1. Project Name: Annual Citywide Street Resurfacing and ADA Improvement Program – FY 2022

Total Estimated Project Cost: \$3,750,000

FY 2022 RMRA Fund Appropriation Amount: \$2,700,000

Description: This project will resurface seven miles of asphalt paved roads. This resurfacing project will utilize rubberized asphalt. This method is a noise reducing pavement material that consists of regular asphalt concrete mixed with crumb rubber made from recycled tires. This sustainable paving practice diverts tires from the waste stream. This project has the capacity to divert over 12,000 tires from landfills, while also reducing noise, resisting cracking, lasts longer, provides better skid resistance, and retains a darker color longer providing contrast to pavement markings.

The stretches are listed below:

Schedule: This project will begin in FY 2022.

Project Useful Life: 15 years

2. Project Name: Pedestrian Safety Enhancements at Signalized Intersections

Total Estimated Project Cost: \$1,500,000

FY 2022 RMRA Fund Appropriation Amount: \$500,000

Description: This project will upgrade the intersections of Colorado Boulevard at Fair Oaks Avenue, and Lake Avenue at Mountain Street with various pedestrian safety enhancements. The enhancements will consists of the construction of curb extensions along with miscellaneous concrete work such as sidewalk, cross gutter, bus stop pad, curb, gutter curb ramp, and driveway. Additionally, the work also includes various utility relocation, the AC pavement reconstruction at the intersections, AC stamped crosswalk, traffic striping and traffic signal upgrades. The pedestrian safety enhancement features include the installation of a "scramble walk" which allows pedestrians to cross in all directions including diagonally while vehicle traffic at all intersections is at a full stop.

Schedule: In FY 2022, construction will be completed for the intersections of Colorado Boulevard at Fair Oaks Avenue, and Lake Avenue at Mountain Street.

Project Useful Life: 20 years
