CA 91104

Comments:

Vaccines will end the Covid Pandemic. Therefore, we need to know the following: How many vaccines have been distributed in Pasadena. How many have been dumped or destroyed because they went bad before administering. The percentage of employees among city staff, Pasadena health facilities and schools who have refused to take the vaccine. When and where people in various categories will be able to get the vaccine. Just reciting endless information about Covid cases (which is inaccurate as it counts tests and not cases) and deaths is not enough. Please be more transparent about vaccines. We need much more information posted on the city's vaccine web page.

Comments:

I am a 78 year old resident of Pasadena. I understand that I am in Tier One of Phase 1b. I completely support the idea that the Phase 1a recipients should have priority. But I would like to get a better idea of how I will be notified when I become eligible to receive the vaccine. Here's a suggestion. Maybe the Pasadena Health Department can provide a way for people like me to register, so that we will be notified as soon as we are eligible.
