## Affordability Gap and In Lieu Fee Calculation

The City of Pasadena's (City) Inclusionary Housing Ordinance (IHO) requires that 15 percent of all newly constructed residential units be sold or rented to low and moderate income households at affordable housing costs, as detailed in Table 1.

Unit Type	Percent of Housing at Percent of AMI	Affordable Housing Cost
Ownership	15% at $\leq$ 120% Los Angeles County Median Income (AMI) as determined by HCD ("Moderate Income")	Total housing cost must not exceed 40% of 110% AMI.
Rental	10% at $\leq$ 80% AMI ("Low Income") and 5% at $\leq$ 120% AMI ("Moderate Income")	<b>Low Income Units:</b> Total housing cost must not exceed 30% of 80% AMI. <b>Moderate Income Units:</b> Total housing cost must not exceed 30% of 120% AMI.

As an alternative compliance option, the IHO allows developers to pay a fee in lieu of constructing new affordable units ("in lieu fee"). The City publishes an in lieu fee schedule that it periodically revises in accordance with changes in the Los Angeles County Area Median Income (AMI) and changes in market prices of newly constructed rental and ownership units in the City. DRA's analysis determines in lieu fee amounts for rental and condominium housing. To account for local variances in housing market conditions, we have analyzed four rental and four homeownership housing market Sub-Areas ("Rental Sub-Area" and "For-Sale Sub-Area") within Pasadena, calculating different in lieu fees for each Sub-Area.

DRA's calculation of in lieu fees is derived from an affordability gap analysis that looks at the differential between market prices of new housing units (rental and ownership) and the prices low and moderate income households can afford to pay, as determined in accordance with the IHO affordable housing requirements and certain analytical assumptions detailed later in this analysis.

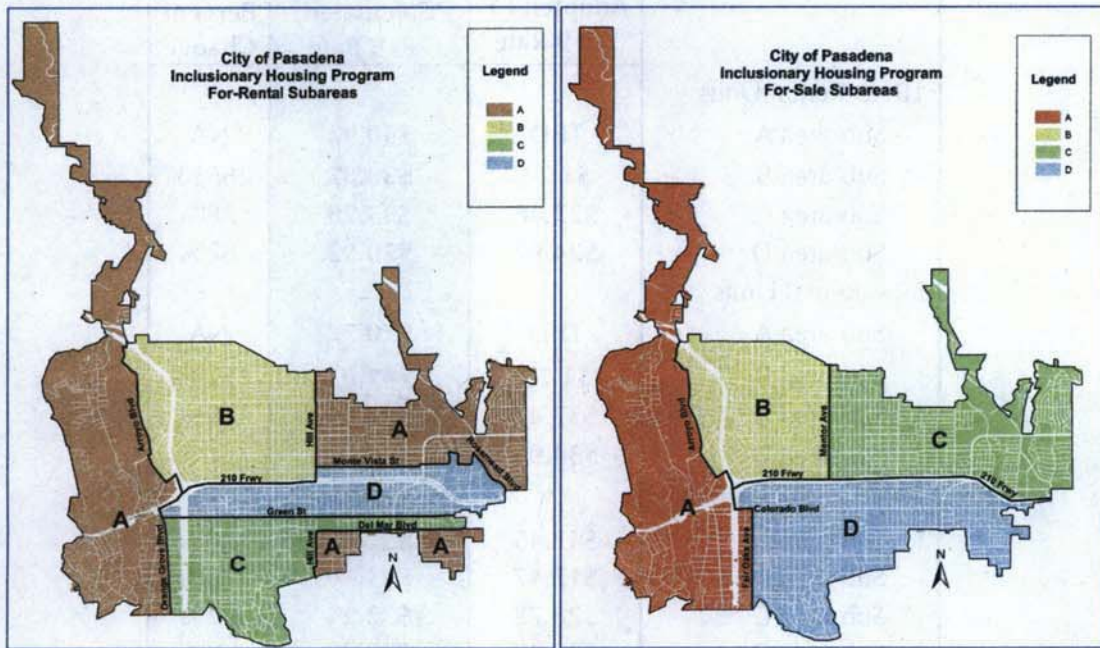

In the first part of the analysis, DRA examines the rental and condominium Sub-Areas within Pasadena and provides a detailed summary of rental and for-sale housing market

prices within each Sub-Area. Using information provided in the market survey, we then formulate new construction development prototypes for rental and condominium projects. In the final two sections of this analysis, we present our affordability gap and in lieu fee conclusions by Sub-Area for each of these housing product types.

