Subject: Resign to the Northwest Commission

Hello Friends of the Northwest Commission:

With a deep pain in my heart I had to take the decision to resign as a member of the northwets comission. Due to a new job possition I have to move to another area of work and I do not think I will be able to attend anymore the regular meetings; I will be working sometimes on behalf of my community but it will imposiible to keep attending your meetings. I am very happy that I found people that really want to make changes to benefit our different and diverse community. I wish you the best. Probably we will crossing the same roads sometimes and I would be very glad if we can share some goals. Thank for your patiente with my own limitations: what I have done I did it with good will. keep doing your marvelous work.

In Solidarity

Raul Borbon
