Re: Council Meeting 9/26/2016; Agenda Item 6; Olympics Soccer Games

Mayor Tornek and Councilmembers:

The Linda Vista-Annandale Association (LVAA) has the following comments on the Olympics soccer games proposal.

The proposed total number of 22 maximum Displacement (large) events for 2024, including Olympics soccer games, is excessive, and will result in unnecessary impacts on surrounding neighborhoods, including cumulative impacts.

The proposed total is also unnecessary since Displacement events 8 - 12 will be available in 2024 for allocation to Olympics soccer rather than to unidentified concerts and/or professional soccer games on top of every other major event scheduled for 2024. Directing allocation of slots 8 - 12 to Olympics soccer games would have the desirable effect of reducing the total number of 2024 Displacement events by 5 to a maximum of 17, from a maximum of 22.

**As part of your approval of Agenda Item 6, LVAA urges the Council to direct allocation of available slots within the 15 previously cleared Displacement events to Olympics soccer in order to mitigate the impacts of adding 7 Olympic soccer games to the 2024 Displacement Events total.**

Thank you for your attention to our concerns and our suggestions.

Sincerely,

Nina Chomsky, LVAA President
