

Agenda Report

May 23, 2022

TO: Honorable Mayor and City Council
FROM: Rose Bowl Operating Company (RBOC)
SUBJECT: International Soccer Match in Partnership with AEG to be held on Tuesday, July 26, 2022 or Saturday, July 30, 2022.

RECOMMENDATION:

It is recommended that City Council:

1. Find that the license agreement proposed herein is categorically exempt under California Environmental Quality Act (CEQA) Guidelines Section 15323 (Normal Operations of Facilities for Public Gatherings), there are no features that distinguish this project from others in this exempt class, and therefore there are no unusual circumstances present; and
2. Make the findings set forth herein and required by PMC Section 3.32.270.A to authorize the RBOC to host displacement event number 24 for 2022.

BACKGROUND:

The Rose Bowl has had a tremendous history of hosting international soccer at our venue, including the finals of both the men's and women's World Cups as well as the Finals of the Olympics in 1984, and COPA America in June of 2016. Our historic landmark has also hosted national teams of United States, Brazil, and Mexico. In addition, the stadium hosted the Los Angeles Galaxy as a tenant from 1996-2002. In recent years, the Rose Bowl has hosted European club teams, specifically Barcelona, Real Madrid, Chelsea, Inter Milan, and Manchester United.

The RBOC has the opportunity to host an international soccer match with AEG in July 2022. AEG, who owns the LA Galaxy who used to play at the Rose Bowl, is the RBOC's soccer partner on all matches at the stadium. The attendance for the event is expected to be approximately 50,000-80,000.

Displacement Events:

The soccer match would be the 24th displacement event in 2022. The first 23 displacement events in 2022 are: eight scheduled UCLA football games, the Rose Bowl Game, 10 Music Festival dates, two concerts with KAMP Global, and one soccer match

with Soccer United Marketing in September. It should also be noted that the annual AmericaFest 4th of July celebration has been approved by the RBOC and is also being presented to Council for approval as the anticipated 23rd displacement event, with the soccer match then being the anticipated 24th displacement event.

Displacement Event Findings:

The Arroyo Public Lands Ordinance (Pasadena Municipal Code Section 3.32.270) establishes guidelines and policies related to the administration of the Arroyo Seco, including the Rose Bowl. The ordinance states that the City seeks to achieve a balance between the use of the Rose Bowl and impact of such use on surrounding residential areas. To achieve that balance, Section 3.32.370 of the ordinance limits the number of displacement events to no more than 15 in any calendar year except with the permission of the City Council. In order to exceed 15 displacement events, the City Council must make certain findings.

The July soccer match is anticipated to be the 24th displacement event in 2022. The first 23 displacement events of 2022 are outlined above in this report.

Below are the findings and the rationale for making such findings for all potential match dates:

1. "The additional event represents a unique opportunity that will enhance the stature of the Rose Bowl." The soccer match would be similar in terms of matchup and operations as past matches at the Stadium. The event would garnish significant publicity for the Rose Bowl and Pasadena leading up to the event and continue to contribute to the Rose Bowl's reputation as a world class venue. This is particularly applicable to this soccer match as the stadium approaches the possibility of hosting the World Cup in 2026, and Olympic soccer in 2028.
2. "The revenue generating potential from the event justifies its consideration." It is estimated that this event will directly generate in excess of \$300,000 for the RBOC for each match. In addition, the City of Pasadena would receive a positive economic impact as a result of the portion of sales tax and bed tax that will revert to the City and to businesses in the City arising from significant fan presence in Pasadena. The RBOC will work in partnership with the PCOC to measure direct financial impacts to the within the City.
3. "It is anticipated that the event will not create undue conflicts with Arroyo Seco activities taking place at the same time." Staff will work closely with the Parks and Natural Resources Division of the City of Pasadena, as well as the Pasadena Police Department to best control the displacement of other activities in the Arroyo Seco. As in the past, while these types of events will

displace recreational activities, staff is able to minimize displacement to as few hours on event day as possible, so that displacement does not take place the entire day.

4. "The event does not impose undue adverse impacts on the surrounding residential area." Planning and preparation will be implemented to minimize impact of the event to the surrounding neighborhoods. The Police Department and staff work carefully with the surrounding area to maintain success in hosting displacement events with minimal disruption and impact.

ENVIRONMENTAL:

State CEQA Guidelines Section 15323 exempts from CEQA review of "normal operations of facilities for public gatherings for which the facilities were designed, where there is a past history of the facility being used for the same or similar kind of purpose." Stadium soccer matches are specifically enumerated as one of the types of activities covered by this exemption. The Rose Bowl Stadium has hosted numerous soccer matches over its history. There is no indication that these soccer matches will be any different in terms of environmental effects than any other soccer match hosted in the Bowl in the past, therefore there are no features that distinguish this event from others in the exempt class. The Stadium is the quintessential facility for public gathering, and the RBOC and its staff are well versed in managing the impacts of its use for displacement events such that they are minimized to the maximum extent feasible. Accordingly, there are no unusual circumstances present that would cause this event to fall outside of this exemption.

FISCAL IMPACT:

It is anticipated that the RBOC will generate in excess of \$300,000 from this event.

Respectfully submitted

Darryl Dunn
General Manager of the Rose Bowl Stadium