### Housing Market Sub-Areas

This analysis uses the Rental Sub-Area and For-Sale Sub-Area maps shown below. Each map subdivides the Pasadena housing market into respective rental and for-sale Sub-Areas based on similarities and variations in housing market characteristics. We review market price data for new rental and condominium developments in order to establish market rent and sales prices for each Sub-Area. We then compare these market prices with the affordable rents and sales prices, as determined pursuant to the City's affordability requirements. This comparison allows DRA to quantify rental and condominium affordability gaps for each Sub-Area, which in turn form the basis for the in lieu fees for each housing product type in each Sub-Area.

## Housing Prototypes

Table 16 of Appendix A details three housing prototypes used in this affordability gap and in lieu analysis. These prototypes were developed by DRA based on our market analysis of recently built and proposed rental and condominium projects in the City of Pasadena. For purposes of this analysis, the prototypes serve to establish prototypical unit sizes and the mix of bedroom types for rental and condominium developments.

## Summary of Proposed In Lieu Fees

Table 2 details the in lieu fees calculated for this analysis in comparison to the rates adopted by the City for Fiscal Year 2019. The remainder of this report details DRA's analysis and assumptions underlying these conclusions.

<b>Table 2</b>			
<b>City Of Pasadena In Lieu Fee Schedule 2018</b>			
	<b>Adopted FY 2019 Rate</b>	<b>Calculated 2018 Rate</b>	<b>Percent Change</b>
10-49 Rental Units			
Sub-area A	TBD	<b>\$50.92</b>	NA
Sub-area B	\$1.23	<b>\$33.87</b>	2653%
Sub-area C	\$27.46	<b>\$35.28</b>	28%
Sub-area D	\$24.97	<b>\$50.92</b>	82%
50 + Rental Units			
Sub-area A	TBD	<b>\$70.72</b>	NA
Sub-area B	\$1.23	<b>\$47.03</b>	3723%
Sub-area C	\$37.47	<b>\$48.99</b>	31%

Sub-area B	\$23.72	<b>\$43.19</b>	82%
Sub-area C	\$39.96	<b>\$44.78</b>	12%
Sub-area D	\$31.22	<b>\$72.82</b>	133%

## Rental Housing Affordability Gap Analysis

The rental housing affordability gap analysis compares estimated rent levels at hypothetical new apartment developments--located in each of the Rental Sub-Areas and based on the rental housing prototype--with the amount low, and moderate income households can afford to pay for rental housing.

As summarized in Table 1, the IHO requires the developer of a rental project with 10 or more dwelling units to set aside 10 percent of the units for low income (80 percent AMI) households and 5 percent for moderate income (120 percent AMI) households.

### Rental Market Sub-Area Analysis

DRA conducted a rental market survey by compiling current rental data for newer studio, one- and two-bedroom rental units at apartment projects constructed since 2001. We surveyed 4 projects in Sub-Area C and 9 projects in Sub-Area D that meet these criteria. Our survey suggests that little if any new rental development occurred in Sub-Areas A and B since 2001, accordingly we do not provide a gap analysis for these Sub-Areas, but used an alternate methodology as described on page 8. Table 3 summarizes the results of this analysis, with additional detail provided in Table 17 of Appendix A.

	<b>Studio</b>	<b>1-BR</b>	<b>2-BR</b>
Sub-Area C Average Rent	\$2,507	\$2,566	\$2,984
Sub-Area C Ave. Unit Size (SF)	833	810	1,126
Sub-Area C Rent/SF	\$3.14	\$3.21	\$2.64
Sub-Area D Average Rent	\$2,310	\$2,428	\$3,278
Sub-Area D Ave. Unit Size (SF)	644	747	1,102
Sub-Area D Rent/SF	\$3.67	\$3.42	\$2.99

Source: DRA survey of rental properties

Newly constructed rental projects can secure rent premiums relative to existing projects. Accordingly, we apply a 20 percent premium to estimate likely rents for new apartment developments, resulting in the following rents per square foot:

<b>Table 4</b>			
<b>Estimated New Apartment Rents/SF</b>			
	<u>Studio</u>	<u>1-BR</u>	<u>2-BR</u>
Sub-Area C Rent/SF	\$3.61	\$3.69	\$3.04
Sub-Area D Rent/SF	\$4.22	\$3.94	\$3.44

Table 5 presents estimated market-rate rents for new developments based on the rental prototype by multiplying the above rent-per-square foot figures by the unit square footage amounts indicated in the rental housing prototype.

