RESOURCES PLAN**

Recommendation: It is recommended that the City Council:

- (1) Find that the proposed action is exempt from the California Environmental Quality Act ("CEQA") pursuant to State CEQA Guidelines Section 15262, Feasibility and Planning Studies; and
- (2) Approve and adopt the 2020 Water System and Resources Plan.

Recommendation of the Municipal Services Committee: On September 28, 2021, the Municipal Services Committee ("MSC") unanimously recommended the 2020 Water System and Resources Plan be adopted by the City Council. The MSC also recommended that Pasadena Water and Power Department ("PWP") work closely with the Raymond Basin Management Board ("RBMB") in developing policies, programs, and projects that address the safe-yield (amount of water that can be withdrawn from the basin without producing an adverse effect) and measures that would help the basin levels stabilize and recover. PWP should provide updates to MSC every six months on progress achieved with Raymond Basin activities.

Vice Mayor Wilson, Chair of the Municipal Services Committee (MSC), summarized the Committee's discussion, unanimous approval to adopt the 2020 Water System and Resource Plan (WSRP), and the direction given to staff on the matter.

Kennedy, experts in the field and concerned residents of Pasadena" to accompany the 2021 Water System Resource Plan. He advocated to not approve the WSRP, requested that staff provide information on the City's supply and demand policy to the City Council, and for staff to return to the City Council with information on how they will meet such policies within 90 days. In addition, he advocated for the City Council to support the City's plan to replace or repair the City's aging delivery infrastructure; the City Council to not support projects that may cause further decline of the Raymond Basin, requested full transparency regarding the City's quality of water supply; and for the City to be responsive to the residents' environmental equity and justice concerns.

Mayor Gordo voiced support for Councilmember Kennedy's request for the City to invest in long-term conservation and infrastructure, but noted his support for the staff recommendation.

In response to Mayor Gordo's questions on the benefits of approving the WSRP, City Manager Mermell responded that due to water issues such as water availability, the WSRP will be reviewed frequently to address water levels and the City working with the RBMB. He stated that approving the WSRP would allow for significant reinvestment in the City's water infrastructure, result in water conservation measures, and provide fiscal information for such conservation measures; and responded to questions.

Brad Boman, Water and Power Engineering Manager, confirmed that staff edited the Managing Water Demand data in the PowerPoint presentation that was presented to MSC, explaining the data was updated to reflect current year 2021 information, as well as forecasting into 2045; and responded to questions.

Councilmember Kennedy expressed concerns with the staff recommendation, stating he is not convinced that the use of ShotsSpotter system is the right technology for the City; the potential for such technology to unfairly label communities in the City; and data provided by staff inadequately supports the recommendation, as he believes it to be anecdotal. He also spoke on examples of other cities that have used the ShotSpotter system and have not shown improved statistics in terms of solving or preventing crimes. Therefore, he is unable to support the staff recommendation until adequate empirical data is provided. He advocated to use the ShotsSpotter system funds for community incentive-based programs as a way to help PPD bring criminals to justice. Councilmember Kennedy advocated for the Community Police Oversight Commission, the Independent Police Auditor, and the PPD to thoroughly analyze the proposed ShotsSpotter system technology.

Mayor Gordo spoke in favor of the staff recommendation and the direction to staff to return within 12 months to the Public Safety Committee with an update on the ShotsSpotter system. He stated that any CPOC review of the ShotsSpotter system would require the recusal of CPOC members that have spoken on the matter to avoid a conflict of interest.

It was moved by Councilmember Hampton, seconded by Mayor Gordo, to approve the staff recommendation with direction to staff to provide an update report on the ShotsSpotter system to the Public Safety Committee within 12 months:
