Subject: Northwest Commission Resignation
Importance: High

Greetings All,

Please receive this email note as my official letter of resignation from my role as Northwest Commissioner effective July 1, 2012. There are a number of issues that have prompted my resignation:

1. My parents failing health has resulted in my absence from many recent meetings and this will occur more frequently in the days to come.
2. I have sold my home and will be relocating out of district 1 in July 2012.
3. Several creative work options have surfaced that will require greater travel and ultimately a very likely relocation out of state.

I have made every effort to serve the Northwest Community well in my role as a Commissioner. And while service has been challenging, I have truly enjoyed the opportunity and only regret that the commission was unable to achieve greater impact in its efforts for the citizens of Northwest Pasadena. Recognizing that this race is a marathon, and not a sprint, I have every hope and expectation that the Northwest Commission will go forward with strength in its service to the City Council and the Citizens of Northwest Pasadena.

I plan to attend the 6/14/12 NWC meeting to say my final good byes to my peer commissioners and city staff that have supported and will continue the work on behalf of the northwest citizens. Know that I will be attending to my parents health challenges from 6/16 – 7/2/12, and will therefore miss my last official meeting.

Again, thank you for allowing me to serve and I wish the NWC and City Council only the best.

Karen Evans