<b>Table 5</b>			
<b>New Apartment Prototype Rents</b>			
	<u>Studio</u>	<u>1-BR</u>	<u>2-BR</u>
Unit Size: Sub-Areas C & D	700 SF	800 SF	1,100 SF
Sub-Area C Projected Rent	\$2,528	\$2,950	\$3,343
Sub-Area D Projected Rent	\$2,951	\$3,150	\$3,786

## Maximum Income and Rents

### INCOME AND HOUSING COSTS

Using the 2018 HCD median income for Los Angeles County of \$69,300 for a family of 4, Table 6 shows current maximum annual household income and monthly rental housing cost for low and moderate income households, adjusted for family size and corresponding unit size. The calculation of maximum housing cost reflects the IHO requirement that no more than 30 percent of annual income be allocated to housing costs.

Table 6 Maximum Annual Income and Monthly Rental Affordable Housing Cost 2018 AMI for Family of 4: \$69,300					
Household Size	Unit Type	Low Income (80% AMI)		Moderate Income (120% AMI)	
		Income	Housing Cost	Income	Housing Cost
1 Person	Studio	\$38,808	\$970	\$58,212	\$1,455
2 Persons	1-BR	\$44,352	\$1,109	\$66,528	\$1,663
3 Persons	2-BR	\$49,896	\$1,247	\$74,844	\$1,871

#### UTILITY ALLOWANCES

DRA calculated affordable net rents by subtracting allowances for the utilities paid directly by the tenants from the maximum affordable housing cost. For this calculation, DRA has used 2015 utility allowances published by the Housing Authority of Pasadena, summarized in Table 7 below. These utility allowances assume residents pay for gas heating and water heating, electric cooking, air conditioning, and general electricity. It assumes the landlord pays for trash, water and sewer service.

Table 7 Utility Allowances Housing Authority of the County of Los Angeles (2018)	
Unit Type	Monthly Utility Allowance
Studio	\$40
One-Bedroom	\$54
Two-Bedroom	\$68

Assumes residents pay for gas heating and water heating, electric cooking, air conditioning, and general electricity

#### MAXIMUM IHO RENTS

Table 8 summarizes maximum low and moderate income rents based on the assumptions described above in Tables 6 and 7. Detailed calculations are shown in Table 18 of Appendix A.

Table 8 IHO Program Maximum Affordable Rents (2018)		
Unit Type	Maximum Rent	
	Low Income	Moderate Income
Studio	\$930	\$1,415
1-BR	\$1,055	\$1,609
2-BR	\$1,179	\$1,803

## Rental Housing Affordability Gap

Apartment units subject to IHO rent restrictions have less value relative to comparable market-rate units, resulting in an “affordability gap” that can be quantified by calculating the differences in capitalized value between market-rate and affordable units as a result of differences in net operating income (NOI) arising from IHO rent restrictions. This analysis assumes that market-rate units achieve rents indicated in Table 5, and that the affordable rents are at the levels indicated in Table 8. Other key assumptions of the capitalized NOI analysis include:

- Operating expenses before reserves and property taxes of \$3,850 per unit per year;
- Property taxes equal to 1 percent of the value of a unit (and, accordingly, lower for the rent restricted units);
- Replacement reserves of \$350 per unit per year;
- Other income of \$10 per unit per month applied to all units;
- Vacancy rate of 5 percent, applied to all units; and
- Capitalization rate of 6 percent.

Table 9 summarizes the conclusions of the affordability gap analysis, with the complete analysis presented in Tables 19 and 20 of Appendix A.

