Dear City Council Members,

As a community member who cares deeply about the safety and sustainability of our community, I am writing to support the Top 11 Project status of the following Measure R Mobility Improvement Projects:

- 1) North/South Greenways to reduce high speed, cut-through traffic on neighborhood streets, making residential areas quieter and safer.
- 2) Continental Crosswalks to enhance pedestrian safety at more than 100 intersections.
- 3) Avenue 64 Complete Streets Program to install long-overdue safety improvements on a dangerous road.
- 4) Traffic Calming and Complete Streets Program for Pasadena and St. John Avenues, with the enhancements detailed in the letter from the Pasadena Complete Streets Coalition, to repair two corridors damaged by CalTrans decades ago.

I also support the request of the Friends of the Arroyo Link that the City Council direct Staff to repackage the Arroyo Link project as a \$10 million design and build project. I recognize that an alternative route may be identified and selected as part of the design process.

Please approve the top 11 priorities approved by the Municipal Services Committee and DOT staff. Together, these changes will improve mobility, safety, public health, and sustainability across the entire city.

Thank you for your time and consideration.

Sincerely,
Jennifer H.

Dear Municipal Services Committee,

As a member of the Caltech community, I am concerned about safety for people riding bikes and walking on Wilson Ave. Please support a high priority ranking for the Greenways Project in the Measure R funding request, so that the Greenways can be built soon and Wilson Avenue can be as made safe as possible.

I am one of the over 200 people who have expressed support for the "Wilson For All" concept available at <https://www.wilson4all.org>. We are asking the city to add protected bike lanes and mid-block crosswalks to Wilson Avenue, as part of the Greenways project. We've been waiting seven years for the city to deliver on its promise to improve safety on Wilson Avenue - it is time to get it done.

Please support applying Measure R funding to the Greenways projects, so that these projects can be built soon. And, please support designs that are as safe as possible for people riding bikes and walking in Pasadena.

Thank you!

- 2) Continental Crosswalks to enhance pedestrian safety at more than 100 intersections.
- 3) Avenue 64 Complete Streets Program to install long-overdue safety improvements on a dangerous road.
- 4) Traffic Calming and Complete Streets Program for Pasadena and St. John Avenues, with the enhancements detailed in the letter from the Pasadena Complete Streets Coalition, to repair two corridors damaged by CalTrans decades ago.

I also support the request of the Friends of the Arroyo Link that the City Council direct Staff to repackage the Arroyo Link project as a \$10 million design and build project. I recognize that an alternative route may be identified and selected as part of the design process.

Please approve the top 11 priorities approved by the Municipal Services Committee and DOT staff. Together, these changes will improve mobility, safety, public health, and sustainability across the entire city.

Thank you!
Aaron Salinger

Dear Pasadena City Council Members,

As a constituent who cares deeply about the safety and sustainability of our community, I am writing to support the Top 11 Project status of the following Measure R Mobility Improvement Projects:

- 1) North/South Greenways to reduce high speed, cut-through traffic on neighborhood streets, making residential areas quieter and safer.
- 2) Continental Crosswalks to enhance pedestrian safety at more than 100 intersections.
- 3) Avenue 64 Complete Streets Program to install long-overdue safety improvements on a dangerous road.
- 4) Traffic Calming and Complete Streets Program for Pasadena and St. John Avenues, with the enhancements detailed in the letter from the Pasadena Complete Streets Coalition, to repair two corridors damaged by CalTrans decades ago.

I also support the request of the Friends of the Arroyo Link that the City Council direct Staff to repackaging the Arroyo Link project as a \$10 million design and build project. I recognize that an alternative route may be identified and selected as part of the design process.

Please approve the top 11 priorities approved by the Municipal Services Committee and DOT staff. Together, these changes will improve mobility, safety, public health, and sustainability across the entire city.

Thank you!

Dear City Council Members,

As a miraculous survivor of traffic violence (I was hit by a high-speed hit & run driver who ran a red light while I was crossing the Mountain/Allen intersection on my bicycle), I am writing to support the Top 11 Project status of the following projects:

- 1) North/South Greenways to reduce high speed, cut-through traffic on neighborhood streets, making residential areas quieter and safer. Over 450 residents have signed a petition in support of the Neighborhood Greenways Project.
- 2) Continental Crosswalks to enhance pedestrian safety at more than 100 intersections.
- 3) Avenue 64 Complete Streets Program to install long-overdue safety improvements on a dangerous road.
- 4) Traffic Calming and Complete Streets Program for Pasadena and St. John Avenues, with the enhancements detailed in the letter from the Pasadena Complete Streets Coalition, to repair two corridors damaged by CalTrans decades ago.

I also support the request of the Friends of the Arroyo Link that the City Council direct Staff to repackage the Arroyo Link project as a \$10 million design and build project. I recognize that an alternative route may be identified and selected as part of the design process.

Please approve the top 11 priorities that were approved by the Municipal Services Committee, as recommended by the Transportation Advisory Commission and DOT staff. Together, these changes will improve mobility, safety, public health, and sustainability across the entire city.

Further, I ask the Pasadena City Council to make safe active transportation a priority line item in the City of Pasadena budget, without depending wholly upon seeking external grant money. Pasadena is consistently ranked by the California Office of Traffic Safety as having some of the highest number of vehicle crashes among similar size cities. Pasadena residents and visitors want and deserve better.

Sincerely,
Gene Wester, PhD
District 2 Resident/homeowner

Thank you!
