Honorable Councilmembers.

Thousands of hard-working hospitality workers, including many Pasadena residents, have lost their jobs.

Glendale, the City of Long Beach, and the County of Los Angeles recently passed similar a right of recall policy to ensure that hotel workers displaced because of the COVID-19 pandemic. Please support the Pasadena recall and retention law to ensure our hard-working hospitality workers also get the protection they deserve.

After 9/11, the City of Santa Monica passed a right of recall policy to ensure that hotel workers displaced by the economic impact of 9/11 would return to work. Glendale, the City of Long Beach, and the County of Los Angeles recently passed similar policies to deal with the economic insecurity wrought by the COVID-19 pandemic. Honorable Councilmembers,

Pasadena's housekeepers, cooks and dishwashers built our city's hotel industry through their backbreaking work, and now these low-wage workers are among the hardest hit by the COVID-19 crisis. Glendale, Los Angeles County and Long Beach have done the right thing and passed common sense policies that will ensure hotel workers a right to return to their same jobs as business returns. Pasadena's dedicated Hospitality Worker's need our Politicians to step up and do everything to protect the job security of these critically important but under-represented members of tge Pasadena workforce and their important contributions to our local economy. They need and rightfully deserve to have their former jobs protected, and to be ensured that once the economy re-opens they can resume their employment and income for themselves and their families. Your leadership towards this important goal and initiative is being called upon. Please do the right thing to ensure their job security. They depend on your support. just as you depend on theirs.

Honorable Councilmembers,

If the government is not there to protect its people, what is the government for? Why did you enter politics?

The COVID crisis has laid the flaws in our system bare. It turns out the workers we consider "essential" are the worst-paid, worst-treated functional underclass. We label them essential, but we've economically stripped away all the dignity and security their essentialness to us have provided. Unemployment is off the charts, but the stock markets hardly notice-- remember when the economy was supposed to be about the best for all of us? You're older than me, then. I never got the chance.

You must pass the Worker Retention and Recall ordinance. And we owe to every low-wage service worker a serious rethinking on why their slaving is valued so little but rich people selling lies to other rich people is where government money inevitably goes.
