Subject: Water rate increases

The Pasadena Chamber does not object to the current proposal by PWP to increase water rates in 2013 to recapture increases from MWD.

We do not support automatic increases in future years. Instead, we would prefer the City Council deliberate these additional increases more immediately prior to implementation.

Further, we would recommend that the City Council instruct your representative on the MWD board come before the City Council in open session and explain the rationale for any future increases AND that the City Council authorize your representative to support any and all MWD increases in the future. (Or instruct your representative to vote against such increases.) We ask that you provide transparency for rate payers and give ratepayers the opportunity to comment meaningfully and timely on proposed MWD rate increases.

Thank you,

Paul Little
