**Subject:** California Water Fix

Dear Mayor Tornek and Pasadena Council Members,

I understand you may be discussing the dual tunnel project to bring water to Southern California and the Central Valley.

The Pasadena Chamber of Commerce Board of Directors has been on record supporting the proposed dual tunnel solution known as the California Water Fix because that would help ensure a safe, reliable source of water to our region and our city.

The Board is supportive of this solution as it helps ensure adequate water supplies for Southern California which imports about 30% of our water from Northern California. We also recognize that the tunnel proposal will help provide protections to species currently requiring environmental mitigations to ensure their ongoing viability.

We understand that this is an expensive solution, but not having reliable sources of water would be more expensive in the long run.

I urge you to support the California Water Fix dual tunnel project.

Thank you,

Paul
