Dear Tyron,

Good morning, as I mentioned in my June email to you, we use cannabis oil to treat my husband who has glioblastoma. This article (<http://www.pasadenanow.com/main/city-council-to-vote-on-officially-banning-local-marijuana-sales/#.WfyBOhNSy8U>) represents my biggest fear. As you're aware this is the same brain tumor that Senator McCain has and what finally killed Senator Kennedy. There are not a whole lot of medical options for folks with this awful disease but cannabis in oil form is suppose to help, to the point that my husband's UCLA neuro-oncologist recommended a doctor who could help us with method and dosage.

This law now forces people like me to find another way to purchase the needed cannabis oils to help their loved ones. Which mean the taxes go to that city and not to Pasadena.

I had always thought Pasadena was more progressive and certainly had a history of being a health sanctuary, now I see it is the city of "no".

Very sad indeed,

Thank you so much for the email. This issue will be coming back to economic and technology committee (I don't have a date yet) and then ultimately to the full city Council for actions. I would encourage you to please continue to show up all the community meetings about dispensaries and state your opinion.

Thanks so much

Tyron Hampton

Dear Councilmember Hampton,

As a member of your district and someone who voted for you, I thought I would share an email I sent to John Pollard this morning regarding medical marijuana dispensaries.

I hope you would lend your support to this very important issue and help keep much-needed dispensaries in our city.

Thank you,

Antoinette Mongelli

Dear John,

I understand, among you many responsibilities that you're overseeing the regulations for Medical Marijuana dispensaries.

If you'll recall, I live on Howard & Garfield and we have spoken in the past about stop signs and other neighborhood issues.

Regarding this issue, and for a little background; my husband Greg was diagnosed with glioblastoma in May 2015, an inoperable brain tumor. This is the same disease that killed Steve Julian from KPCC. Greg has been taking tincture/oil of cannabis, medical marijuana almost since diagnosis, and we believe it has helped keep his tumor at bay. As my husband's caregiver, it is important that I have easy access to high-quality product. I hate having to drive to Eagle Rock and paying the various city taxes when I would rather keep the money local.

I don't understand, as California is on the cusp of becoming a medical marijuana sanctuary state "<http://money.cnn.com/2017/06/09/news/california-sanctuary-marijuana/index.html> why not make it easier for Pasadena citizens to access safe reliable products?

I do hope I'm wrong about Pasadena trying to remove all the brick/mortar dispensaries. I need a place that is a close, reliable and safe. Yes, I could grow my own, but we don't want to smoke it, we need the tincture/oil derived from the plant. Much, too much work for me to do.

If it helps, a little info about us, I'll be 60 yrs old in two weeks. I was an Assistant Chancellor/chief-of-staff at UCLA

My husband was a NY Times best-selling author on health issues.

We are pretty typical as the

fastest growing group of people using medical marijuana is

now

55+ age group.

Let me know what I can do to help keep good safe dispensaries open, in Pasadena. We need more options, not

fewer

. Please don't bring back the equivalent of

P

rohibition to this industry. Pasadena can be a model city to provide a safe way to regulate an important industry

and to increase much needed tax dollars.

Th

ank you,

Antoinette Mongelli

Subject: City Council Meeting 11/6/2017 -- Agenda Item 6; Marijuana Regulations

Please deliver to the Council for tonight's meeting -- Thank you.

Linda Vista-Annandale Association

Mayor Tornek and Councilmembers,
c/o City Clerk Mark Jomsky

Re: City Council Meeting 11/6/2017 -- Agenda Item 6; Marijuana Regulations

Representatives of the Linda Vista-Annandale Association (LVAA) have attended or participated in all public meetings on this matter, including, most importantly, the recent EdTech Council Committee meeting.

As we have said often, the LVAA Board is very concerned about this issue, particularly outdoor cultivation in our neighborhood, and all other Pasadena single-family neighborhoods, and all commercial growing/sales activities in Pasadena.

We are very pleased with Staff's recommendations concerning outdoor cultivation and commercial growing/sales in Pasadena, and LVAA is pleased to support Staff's recommendations as detailed in the Staff Report. We urge you to resist all lobbying efforts otherwise, and we further urge you to approve Staff's recommendations.

We do have several ongoing concerns with Marijuana regulation, and ask that you consider the following matters.

1. Enforcement/Golf Courses. LVAA has ongoing concerns about enforcement and City resources for enforcement. For example, we continue to be very concerned about public marijuana usage, i.e. smoking and edibles/products) at events at the Rose Bowl (primarily concerts) and the Music Festival on the Golf Courses. Although apparently illegal under the new state law and even under the promoter's rules, Marijuana smoking and use of edibles/products on the Golf Courses (where ordinary tobacco smoking/use is permitted under Pasadena law) during the recent Music Festival (supposedly a "family" event) was common at the live music performance venues. There was no enforcement. How does Pasadena plan to enforce the new law and this Ordinance in particular? Further, please consider clarifying that Marijuana usage (smoking and use of edibles/products) is illegal on the Golf Courses.

2. Delivery Vehicles. is it possible to regulate signage/advertising/branding on Marijuana delivery vehicles in neighborhoods? We are concerned about visible

signage/advertising/branding materials on vehicles continuously driving around Pasadena's neighborhoods -- clearly constituting a form of attractive nuisance or worse. Perhaps some level of limitation would be legal. We would appreciate your considering this issue.

Thank you for your attention to our comments and concerns.

Sincerely,

Nina Chomsky, LVAA President
