Proposition 209, passed in November 1996, ended the use of race and gender conscious decision-making in California in the areas of public employment, public education, and public contracting or procurement.

Collecting and reporting Minority and Women Business Enterprise data demonstrates that these criteria feature in the contracting decisions made by the City of Pasadena.

Otherwise, why collect the data?

Recently, our female Black City Attorney fraudulently sought to portray Whites as the primary offenders of hate crimes against Asians in a Resolution you all stupidly voted for instead of properly vetting its content. This was clearly part of a scheme on the part of the drafter of the Resolution to stir up hate directed towards Whites. In fact, Blacks are the primary offenders of hate crimes against Asians.

Blacks commit nearly all of the interracial violence and murder in Pasadena.

You now have stark evidence before you that these race and gender obsessed City Government employees are not complying with Proposition 209. City employees should be forced to stop making illegal public contracting decisions based on race and gender.

Amusingly, much of the “minority” contracting is now going to Asian owned businesses at a time when Asians have the highest household income in the USA.

You are following critical race theory, which demands that society practice racial discrimination to rectify racial disparities but is not compatible with California law.

As a result, City of Pasadena government is fomenting racial discord and stirring up racial animosity by insisting that people be treated based on group membership, not as individuals.

You are practicing state sponsored neo-racism.
