BACKGROUND:

This project consists of the resurfacing of asphalt pavement including removal and reconstruction of damaged concrete curb, gutter, sidewalk, curb ramps, driveway aprons, and cross gutters; construction of raised concrete landscaped median on Lida Street between Knollwood Drive and Lancashire Place; localized pavement reconstruction; grinding of existing asphalt concrete; asphalt rubberized hot mix overlay; adjustment of existing utility manholes; replacement of traffic signal loop detectors; installation of raised pavement markers; and miscellaneous appurtenant work. A list of the streets and a map showing locations are included as Attachments A and B to this report.

A finding of compliance with the General Plan was previously made and is shown on page 2.5 of the adopted FY 2019 Capital Improvement Program (CIP).

The Department of Public Works prepared plans and specifications for this project. In accordance with Section 4.08.070 of the Pasadena Municipal Code, bids were requested and received. The project was advertised in the *Pasadena Journal* on June 21, 2018. In addition, the Notice Inviting Bids was published in two trade publications and published on the City's website, which generated notices to 51 local vendors. Bid packets were obtained by 44 contractors, three of whom submitted bids for the project.

A Local Hiring Provision to notify the labor unions of the goal to employ qualified Pasadena residents for 75 percent of new labor work hours on the project was included in the project specifications.
