Dear City Council Members and Staff,

As a constituent who cares deeply about the safety and sustainability of our community, I am writing to support the Top 11 Project status of the following Measure R Mobility Improvement Projects:

- 1) North/South Greenways to reduce high speed, cut-through traffic on neighborhood streets, making residential areas quieter and safer.
- 2) Continental Crosswalks to enhance pedestrian safety at more than 100 intersections.
- 3) Avenue 64 Complete Streets Program to install long-overdue safety improvements on a dangerous road.
- 4) Traffic Calming and Complete Streets Program for Pasadena and St. John Avenues, with the enhancements detailed in the letter from the Pasadena Complete Streets Coalition, to repair two corridors damaged by Caltrans decades ago.

I also support the request of the Friends of the Arroyo Link that the City Council direct Staff to repackage the Arroyo Link project as a \$10 million design and build project. I recognize that an alternative route may be identified and selected as part of the design process.

Please approve the top 11 priorities approved by the Municipal Services Committee and DOT staff. Together, these changes will improve mobility, safety, public health, and sustainability across the entire city.

Thank you!

Some people who received this message don't often get email from [redacted].org. [Learn why this is important](#)

CAUTION: This email was delivered from the Internet. Do not click links or open attachments unless you **know** the content is safe. Report phish using the Phish Alert Button. [Learn more...](#)

Dear Pasadena City Council Members,

I am writing on behalf of Sequoyah School. The school's leadership has followed the successful relinquishment of State Route (SR) 710 Northern Stub to the City of Pasadena and appreciates the recent opportunities to be involved in re-envisioning improvements to the streetscape in the SR 710-corridor surrounding the school. We also look forward to becoming involved in the process determining the eventual transformation of the whole neighborhood including the "Ditch".

School representatives observed the August 24th Transportation Commission (TAC) meeting during which commissions members reviewed the Pasadena Department of Transportation staff recommendation and report summarizing the Measure R Mobility Improvement Projects (MIP) List. We were pleased to hear TAC's thoughtful discussion and concluding vote in support for the MIP List. We urge City Council Members to affirm the TAC recommendation.

Sequoyah School's elementary program campus is located at 535 S. Pasadena Avenue and the school has recently purchased property at 500 S. Pasadena Avenue to accommodate administrative offices. The school believes that the MIP List, in particular the Pasadena Avenue and St. John Roadway Network, address many of the concerns that members of the school community have expressed over time and specifically during the public outreach phase of concept development.

Our concerns include: the high speed and volume of traffic along Pasadena Ave. as cars accelerate towards freeway onramps, the safety of pedestrians and bikers along California Blvd. and Pasadena Ave., the distance for pedestrians to cross at the Pasadena Ave./California Blvd. intersection, the poor conditions of narrow sidewalks and lack of sidewalks, the entrance approach and exit from the school parking lot onto Pasadena Ave., the need for a safe pedestrian crossing across Pasadena Ave. to Palmetto St., and the high speed of traffic along St. John Avenue near Singer Park.

We are pleased to see that the Pasadena Avenue and St. John Roadway Network is listed as a high priority, and we urge you to support implementation of the MIP List. These are improvements that could save many lives.

Thank you for all your efforts in this regard.

Dear City Council Members,

As a constituent who cares deeply about the safety and sustainability of our community, I am writing to support the Top 11 Project status of the following Measure R Mobility Improvement Projects:

- 1) North/South Greenways to reduce high speed, cut-through traffic on neighborhood streets, making residential areas quieter and safer.
- 2) Continental Crosswalks to enhance pedestrian safety at more than 100 intersections.
- 3) Avenue 64 Complete Streets Program to install long-overdue safety improvements on a dangerous road.
- 4) Traffic Calming and Complete Streets Program for Pasadena and St. John Avenues, with the enhancements detailed in the letter from the Pasadena Complete Streets Coalition, to repair two corridors damaged by CalTrans decades ago.

I also support the request of the Friends of the Arroyo Link that the City Council direct Staff to repackage the Arroyo Link project as a \$10 million design and build project. I recognize that an alternative route may be identified and selected as part of the design process.

Please approve the top 11 priorities approved by the Municipal Services Committee and DOT staff. Together, these changes will improve mobility, safety, public health, and sustainability across the entire city.

Thank you!

McMillan, Acquanette (Netta)
