State of California, beginning with Section 22500 (the “1972 Act”), Article XIID of the Constitution of the State of California (“Article XIID”), and the Proposition 218 Omnibus Implementation Act (Government Code Section 53750 and following) (the “Implementation Act”) (the Code, 1972 Act, Article XIID and the Implementation Act are referred to collectively as the “Assessment Law”) proposes to initiate proceedings for the formation of the District, and to levy and collect assessments against lots and parcels within the District beginning the fiscal year commencing July 1, 2008 and ending June 30, 2009. The District will pay for a portion of the Open Space acquisition costs through the issuance of bonds pursuant to the Code, Section 22662.5 of the 1972 Act and under the Improvement Bond Act of 1915 (Division 10 commencing with Section 8500).

This Engineer’s Report (“Report”), which describes the District boundaries and special benefits of the District to the property owners located within the District, includes the following sections:

Introduction – Provide background information on the proposed District and introduction to the Report.

Part A. Plans and Specifications – Contains a general description of the project.

Part B. Estimate of Cost – Identifies the cost of the project including land acquisition costs, soft costs, bond issuance costs and other incidental costs and expenses.

Part C. Method of Apportionment – Describes the basis in which costs have been apportioned to lots and parcels within the District, in proportion to the special benefit received by each lot and parcel.

Part D. Assessment Roll – The assessment roll identifies the maximum assessment to be levied to each lot or parcel within the District.

Part E. Assessment Diagram – Displays a diagram of the District showing the exterior boundaries of the District and the Zones of benefit.

Each lot or parcel within the District is assessed proportionately for only the cost of the project that is determined to be a special benefit. For this report, each lot or parcel to be assessed, refers to an individual property assigned its own Assessment Parcel Number by the Los Angeles' County Assessor's Office as shown on the last equalized roll of the assessor.

Based on the requirements of Assessment Law, a property owner protest ballot procedure is required in order to form the District and to levy assessments. Following the City Council Intent meeting, ballots will be mailed to each property owner located within the boundaries of the District so they can indicate whether they are in favor or opposed to the District and the maximum assessments as described in this Report. Assessment Law requires a minimum 45 days between the time ballots are mailed and date that the public hearing is held .

Following consideration of all public comments, written protests, and tabulation of the property owner protest ballots after the conclusion of the Public Hearing, the City Council will confirm the Report as submitted or amended. If there is not a majority protest and the ballot procedure is successful, the City Council may order the levy and collection of assessments commencing fiscal year 2008/2009. The unpaid assessment installments approved will be submitted to the Los Angeles County Auditor/Controller and included on the property tax roll for each parcel receiving a special benefit.

If the District is approved, the City will continue with its best effort to acquire the Open Space for preservation. If the City is unable to acquire the Open Space, the assessments will not be collected. No proceeds from the bonds or the assessments will be used for operation and maintenance of the Open Space, the City intends to fund the ongoing maintenance and operation from other City sources.

PART A. PLANS AND SPECIFICATIONS

1. General Description of Improvements

The proposed territory within the District consists of all lots, parcels and subdivisions of land as shown on the Boundary Map designated as “City of Pasadena Annandale Canyon Open Space Benefit Assessment District Assessment Diagram/Boundary Map” contained within Part E of this Report. All the parcels within the District are zoned as single family residential.

The improvements proposed to be funded by the District are the acquisition of open space lands (“Improvements”) defined by the Code and the 1972 Act (Section 22525 (g)) and ongoing administration costs of the District. If the District passes, the City intends to finance a portion of the acquisition costs through the issuance of bonded indebtedness secured by unpaid assessment installments. These Improvements provide special benefit to the parcels within the boundaries as defined in the Method of Apportionment contained within Part C of this Report.

PART B. ESTIMATE OF COSTS

1. Description of Budget Items

The following is a description of items shown on the Budget in Section B.2.

Land Acquisition – Includes the total estimated cost to acquire the approximately 20.6 acres of Open Space less any grants or other funding sources, including but not limited to the State, Los Angeles County and the City.

Financing Costs – Includes the estimated expenses in connection with the sale and issuance of the bonds.

2. Budget

| | |
|---|-------------------------|
| <u>Land Acquisition</u> | |
| Land Acquisition Cost | \$7,000,000 |
| Santa Monica Mountains Conservancy Grant | (2,500,000) |
| <u>Other Funding Sources</u> | <u>(1,500,000)</u> |
| Total Land Acquisition Proceeds | \$3,000,000 |
| | |
| <u>Financing Costs (Estimated)</u> | <u>\$670,000</u> |
| | |
| Bond Amount | \$3,670,000 |

The Assessment Law requires that a special fund be set up for the revenues and expenditures of the District. Funds raised by the assessments shall be used only for authorized purposes. The City may advance funds, if needed, in order to ensure cash flow or timing of acquisition and will be reimbursed for any such advances upon receipt of assessments and/or bond proceeds.

