We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Pasadena, California (City), as of and for the year ended June 30, 2011, which collectively comprise the City's basic financial statements and have issued our report thereon dated December 29, 2011. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal controls over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City's internal controls over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of the internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all the deficiencies in the internal control that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses as defined above. However, we identified certain deficiencies in internal control over financial reporting, described in the accompanying schedule of findings and questioned costs as items 11-01 through 11-05 as well as 11-10 and 10-01 that we consider to be significant deficiencies in internal control over financial reporting. A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit the attention of those charged with governance.

REGISTERED with the Public Company Accounting Oversight Board and MEMBER of the American Institute of Certified Public Accountants

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We also noted other matters that we reported to the City Council of the City of Pasadena in a separate letter dated December 29, 2011.

The City's written responses to the significant deficiencies identified in our audit have not been subjected to the audit procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

This report is intended solely for the information and use of the City Council, management of the City of Pasadena, others within the City of Pasadena, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

Compliance

We have audited the compliance of City of Pasadena (the City) with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133 Compliance Supplement* that could have a direct and material effect on the City’s major federal programs for the year ended June 30, 2011. The City’s major federal programs are identified in the summary of auditor’s results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the City’s management. Our responsibility is to express an opinion on the City’s compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City’s compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the City’s compliance with those requirements.

In our opinion, the City complied, in all material respects, with the requirements referred to above that have a direct and material effect on each of its major federal programs for the year ended June 30, 2011.

Internal Control Over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the City’s internal control over compliance with requirements that could have a direct and material effect on a major federal program in order to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of internal control over compliance.

REGISTERED with the Public Company Accounting Oversight Board and MEMBER of the American Institute of Certified Public Accountants

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

Schedule of Expenditures and Federal Awards

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City as of and for the year ended June 30, 2011, and have issued our report thereon dated December 29, 2011. Our audit was performed for the purpose of forming an opinion on the financial statements that collectively comprise the City's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of management, City Council, others within the City, federal awarding agencies, and pass-through entities. However, this report is a matter of public record and its distribution is not limited.

**CITY OF PASADENA
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
YEAR ENDED JUNE 30, 2011**

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES APPLICABLE TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

A. Scope of Presentation

The accompanying schedule presents only the expenditures incurred by the City of Pasadena that are reimbursable under the programs of federal agencies providing financial assistance. For the purposes of the schedule, financial assistance includes both federal financial assistance received directly from a federal agency, as well as federal funds received directly by the City from a non-federal agency or other organization. Only the portions of program expenditures reimbursable with such federal funds are reported on the accompanying schedule. Program expenditures in excess of the maximum federal reimbursement authorized or the portion of the program expenditures that were funded with state, local or other non-federal funds are excluded from the accompanying schedule.

B. Basis of Accounting

The expenditures included in the accompanying schedule were reported on the modified accrual basis of accounting. Under the modified accrual basis of accounting, expenditures are incurred when the City becomes obligated for payment as a result of the receipt of the related goods and services. Expenditures reported included any property or equipment acquisitions incurred under the federal program.

C. Subrecipients

During the fiscal year ended June 30, 2011, the City disbursed \$1,837,457 to subrecipients to be used for the federally allowable expenditures in accordance with grant agreements.

D. Additional Disclosures for Department of Justice Technology Grants

In fiscal year 2010, expenditures were \$320,884 and refunded \$802,648 for equipment returned, creating a total net negative expenditure of \$481,764. This balance was not reported on the prior year Schedule of Expenditures of Federal Awards. In fiscal year 2011, the amount reported is for expenditures incurred and not netted with refunds.

NOTE 2 – RECONCILIATION OF THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

Reconciliation of the Schedule of Expenditures of Federal Awards to Operating Grants and Contributions and Capital Grants and Contributions as reported in the City's Comprehensive Annual Financial Report for the year ended June 30, 2011

The following is a reconciliation between the Schedule of Expenditures of Federal Awards to Operating Grants and Contributions and Capital Grants and Contributions as presented in the City's Comprehensive Annual Financial Report:

Operating Grants and Contributions	\$ 36,910,388
Capital Grants and Contributions	<u>11,089,879</u>
Total Grants and Contributions from Governmental Activities per the City's Comprehensive Annual Financial Report	\$ 48,000,267
<u>Adjustments:</u>	
Net increase in deferred revenues between fiscal 2010 and fiscal 2011 due to changes in eligibility	683,671
Net unbilled expenses due to timing differences	(4,326,714)
Grants from the State of California and other entities recorded as Operating and Capital Grants and Contributions in accordance with GAAP	(16,128,113)
Non-grant amounts received from the Federal Emergency Management Agency	(72,989)
Miscellaneous program income and other adjustments	1,132,941
Disallowed expenses	7,485
Reimbursements for federal loan repayments not on the Schedule of Expenditures of Federal Awards	(188,152)
Workforce Investment Act amounts reported in agency funds	<u>4,577,152</u>
Net Adjustments between the Schedule of Expenditures of Federal Awards and Grants and Contributions	<u>(14,314,720)</u>
Total Expenditures of Federal Awards	<u><u>\$ 33,685,547</u></u>

