

December 15, 2017

To the Honorable Mayor and Members of the City Council
City of Pasadena, California

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Pasadena(City) for the year ended June 30, 2017. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards, *Government Auditing Standards* and the Uniform Guidance, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated June 14, 2017. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the City are described in the notes to the financial statements.

We noted no transactions entered into by the City during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting estimates are an integral part of the financial statements prepared by management and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected. The most sensitive estimates affecting the City's financial statements were:

Management's estimate of its net pension liability is based on actuarial valuation specialist assumptions. We evaluated the key factors and assumptions used to develop the proportionate share of the net pension liability in determining that it is reasonable in relation to the financial statements taken as a whole.

Management's estimate of its Other Post-Employment Benefit Annual Required Contribution is based on actuarial valuation specialist assumptions. We evaluated the key factors and assumptions used to develop the Other Post-Employment Benefit Annual Required Contribution in determining that it is reasonable in relation to the financial statements taken as a whole.

Management's estimate of the fair market value of its derivative instrument is based on third party valuation. We evaluated the key factors and assumptions used to develop the fair market value of the derivative instrument in determining that it is reasonable in relation to the financial statements taken as a whole.

To the Honorable Mayor and Members of the City Council
City of Pasadena, California

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are trivial, and communicate them to the appropriate level of management. These differences are described below. In addition, none of the misstatements detected as a result of audit procedures by management were material, either individually or in the aggregate, to the financial statements taken as a whole.

Unadjusted Audit Differences	Current Year Over (Under) Revenues and Expenditures/Expenses and Changes in Fund Balance/Equity
Accounts Payable underaccrued	\$ 27,224
Improperly Capitalized prior year expenses	182,896
Cumulative effect (before effect of prior year differences)	210,120
Effect of unadjusted audit difference - prior year	-
Cumulative effect (after effect of prior year differences)	\$ 210,120

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated December 15, 2017.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the City's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

To the Honorable Mayor and Members of the City Council
City of Pasadena, California

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the City's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We applied certain limited procedures to management discussion and analysis, budgetary comparison schedule for the General Fund and housing successor fund, the schedule of changes in net position liability and related ratios, and the schedules of plan contributions which are required supplementary information (RSI) that supplements the basic financial statements. Our procedures consisted of inquiries of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We did not audit the RSI and do not express an opinion or provide any assurance on the RSI.

We were engaged to report on combining statements and individual nonmajor fund financial statements and schedules which accompany the financial statements but are not RSI. With respect to this supplementary information, we made certain inquiries of management and evaluated the form, content, and methods of preparing the information to determine that the information complies with accounting principles generally accepted in the United States of America, the method of preparing it has not changed from the prior period, and the information is appropriate and complete in relation to our audit of the financial statements. We compared and reconciled the supplementary information to the underlying accounting records used to prepare the financial statements or to the financial statements themselves.

We were not engaged to report on introductory or statistical sections, which accompany the financial statements but are not RSI. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

New Auditing Standard No. 130

This new auditing standard is effective for financial periods ending on or after December 15, 2017; for most California municipalities it is effective for the period July 1, 2016 through June 30, 2017 and future periods thereafter. The standard allows CPA firms to issue an opinion on the financial statements conformity with generally accepted accounting principles, as well as an opinion on the operating effectiveness of internal controls over financial reporting through an integrated audit. This standard does not change the objectives of a financial statement audit, it only enhances the value and scope of a financial statement audit and increases the level of assurance provided by CPA firms on financial controls. Municipalities should look to perform an integrated audit for more assurance on the operating effectiveness of internal controls over financial reporting.

New Accounting Standards

The following new Governmental Accounting Standards Board (GASB) pronouncements were effective for fiscal year 2016-2017 audit:

GASB Statement No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement No. 68, and Amendments to Certain Provisions of GASB Statement Nos. 67 and 68.

To the Honorable Mayor and Members of the City Council
City of Pasadena, California

GASB Statement No. 74, Financial Reporting for Post-employment Benefit Plans Other Than Pension Plans.
