Subject: Comment for Agenda #14, City Council Meeting TODAY

Hi Mr. Jomsky,

Comments for Agenda Item #14, Robinson Park Renovation Design Alternative, 2/23/15 City Council meeting:

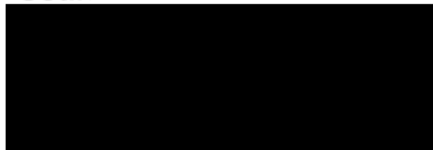

My name is Joan Chin and I am a 35+ year resident of Sunset Oaks. As a neighbor to Robinson Park, I'd like to express my support of the proposed design being considered by Council tonight. I think the increased setback from Fair Oaks Blvd preserves precious open space in an otherwise densely built area. The community has waited a long time for this park renovation to be completed and I look forward to Council advancing progress on the project.

I believe that GKKworks, the Renovation Steering Committee and City Staff have done well with their community outreach efforts. Like other neighbors, I have ongoing concerns with regard to parking, traffic, safety and littering. I look forward to the City continuing to engage community stakeholders around these and other issues as the project progresses.

Respectfully,
Joan Chin
