I am writing to comment about the CUP #6816 that should have been approved in Feb 17, 2021. It is not fair for the Linda Rosa market not to expand their business into sales for hard liquor outside of beer and wine which makes up a larger portion of allotted space in this supermarket. For a negligible expansion into these sales which prove convenient for customers due to parking availability and simultaneous shopping for food, I think it is appropriate that the CUP 6816 should be approved as California ABC has granted authority to proceed forward in the market's expansion into such sales. The parking lot has been repaved to accommodate customers and attract better business for this store. All restrictions should be removed and the permit should be approved.