PART C. METHOD OF APPORTIONMENT

1. General

The Implementation Act permits the establishment of assessment districts by agencies for the purpose of providing certain public improvements, which include the acquisition of open space.

The Code and Streets and Highways Code Section 22573 require that assessments be levied according to benefit rather than the assessed value.

“The net amount to be assessed upon lands within an assessment district may be apportioned by any formula or method which fairly distributes the net amount among all assessable lots or parcels in proportion to the estimated benefits to be received by each such lot or parcel from the improvements.”

In addition, Article XIID and the Implementation Act require that a parcel’s assessment may not exceed the reasonable cost for the proportional special benefit conferred to that parcel. Article XIID and the Implementation Act further provides that only special benefits are assessable and the City must separate the general benefits from the special benefits. They also require that publicly owned properties which specifically benefit from the improvements be assessed.

Area of Benefit and General Benefit

The National Recreation and Park Association standards are used to define the service area for many types of parks. Due to the nature of the Open Space we have equated the service area to that of a neighborhood park which has a service area of a ½ mile radius. This standard is also consistent with the City’s goals as set forth in the Recreation & Parks Master Plan. Property within the ½ mile radius is therefore considered to receive a special benefit.

Additionally, due to the significant traffic impacts created during the prolonged construction period if the project is not preserved as Open Space, properties that traverse San Rafael Avenue, Patrician Way and to a lesser degree Glen Oaks Blvd are also within the special benefit area of the District.

Since roughly half of the property that lies within the ½ mile radius area of benefit is outside of the City’s boundaries, only 43% of the estimated purchase price plus the financing costs will be funded by the District. The other 57% is considered general benefit and will not be funded by the District.

2. Special Benefit Analysis

The proposed project's benefits and assessment within the District have been reviewed, identified and allocated based on special benefit pursuant to the provisions of Article XIID, the Implementation Act, the Code, and the Streets and Highways Code Section 22573.

There are several benefits of having open spaces in the vicinity of residential areas. These benefits include:

- Positive impacts on capacity of roads, and road safety
- Enhanced recreation opportunities and expanded access to Open Space
- Improved quality of life by protecting irreplaceable open space, wildlife corridors
- Preservation on the canyon and development of limited public access
- Protection of scenery, views and irreplaceable Open Space
- Increased property values
- Positive impacts on air and water quality

The following benefit categories are the types of special benefit to property within the District.

1. Positive impacts on capacity of roads, and road safety

Access to the Open Space is by primarily served by San Rafael Avenue, Patrician Way and Glen Oaks Blvd. These roads are small and winding, preventing adequate access by large trucks.

Should the development of the Open Space move forward with construction of single family custom homes, properties on these roads would be significantly impacted by construction traffic during the long construction period, estimated to be three to five years. According to the Recirculated Partial Draft of Environmental Impact Report for the Annandale Canyon Estates, Dated November 1, 2005 ("Recirculated EIR") Section 3.14.6 states that if the project is developed, "Expansion of infrastructure could result in inadequate emergency access during construction." Property damage to City streets, curbs, gutters, private driveways, landscaping, street lights and other private property may occur due to the heavy construction equipment and large trucks traveling to and from the development.

Section 3.14.7 of the Recirculated EIR also indicates that Infrastructure construction could result in road closures that would deny access to residences for a significant period of time. While emergency access would be allowed, local traffic would be significantly impacted.

While mitigation measures would be implemented to reduce the impacts of construction, there will still be impacts and inconvenience to properties located within the area.

Maintaining the Annandale Canyon Estates property as open space would significantly reduce the construction traffic impacts.

2. Enhanced Recreational Opportunities and Expanded Access to Open Space

Properties specially benefit from the enhanced recreational opportunities provided by the Improvements. These include enhanced open spaces, areas for recreational activities and higher levels of maintenance than would be provided in absence of the assessment.

The DEIR indicates in Section 3.11.2 that “The topography and undeveloped nature of the project site present opportunities for unregulated passive recreational uses, such as hiking and mountain biking.”

3. Protection of scenery, views and irreplaceable Open Space

The proposed District will provide a portion of the funding necessary to preserve the Open Space. Absent of the District, the Annandale Canyon Estates will be developed into housing which would result in a reduction in public resources and diminished environmental benefits.

According to the Draft Environmental Impact Report dated August 7, 2005 (DEIR), Table ES, “Visual impacts associated with the proposed project, in combination with other alterations to visual resources throughout the region, would result in the degradation of community-wide visual resources”...”the diminishing visual resources would result from increasing development intensity (and general reduction in the aesthetic value of natural resources) and the degradation of primary ridgelines.”

According to Section B.2 of the Recirculated EIR, the construction of the development could result in the loss of native scrub oak trees and western sycamore trees and have a substantial adverse effect on riparian habitat and coastal sage scrub. The oak trees are protected by the City’s Tree Ordinance and the riparian habitat and coastal sage scrub are identified as sensitive natural communities by the California Department of Fish and Game.

The Open Space provides other special benefits such as protection of scenic views and protection of wildlife and vegetation habitats. Left undeveloped, they allow natural functions such as flood control, purification of air and water, decomposition and recycling of wastes, and generation and renewal of fertile soils. They also serve as buffers. These are all special benefits to property within the District.

3. Assessment Methodology

To establish the special benefit to the individual parcels within the District a formula that spreads the costs of the Improvements based on the special benefit must be established. The improvements have been reviewed and a formula has been established to apportion the acquisition costs based on benefit.

Equivalent Benefit Units

Each parcel of land is assigned an Equivalent Benefit Unit (“EBU”) in proportion to the estimated special benefit the parcel receives relative to other parcels within the District. The EBU method of apportioning benefit is typically seen as the most appropriate and equitable assessment methodology for districts formed under the 1972 Act, as the benefit to each parcel from the improvements are apportioned as a function of the proximity to the Open Space and the traffic impact that would be experienced if the project were developed.

Zones of Benefit

To fairly distribute the acquisition cost among the parcels, the District was divided into four zones based on; 1.) The proximity of parcels in location to the Open Space; and 2.) The roads used to access the assessed property. Properties located the closest to the improvements will receive a greater special benefit as compared to those parcels the farthest away. Additionally, parcels that use Patrician Way, Glen Oaks Blvd. or San Rafael Avenue to access their property will see the biggest impact if the Open Space is developed; therefore they receive a greater benefit than parcels that can be accessed from other roadways.

In order to calculate the assessment, each parcel is assessed according to the following Zone locations and EBUs.

Zone 1 Properties – This Zone is defined as properties located within approximately 1/10th of a mile radius of the proposed Open Space and on the west side of the ridge that bisects the District. Parcels located in Zone 1 use the EBU of one (1).

Zone 2 Properties – This Zone is defined as properties located within approximately a ½ mile a radius of the proposed Open Space and that also traverse Patrician Way, San Rafael or Glen Oaks Blvd to access their property. Parcels located in Zone 2 use the EBU of .70.

Zone 3 Properties – This Zone is defined as properties located outside approximately a ½ mile a radius of the proposed Open Space however they traverse Patrician Way, San Rafael or Glen Oaks Blvd to access their property. Parcels located in Zone 3 use the EBU of .50.

Zone 4 Properties – This Zone is defined as properties located within approximately a ½ mile a radius of the proposed Open Space and are on the east side of the ridge that bisects the District or properties which have secondary access via San Rafael Avenue or Glen Oaks Blvd. Parcels located in Zone 3 use the EBU of .20.

4. Assessment Duration

The District Assessment is proposed to exist for a maximum of thirty (30) years beginning in fiscal year 2008/2009 and ending with fiscal year 2038/2039 or sooner if the bond term is less than 30 years. The assessment will not increase over the rates set forth in this Engineer’s Report.

PART D. ASSESSMENT ROLL

The assessment roll is a listing of the proposed maximum assessment for Fiscal Year 2008/2009 apportioned to each lot or parcel based on the amount of special benefit attribute to the parcel, as shown on the Los Angeles County last equalized roll of the assessor and reflective of the Assessor's Parcel Map(s) associated with the equalized roll. A listing of parcels proposed to be assessed within this District, along with the proposed 2008/2009 assessment amounts, is shown on the following table.

| Assessor Parcel Number | Zone | EBU | Parcel Location | Property Owner | Estimated Annual Assessment Installment | Estimated Total Assessment as Preliminarily Approved | Final Total Assessment as Confirmed and Recorded |
|------------------------|------|------|---------------------|---------------------------------|---|--|--|
| 5707-001-001 | I | 1.00 | 1515 GLEN OAKS BLVD | DANYO JOHN | \$992.41 | \$12,959.04 | |

PART E. DISTRICT DIAGRAM

The District is located west of Linda Vista Avenue and east of the City limits, the Ventura Freeway effectively acts as the southern Boundary and Afton Street as the northern boundary. The District will consist of approximately six hundred and forty-two (642) assessable parcels. The parcels within the District consist of all lots, parcels depicted within the boundaries of the District. The District assessment diagram/boundary map reflecting the exterior boundaries of the District and the Zones of benefit has been submitted to the City Clerk. A reduced copy of the assessment diagram/boundary map is attached.