<b>Table 9</b>		
<b>Rental Housing Affordability Gap by Sub-Area</b>		
Capitalized NOI Valuation 2018		
Assumed Cap Rate	<u>Sub-Area C</u>	<u>Sub-Area D</u>
	6%	6%
<u>Market-Rate</u>		
NOI per Unit	\$ 25,251	\$ 28,149
Capitalized Value per Unit	420,852	469,148
<u>Moderate Income</u>		
NOI per Unit	12,217	12,217
Capitalized Value per Unit	203,610	203,610
<b><i>Moderate Income Gap to Market</i></b>	<b><i>217,242</i></b>	<b><i>265,538</i></b>
<u>Low Income</u>		
NOI per Unit	6,808	6,808
Capitalized Value per Unit	113,469	113,469
<b><i>Low Income Gap to Market</i></b>	<b><i>307,383</i></b>	<b><i>355,679</i></b>

## In Lieu Fee Calculation

The low and moderate income affordability gap figures in Table 9 serve as the basis for calculating appropriate in lieu fees for Rental Sub-Areas C and D. Table 10 presents these calculations on per-unit and per-square-foot basis, with additional detail provided in Table 21 of the Appendix. The in lieu fee calculations use the weighted average affordability gap as determined by applying the IHO affordability set-aside requirement of 10 percent low income and 5 percent moderate income. This calculation is detailed in Table 21 of Appendix A. Table 10 also presents in lieu fees for Sub-Areas A and B. Due to the absence of new construction apartment development (and corresponding new construction rents) in these areas, DRA used the following procedures instead of the gap analysis described above for determining rental housing in lieu fees for these Sub-Areas:

- Given the housing market similarities between Sub-Areas A and D, DRA set the apartment in lieu fee for Sub-Area A equal to the Sub-Area D in lieu fee.
- DRA determined the Sub-Area B in lieu fee by calculating the following ratio: Sub-Area B condo in lieu fee divided by Sub-Area C condo in lieu fee. We then multiplied this ratio (0.96) by the rental in lieu fee calculated for Sub-Area C (\$48.99), yielding a rental in lieu fee of \$47.03 for Sub-Area B. In employing this methodology, we assume that the relationship between apartment prices in the two areas, as expressed in terms of a ratio, will be similar to the relationship between condo prices in the two areas.

As indicated in Table 10, the City's in lieu fee policy calls for a 28 percent reduction in fees for projects with 10-49 units compared to projects with 50 or more units. The assessment of lower fees for smaller projects reflects long-standing City policy and is based on previous analysis conducted by the City.

<b>Rental In Lieu Fee by Sub-Area for Projects with 50 or More Units</b>				
	<b>Sub-Area A</b>	<b>Sub-Area B</b>	<b>Sub-Area C</b>	<b>Sub-Area D</b>
Weighted Average Affordability Gap			\$277,636	\$400,735
In Lieu Fee per Market-rate Unit			\$41,645	\$60,110
In Lieu Fee per Square Foot	\$70.72	\$47.03	\$48.99	\$70.72
<b>Rental In Lieu Fee by Sub-Area for Projects with 10-49 Units</b>				
In Lieu Fee per Square Foot	\$50.92	\$33.86	\$35.28	\$50.92

## Ownership Units Affordability Gap Analysis—Condominiums

### Condominium Market Sub-Area Analysis

Table 22 of Appendix A summarizes recent condominium sales by Sub-Area in the City from August 13, 2017 through August 13, 2018. For Sub-Area D, the sales are for units built since 2010 and sold since 2016. For the other Sub-Areas, there were not enough sales of units built since 2010 so all condominium sales from August 13, 2017 through August 13, 2018 are included. No condo sales were identified in Sub-Area A.

Using the condominium prototype, DRA estimated market sales prices for each Sub-Area by multiplying the unit square footage indicated for each bedroom type in the prototype by the adjusted average sale price per square foot (shown in Table 22) for the applicable Sub-Area. Table 11 gives the results of this analysis.