NOTE 3 – CLUSTER INFORMATION

Presented in this note are only grants that are clustered under Part 5 of the *Compliance Supplement* to OMB Circular A-133, and all grants are not presented.

<u>Federal CFDA</u>	<u>Program Title</u>	<u>Federal Expenditures</u>

NOTE 4 – LOAN OUTSTANDING

At June 30, 2011, an outstanding loan under the U.S. Department of Housing and Urban Development – Section 108 program was \$1,000,000. Amounts expended under the U.S. Department of Housing and Urban Development – Community Development Block Grant program were \$347,623 for Fiscal Year 2011. Amounts expended from the loan proceeds are reflected in the accompanying Schedule of Expenditures of Federal Awards.

**CITY OF PASADENA
SCHEDULE OF FINDINGS AND QUESTIONED COSTS
YEAR ENDED JUNE 30, 2011**

A. Summary of Auditor's Results

Financial Statements:

Type of auditor's report issued Unqualified

Internal control over financial reporting:

Material weakness(es) identified? Yes No

Significant deficiencies identified

not considered to be a material weakness? Yes No

(See items 11-01 through 11-05 and 11-10 and one prior year significant deficiency, item 10-01.)

Noncompliance material to financial statements noted? Yes No

Federal Awards:

Internal control over major programs:

Material weakness(es) identified? Yes No

Significant deficiencies identified

not considered to be a material weakness? Yes No

(See items 11-06 through 11-10.)

Type of auditor's report issued on compliance for major programs:

Unqualified

Any audit findings disclosed that are required to be reported in accordance with OMB Circular A-133, Section .510(a)?

Yes No

Identification of Major Programs:

<u>CFDA Number(s)</u>	<u>Name of Federal Program or Cluster</u>
20.205	Highway Planning and Construction
14.218, 14.253	CDBG - Entitlement Grants
14.871	Housing Voucher Cluster
14.239	Home Investment Partnerships Program
14.235	Supportive Housing Program
17.258, 17.259, 17.260	WIA Cluster
97.005	State and Local Homeland Security National Training

Dollar threshold used to distinguish between Type A and Type B programs

\$ 1,010,566

Auditee qualified as low-risk auditee?

Yes No

B. Findings Related to the Financial Statements which are required to be reported in accordance with Generally Accepted Government Auditing Standards

CURRENT YEAR SIGNIFICANT DEFICIENCIES

11-01 Accrual of Payables

During our testing of unrecorded liabilities, we selected a sample of thirty (30) material cash disbursements that occurred subsequent to fiscal year-end and reviewed support to ensure that they were accrued in accordance with accounting requirements. The results of our testing showed that two (2) of the thirty (30) disbursements were not adequately accrued. The total of the two (2) disbursements totaled \$363,413. During further discussion with Accounts Payable Division, it was noted that accounts payable had an initial accrual cut-off of July 15, 2011 for accrual of expenses related to Fiscal Year 2011. For invoices that were received after this date, the Finance Department would accrue the expenses if the invoice was dated June 30, 2011 or earlier, and the value of the invoice was \$250,000 or more. We consider these inadequate procedures as the City may fail to accrue invoices that are dated after June 30, 2011, but is billing for activity that occurred before or goods that were received before the fiscal year-end.

Recommendation

We recommend that the City's Accounts Payable Division enter the activity periods for each invoice received into the City's accounting software, People Soft. This provides the Finance Department the ability to do query searches based on activity date to assist in its determination of accounts payable completeness and accuracy.

Also, it is our opinion that the City's materiality threshold of \$250,000 be lowered to a more reasonable amount.

Management's Comments Regarding Corrective Actions Planned

The City has already taken steps to reduce the threshold for accrual and will take additional steps to improve this year-end process by setting appropriate thresholds, providing for a longer accrual period, and investigating the possibility of using the additional software feature. This year-end procedure has been in place for a number of years.

