Hi, my name is Cristian, I am a local union carpenter out of Carpenters Local 661. Carpenters Local 661 represents over 5,000 working families in the area which include members that live, work, and make us of the businesses in and around the Pasadena area. We would like to see Labor Standards and or policy included in the 2021-2029 Housing Element. In future projects under this plan, the city of Pasadena should explicitly incorporate language that requires family supporting wages, healthcare for workers, and all contractors must participate in a state-approved apprenticeship program, and local hire as a condition of approval for this project.

Specifically:

The construction workforce should require;

- Full family health plans
- All contractors must either participate in a state-approved apprenticeship program or request the dispatch of apprentices from a program
- Paid sick leave. Pension, and vacation-holiday pay.

High quality responsible bidder standards should be established to ensure high quality construction performance;

-Construction contractors at every level comply with labor law and have no history of fraudulent or grossly negligent business practices.

- General Contractors should be required to self perform a

Minimum of 5% of all construction craft work for which they are responsible.

We believe all Pasadena locals deserve an innovative economic solution that puts them on the path to build better careers, increase access to family healthcare, and enrich the community at large.

Local 661 Carpenters Union Member,

Cristian Granados

- All contractors must either participate in a state-approved apprenticeship program or request the dispatch of apprentices from a program
- Paid sick leave. Pension, and vacation-holiday pay.

High quality responsible bidder standards should be established to ensure high quality construction performance;

-Construction contractors at every level comply with labor law and have no history of fraudulent or grossly negligent business practices.

- General Contractors should be required to self perform a

Minimum of 5% of all construction craft work for which they are responsible.

We believe all Pasadena locals deserve an innovative economic solution that puts them on the path to build better careers, increase access to family healthcare, and enrich the community at large.

Local 661 Carpenters Union Member,

Teno Mendez

Email: [housingelement@cityofpasadena.net](mailto:housingelement@cityofpasadena.net) [correspondence@cityofpasadena.net](mailto:correspondence@cityofpasadena.net)

Hi, my name is Nicolas, I am a local union carpenter out of Carpenters Local 661. Carpenters Local 661 represents over 5,000 working families in the area which include members that live, work, and make us of the businesses in and around the Pasadena area. We would like to see Labor Standards and or policy included in the 2021-2029 Housing Element. In future projects under this plan, the city of Pasadena should explicitly incorporate language that requires family supporting wages, healthcare for workers, and all contractors must participate in a state-approved apprenticeship program, and local hire as a condition of approval for this project.

Specifically:

The construction workforce should require; -Full family health plans

-All contractors must either participate in a state-approved apprenticeship program or request the dispatch of apprentices from a program

-Paid sick leave. Pension, and vacation-holiday pay.

High quality responsible bidder standards should be established to ensure high quality construction performance; - Construction contractors at every level comply with labor law and have no history of fraudulent or grossly negligent business practices.

- General Contractors should be required to self perform a Minimum of 5% of all construction craft work for which they are responsible.

We believe all Pasadena locals deserve an innovative economic solution that puts them on the path to build better careers, increase access to family healthcare, and enrich the community at large.