	<b>1-Bedroom Units</b>	<b>2-Bedroom Units</b>	<b>3-Bedroom Units</b>
Unit Size per Prototype Sub-Areas B & D	710 SF	1,500 SF	1,750 SF
Sub-Area B	\$355,604	\$751,275	\$876,488
Sub-Area D	\$495,821	\$1,047,510	\$1,222,095
Unit Size per Prototype Sub-Area C	NA	NA	2,616 SF
Sub-Area C	NA	NA	\$824,700

### Maximum Income and Sales Prices

#### INCOME AND HOUSING COSTS

Using the 2018 median income (effective March 2018) for Los Angeles County of \$69,300 for a family of four, Table 12 indicates current maximum annual household incomes and maximum affordable home purchase prices for moderate income households, adjusted for family size and corresponding unit size. The calculation of maximum affordable sale price reflects the IHO requirement that a household earning 110 percent of AMI allocate no more than 40 percent of annual income toward housing costs. In addition, the calculation includes the following assumptions:

1. Annual property tax equal to 1 percent of the restricted sale price;
2. Other housing expenditures (HOA dues, insurance, maintenance and utilities) of between \$3,600 and \$4,867 per year depending on unit size;
3. 5 percent down payment;
4. A 30-year, fully amortizing loan with an interest rate of 4.48 percent; and
5. Private mortgage insurance (PMI) of .75% of loan balance.

<b>Table 12</b>			
<b>Maximum Annual Income and Affordable Sale Price</b>			
2018 AMI for Family of 4: \$69,300			
<b>Household Size</b>	<b>Unit Type</b>	<b>Moderate Income (120% AMI)</b>	<b>Maximum Affordable Sale Price (110% AMI)</b>
2 Person	1-BR	\$66,528	\$285,600
3 Person	2-BR	\$74,844	\$319,400
4 Person	3-BR	\$83,160	\$352,000

Maximum affordable sale price based on 110% AMI.

Calculations of maximum sales prices are shown in Table 22 of Appendix A.

### **Condominium Ownership Affordability Gap**

Table 13 details the affordability gap by unit size for each Sub-Area, and then provides the calculation of the average affordability gap for the condominium prototype project assuming a unit distribution of 10 percent 1-bedroom units, 25 percent 2-bedroom units and 65 percent 3-bedroom units. (Table 24 provides additional detail on the affordability gap calculations.)

	<b>Sub-Area B</b>	<b>Sub-Area C</b>	<b>Sub-Area D</b>
<b>1-Bedroom Units</b>			
Market Price	\$355,604	NA	\$495,821
Affordable Price	\$286,000	\$286,000	\$286,000
Affordability Gap	\$69,604	NA	\$209,821
<b>2-Bedroom Units</b>			
Market Price	\$751,275	NA	\$1,047,510

Market Price	\$876,488	\$824,700	\$1,222,095
Affordable Price	\$352,000	\$352,000	\$352,000
Affordability Gap	\$524,488	\$472,740	\$870,095
<b>Weighted Average</b>			
Market Price	\$793,096	\$824,700	\$1,105,821
Affordable Price	\$337,000	\$352,000	\$337,000
<b>Affordability Gap</b>	<b>\$455,900</b>	<b>\$472,700</b>	<b>\$768,700</b>

### Condominium In Lieu Fee Calculation

The affordability gap results presented in Table 13 serve as the basis for calculating an appropriate in lieu fee. Table 14, which presents in lieu fees by Sub-Area on both a per-unit and per-square-foot basis, summarizes DRA's in lieu fee calculation, which is presented in additional detail in Table 24 of Appendix A.

Due to the absence of new construction condominium development sales data in Sub-Area A, DRA used the Sub-Area D in lieu fee for Sub-Area A, given the housing market similarities between the two areas.

<b>Table 14</b>				
<b>Condominium In Lieu Fees by Sub-Area Projects with 50 or More Units</b>				
	<b>Sub-Area A</b>	<b>Sub-Area B</b>	<b>Sub-Area C</b>	<b>Sub-Area D</b>
Affordability Gap	\$768,700	\$455,900	\$472,700	\$768,700
In Lieu Fee per Unit	\$115,305	\$68,385	\$70,905	\$115,305
<b><i>In Lieu Fee per Square Foot</i></b>	<b><i>\$72.82</i></b>	<b><i>\$43.19</i></b>	<b><i>\$44.78</i></b>	<b><i>\$72.82</i></b>