11-02 Need to Improve Control over Paramedic Billing and Collections

During our review of the accounts receivable, we noted that the recorded Paramedic Receivables as of June 30, 2011, were over \$3 million with allowance for doubtful accounts calculated as 50% of the receivable amount. Fiscal year 2011 is the second year that the City contracted a third party to perform billing and collection for Paramedic Receivables. The total in the year-end accounts receivable aged report provided by the City's contractor does not have the same exact balance as the monthly reconciliation that was presented for audit purposes because the City is unable to obtain an accurate report from its contractor. We reviewed the report that the City obtained from the contractor which shows a summary of monthly billing amounts and collections and noted that there is a column for "Unbilled and Write Off" that amounted to over \$1 million. Per our inquiry with City personnel, this amount represents amounts that are not billed pending additional information to complete the billing, that are contractual write-offs, or are simply not billable. As a best practice, a year-end aging report should be periodically reviewed for old and slow-paying accounts. Additionally, the City should be able to obtain a detail of the unbilled and write off balance to be reviewed and ensure that there have not been any write-offs unauthorized by the City. Fiscal year 2011 was the second year of this significant deficiency (see 10-01).

Recommendation

We recommend that the City continue its effort in working together with the contractor to improve control over billing and collection of the Paramedic Receivable or consider hiring another vendor.

Management's Comments Regarding Corrective Actions Planned

The City agrees with this finding. It appears that the City's former contractor does not follow best practices and has been unable to provide reports that meet the City's requirements. This is one of the reasons that the City has chosen to change vendors for Paramedic billings. The City is confident that the reports provided by the new vendor will fully address this finding.

11-03 Long Outstanding Receivables

During our analysis of long time outstanding receivables, we noted a material receivable included in the general ledger for which the City did not expect to receive payment. Upon further client inquiry, it was noted the receivable had been settled in March of 2011 when the State received payment and the City had failed to remove it from its books. Once proper documentation was received, the City did record this transaction.

Recommendation

We recommend that the Finance Department review all pending material long outstanding receivables at year-end and consider their appropriateness.

Management's Comments Regarding Corrective Actions Planned

The City did remove this from the books upon receipt of proper documentation. At issue was receipt of a copy of the reconveyance documenting the transaction involved. The City is very diligent in not removing obligations from the books until appropriate to do so. The City agrees that a more thorough review and better documentation of the year-end review is appropriate.

11-04 Capital Asset Cycle

During our walkthrough of the City's capital asset cycle, the following were noted:

- Inventories of capital assets kept in logs at various departments are not regularly reconciled to PeopleSoft, the City's system of record,
- Construction in process (CIP) is only cycled to completed assets on an annual basis, and
- PeopleSoft system has some software errors that allow capital assets to potentially depreciate beyond their cost.

Recommendation

To enhance internal controls over capital assets, we recommend that the City review its listing of capital assets by department twice a year off-cycle to the annual audit (i.e., March and September), requiring certification from the department's signatory authority over the accuracy of the inventory. This would alleviate much of the loading and unloading of capital assets close to year-end and spread the work throughout the year.

Management's Comments Regarding Corrective Actions Planned

The City agrees with this finding. Finance and the Department of Information Technology (DoIT) are working together to identify a solution to the PeopleSoft Asset Management system errors. Current resources will make it difficult to work on off cycle inventories twice a year, but the City will enhance procedures to ensure confirmations of accurate and timely inventories from all Departments.

11-05 Personnel File Requirements

To test the City's controls over payroll, we selected a sample of forty (40) City employees. During our analysis, we noted the following:

- Six (6) out of the forty (40) employees selected for testing did not have an Employment Eligibility Verification Form I-9, in their personnel file.
- Seven (7) of the forty (40) employees selected for testing did not have the necessary documents included in their personnel file that would allow us to verify information on the Form I-9 (i.e., drivers license, social security card, birth certificate, or passport).
- Six (6) of the forty (40) employees selected for testing did not have an application included in their personnel file.

Reform and Control Act of 1986 (IRCA) requires that all employers verify the employment eligibility and identity of all employees hired to work in the United States after November 6, 1986. Compliance with IRCA is documented through the completion and maintenance of Employment Eligibility Form I-9. Per further discussion with Management, we noted that there were no monitoring procedures within the Human Resource Department to ensure that all files are complete, having no missing required documents.

Recommendation

To ensure federal compliance of the IRCA, we suggest that the City actively seek to maintain complete records for each City employee. We suggest that monitoring procedures be developed and implemented, including a periodic review of personnel files for missing required documents (i.e., Employment Eligibility Form I-9 and copies of the supporting documents).

Management's Comments Regarding Corrective Actions Planned

The City agrees with this finding. Over the past several months City staff audited the I-9 records, identified missing information and has completed obtaining the records and updating the files. The I-9 forms are maintained in a separate file and the verification is kept in the personnel file.

