## RETURN OF ORDINANCE FOR FIRST READING

The City Council conducted a first reading of this Ordinance on February 8, 2021. Subsequent to this, Planning Department staff was notified of a potential technical error in the Ordinance as they had drafted it, and after reviewing the staff reports that were prepared for each public hearing that was conducted during the review process, Planning Department staff found that there was indeed an error and prepared this revised Ordinance to correct the error.

In the Ordinance that was prepared for the February 8, 2021 first reading, the following finding to approve an application for rescinding a Conservation Plan was included:

- “A simple majority (51%) of property owners within the district boundaries support the rescission of the conservation plan at the time of review by the City Council.”

However, both the Planning Department staff report that was submitted to the Planning Commission for its review of the Ordinance on September 23, 2020 and the Planning Department agenda report that was submitted to the City Council for its review of the Ordinance on January 11, 2021 state that staff recommends no finding be required to rescind a Conservation Plan. Neither the Planning Commission nor the City Council expressed concern with this recommendation; the language providing for a finding
