Councilmember Tornek stated that the City Council is not prepared to adopt new transportation measures or give any direction with regard to specific measures, and also suggested that the matter be referred to the Planning Commission for deliberation and that the City Council acknowledge that the General Plan will not be adopted by the end of the year as anticipated.

The Mayor stated that when the matter returns to the City Council that he would like information as to what has transpired at the state level in regards to the State's adoption of revised guidelines, status of the implementation of the guidelines, and the apparent intrusion by state legislation and regulations impacting local control.

Following discussion, it was moved by Councilmember McAustin to approve the staff recommendation. (Motion failed due to lack of a second)

Following additional discussion, it was moved by Councilmember Gordo, seconded by Councilmember Kennedy, to acknowledge that the General Plan adoption will be delayed and will not meet the anticipated timeline of December 31, 2014; allow time for the Planning Commission to continue to consider and develop new transportation performance measures for recommendation to the City Council, with the City Council to finalize and adopt new Performance Measures to be utilized for the Environmental Impact Report and Traffic Analysis for the General Plan Update; with staff directed to provide the Planning Commission with information from the City Council's discussion at tonight's meeting; and staff also directed to come back with a comprehensive report on the preemptor legislation pertaining to transportation metrics.