C. Findings and Questioned Costs for Federal Awards as Defined in Paragraph .510(a) of OMB Circular A-133

11-06 – Community Development Block Grant – CFDA #14.218 and CFDA #14.253

The ARRA 1512 is a quarterly report that is submitted via the FederalReporting.gov website. This report is used by the Federal Government to track the progress on its American Recovery and Reinvestment Act funding.

The CDBG program is currently reporting the ARRA 1512 Report incorrectly. Staff is currently reporting the ARRA 1512 report as if they receive funding through Federally Awarded Contracts. However, CDBG receives its funding through Grant funding. After reviewing all four of the quarterly ARRA 1512 reports for the Fiscal Year 2011, we noted the following consistent mistakes:

- CDBG staff have been interpreting that the "Received/Invoiced" is the total amount that has been invoiced to the CDBG grant by contractors. In addition, staff is not currently reporting any "Expenditure" amount on the ARRA 1512 Report. This is the method used by Contractors of a Federally Funded Contract, not agencies receiving Grant funding.
- The program is receiving its funding from grants, therefore, the "Received/Invoiced" amount is supposed to be the total amount of ARRA 1512 funding that has been received to date through drawdown, while "Expenditure" is to be the expenditure amount that the grant has incurred to date.

Also during our analysis of the ARRA 1512 report, we noted an inadequate review process of the quarterly reports prior to their submission to HUD. Per further discussion with the client, it was noted that the Housing Department relies on HUD's review of the report to determine whether the information is correct.

Recommendation

We recommend that CDBG correct the ARRA 1512 report going forward. According to the FederalReporting.gov website, all errors should be corrected in the following period if they are not recognized by the 21st of the month in which the report is being submitted. We also suggest strengthened communication between the Housing Department and the Finance Department to ensure that accurate data is submitted to HUD in a timely manner.

Management's Comments Regarding Corrective Actions Planned

Commencing in January 2012, Housing Department CDBG staff will prepare/review/submit the ARRA 1512 quarterly report in the manner specified by the audit comments. Housing Department CDBG staff will communicate with the Finance Department in a timely manner to ensure that the ARRA 1512 report is accurate before submitting it to HUD.

11-07 – Supportive Housing – CFDA #14.235

The ARRA 1512 is a quarterly report that is submitted via the FederalReporting.gov website. This report is used by the Federal Government to track the progress on its American Recovery and Reinvestment Act funding.

During our review of the calendar year second quarter ARRA 1512 report, we noted that the "Expenditure" item was incorrect. Through further inquiry with Supportive Housing staff, we noted that this item had not been updated since the calendar year first quarter submitted ARRA 1512 report. We also noted that there is no review by Management of these reports prior to their submission to HUD.

Recommendation

We suggest strengthened communication between the Housing Department and the Finance Department to arrive at the financial data presented in the reports. Furthermore, we suggest that the Supportive Housing program implement a review policy so that the report is reviewed prior to submission.

Management's Comments Regarding Corrective Actions Planned

Housing Department CDBG staff will communicate with the Finance Department in a timely manner to ensure that the ARRA 1512 report is accurate before submitting it to HUD. Prior to submittal, the report will be reviewed by the Housing Director or his designee.

11-08 – Supportive Housing – CFDA #14.235

The APR report is an annual report that is required to be submitted by the Supportive Housing program. During our audit procedures, we were unable to review the supporting documentation related to the Homeless Assistance Reporting Period section of the APR report due to the Supportive Housing staff being unable to locate this information within their records. This does not conclude that the APR report is being presented incorrectly, but instead that we were unable to confirm whether the information being reported is correct.

Recommendation

To ensure that all reported data in the APR report can be confirmed and substantiated, we suggest that the Supportive Housing program improve its record keeping system to better safeguard and store its records relating to financial reports.

Management's Comments Regarding Corrective Actions Planned

Commencing in January 2012, Supportive Housing staff will take steps to improve its records management system relating to financial reports.

11-09 – Supportive Housing – CFDA #14.235

Subrecipient Monitoring is generally required to be conducted for each subrecipient on an annual basis. It is acceptable for the program to monitor a subrecipient for two fiscal years if they are unable to review them annually. All subrecipient agreements are for one year and can be extended for an additional year with the permission of the Board.

During our review of the City's subrecipient monitoring review for Affordable Housing Services (AHS) Navarro House, we noted the following relating to internal controls and their accounting systems.

