Total			925,000	925,000	0	0	0	0	0

DESCRIPTION: This project provides for the installation of a traffic signal at the intersection of Fair Oaks Avenue and Bellevue Drive.

JUSTIFICATION: Two marked uncontrolled crosswalks currently exists at the intersection of Bellevue Drive and Fair Oaks Avenue. This crosswalk serves students walking to Waverly School as well as other businesses in the area. The location of this intersection between California Boulevard and Del Mar Boulevard provides for effective vehicle platooning through the installation of a traffic signal. A traffic signal installed at this location will enhance pedestrian safety.

SCHEDULE: Construction will begin in FY 2021.

RELATIONSHIP TO THE GENERAL PLAN: This project is consistent with Mobility Element Program 3.10 (Enhance Signalized Intersections for all Road Users) by considering the volume of school children, the elderly, and persons with disabilities in intersection design and traffic signal control equipment.

HISTORY: This project was created, received initial funding in FY 2019, and was fully funded in FY 2020.
