(Please send this message to the mayor and all councilmembers.)

Dear Mayor Gordo and Councilmembers,

While the ALTEC AT235 is electric and a good telescopic aerial device to use, the internal combustion Ford F550 which transports it is not. Instead of buying the internal combustion F550, you should get the Lightning Electric Zero Emission F550 Conversion with an ALTEC AT235 attached to it. There is no reason why Pasadena should get a fossil-fueled F550 when there is an electric conversion alternative.

Lightning F-550 F-550

Specifications

Sincerely,

Benjamin Garza