- Follow up site visits must be conducted to verify compliance. Information available to assist us in determining whether follow up occurred was an email chain confirming the timing of the follow up. This documentation did not allow us to confirm whether the internal control and accounting system issues noted during the monitoring of the subrecipient had been addressed by the subrecipient in a timely manner.
- Related to the fiscal years 2009 and 2010 subrecipient monitoring review of AHS Navarro House, we noted that the subrecipient had the same internal control and accounting system issues that were noted during the City's review in 2008. The City performed that same follow up procedures during the fiscal years 2007 and 2008 review as it did during the current review. The City should strengthen its follow up procedures to ensure subrecipients remain in compliance with their contracts within a reasonable timeframe.

Recommendation

We recommend that the City implement a subrecipient watch list that documents any subrecipients who have internal control or accounting system issues. For subrecipients with significant or repetitive findings noted, the City would then monitor the subrecipient each year prior to signing a subrecipient agreement for the following fiscal year. Furthermore, if the subrecipient does not address all findings and properly maintain superior status for the following two years, they should no longer be a subrecipient.

We also suggest that the City develop a formal checklist, which will help document the issues that arose during the review and the follow up procedures that took place, and whether the subrecipient had adequately mitigated all issues that were identified.

Management's Comments Regarding Corrective Actions Planned

The City will as recommended develop an internal watch list and will monitor sub-recipients with internal control or accounting system issues to ensure that flagged issues have been resolved prior to entering into a new sub-recipient agreement.

The City currently has an audit checklist utilized in performing the fiscal monitoring. The City will develop an additional checklist or log to document the issues and resolutions resulting from the fiscal monitoring.

11-10 – Preparation and Reconciliation of the Schedule of Expenditure of Federal Awards

The schedule of expenditures of federal awards is presented for the purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the City's basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The preparation of the schedule and of the City's financial reports is a significant undertaking. The reports require coordination and input from internal and external parties. The preparation is highly dependent on information from internal and external parties being timely and fairly stated and the result of these key dependencies is that the City is exposed to significant delays in the preparation of complete and fairly stated financial information. Such was the case with regard to the 2011 schedule of expenditures of federal awards when a program was not detected by management and an outstanding loan under the U.S. Department of Housing and Urban Development Section 108 program – Community Development Block Grant program was not disclosed until after the Schedule of Expenditures of Federal Awards was in the final audit stages. Footnote disclosure of various loan programs was also inadvertently deleted in the year ended June 30, 2010, Notes to the Schedule of Expenditures of Federal Awards.

Recommendation

The Finance Department should coordinate with other departments to arrive at timely and fairly stated financial data presented in the reports. This should include, but not be limited to, at least semi-annually Schedule of Expenditures of Federal Awards preparation with a reconciliation to other reports filed with federal agencies and/or interim financial reports. There should also be an assurance from the departments to the Finance Department that all data in the reports is fairly stated.

Management's Comments Regarding Corrective Actions Planned

The Finance Department will increase our level of coordination with departments to prepare and reconcile a semi-annual Schedule of Expenditures of Federal Awards with reports to federal agencies or interim financial reports in a timely manner. We will also obtain timely confirmation that all data in the reports is fairly stated. The procedures described above have been added to our year-end checklist.

**CITY OF PASADENA
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
YEAR ENDED JUNE 30, 2011**

The following is the status of prior audit findings:

10-01 Need to Improve Control over Paramedic Billing and Collections

During our review of the accounts receivable, we noted that the recorded Paramedic Receivables as of June 30, 2010, were over \$7 million with allowance for doubtful account calculated as 50% of the receivable amount. Fiscal Year 2010 is the first year that the City contracted a third party to perform billing and collection for Paramedic receivables. There was no yearend accounts receivable aged report that was presented for audit purposes because the City is unable to obtain such report from its contractor. We reviewed the report that the City obtained from the contractor which shows a summary of monthly billing amounts and collections and noted that there is a column for "Unbilled and Write Off" that amounted to over \$1 million. Per our inquiry with City personnel, this amount represents amounts that are not billed pending additional information to complete the billing. As a best practice, a year end aging report should be periodically reviewed for old and slow-paying accounts. Additionally, the City should be able to obtain a detail of the unbilled and write off balance to be reviewed and ensure that there haven't been any write-offs not unauthorized by the City.

Recommendation

We recommend that the City continue their effort in working together with the contractor to improve control over billing and collection of the Paramedic Receivable.

Management's Comments Regarding Corrective Actions Planned

Management concurs with the auditors recommendations. As commented on above, the outside vendor was unable to provide a detailed accounts receivable aging at year end. Subsequently such a report has been received and staff is carefully reviewing and will implement further actions to validate the vendor data and improve the timely receipt of proper documentation from the vendor.

Current Year Status

See current year 11-02.
