I am a long time resident of Pasadena and support the Zoning Code Amendment to the city's existing Cannabis Businesses regulations.

I urge the council to approve the proposed Zoning Code Amendment, permitting up to three dispensaries per council district and reducing the distance requirement between cannabis dispensaries from 1000 to 450 feet, allowing remaining approved operators to open in their preferred locations.

The original measure CC adopted by the City with majority support by Pasadena residents allowed up to six dispensaries in Pasadena, and the City selected six applicants. However, the implementation by the City permitted only up to four dispensaries to open, and presently only two are open for business. Of the remaining two, one applicant has been disqualified, and the other, in Old Pasadena, has shown no signs of progress towards opening.

The City is losing jobs, tax revenues, and community benefits.

Changing the ordinance to permit three dispensaries per district and lessen the distance requirement between dispensaries will NOT place an undue burden on Pasadena's residents or community. These changes affect ONLY commercial zones in Pasadena, and do not have any impact on required distances from residential areas, churches, schools, etc.

For the above reasons, **please vote in favor** to approve the proposed Zoning Code Amendment, allowing Sweet Flower to open for business at the Colorado and Lake location.
